Background

- ## About DSDP

Ministry of Skill Development & Entrepreneurship (MSDE) developed District Skill Development Plan (DSDP) tool kit to develop DSDP at district level. Karnataka Skill Development Corporation (KSDC) is focusing on Improved Quality and Market Relevance of Skill Development Programmes across the districts of the state. KSDC, Project Management Team (PMT) is working on the District Skill Development Plan. PMT collected data for District Skill Development Plan.

On the 'SANKALP' Portal, captured the details on District Overview, As Is Schemes, As-Is Trainer Data, As-Is ITI Trade Data, As-Is TC Information, As-Is Agri and Trainee Analysis. It helped in developing District Skill Matrix. District skill matrix is the tool to measure the skill training capacity and process maturity of the district w.r.t Technical and Vocational Training (TVET). The district skill matrix has been designed to be in sync with the State Improvement Grant (SIG) Matrix and is structured around the three components listed below

Component 1 – Institutional Strengthening

Component 2 – Enhancing Market Relevance and Quality

Component 3 – Inclusion and Access

- # District Skill Committees (DSCs)

Since the District Skill Committees (DSCs) are mandated to do planning and skill training they need assistance and guidance in the form of a standard framework. For example, most of the districts across the country have DSCs, but are called with different names such as District Skill Development Committee, District Skill Development Authority etc. The members of these committees are District administration officials from the various departments like Agriculture, Industrial Training & Employment, District Lead bank, District Industries Centre, Fisheries, Horticulture, Rural Development & Panchayat Raj etc. Members from industry and civil society organizations can also be co-opted under DSC.

District Skill committee is formed in Bagalkote district and the committee is engaging in (i) Planning, (ii) Mobilisation and Counselling, (iii)Industry engagement & Entrepreneurship, (iv) Monitoring & Evaluation and MIS and (v) other Support Functions. There are 16 members from different line departments are the members of the DSC and the committee chairperson is Deputy Commissioner of the district.

All the eight committees have been formed in Bagalkote district with all the requisite members appointed as per the requirement of DSC Skill Book Sub-committees are formed which can take up specific set of activities and projects. Some of the sub committees that the DSC is given below.

1.Mobilization and Counselling

S.No	Designation & Department	Composition
1	Project Director, District Urban Development Cell	Chairman
2	Deputy Director, Social Welfare	Member
3	Deputy Director, Department of Women & Child Welfare	Member
4	District Officer, Nehru Youth Services	Member
5	District Information Officer, Publicity Dept	Member

2. Training Quality

S. No	Designation & Department	Composition
1	District Employment Officer, District Employment exchange Office	Chairman
2	Principal, Akkamahadevi Womens Degree College	Member
3	Chief Employers	Member
4	Director, Rural Self Employment Training Institute (RSETI)	Member
5	TP/TC Representative	Member

3. Industry Interface

S. No	Designation & Department	Composition
1	Joint Director,District Industries Centre (DIC)	Chairman
2	President, KASSIA Bangalore	Member
3	President, KIADB Bagalkote	Member
4	President, Small Industries Association Bagalkote	Member
5	TP/TC Representative	

4. Self-Employment

S. No	Designation & Department	Composition
1	Joint Director, Centre for Entrepreneurship Development (CEDOK)	Chairman
2	Lead Bank Manager, Canara Bank	Member
3	Mission Manager, DAY NULM	Member
4	District Program Manager, NRLM Bagalkote	Member
5	Assistant Director, Department of Tourism	

5. Gram Panchayat Coordination

S. No	Designation & Department	Composition
1	Project Director , Zilla Panchayat	Chairman
2	All Executive Officers, Taluka Panchayat representative	Member
3	All Panchayat Development Officers Gram Panchayat representative	Member

6. Agriculture (Primary Sector)

S. No	Designation & Department	Composition
1	Joint Director, Department of Agriculture	Chairman
2	Deputy Director, Department of Animal Husbandary & Vetarnary Sciences	Member
3	Deputy Director, Department of Horticulture	Member
4	Deputy Director, Department of Fisharies	Member
5	Head & Senior Scientist, KrishiVigyan Kendra	Member

7. MIS, Monitoring & Convergence

S. No	Designation & Department	Composition
1	DSDO, District Skill Development Office	Chairman
2	District Information Officer, NIC	Member
3	District Statistical Officer	Member
4	Yes Centre Staff	Member

8. Capacity Building

S. No	Designation & Department	Composition
1	Additional Deputy Commissioner,	Chairman
2	Project Director, District Urban Development Cell	Member
3	District Labour Officer	Member

Objectives:

The objectives of adoption and usage of DSDP are as follows

- To understand the Skill ecosystem of Bagalkote district
- To create Institutional Mechanism for designing, implementation, M & E of skill development programmes and assign roles and responsibilities to streamline the process for achievement of desirable outcomes.
- To create convergence of skill development programmes to avoid the duplicity in the implementation at the district level and better utilisation of the financial resources
- To understand the type, nature and coverage of the skill development activities implemented by the other departments apart from State skill development mission (SSDM)
- To understand the capacity, competence and formal recognition of existing trainers in the district
- To understand the current capacity of training partners across the variety of sectors and job roles and examine the status of adoption of NSQF framework
- To understand the current role and capacity of primary sector in the economy of the district
- To understand the coverage of marginalised communities in the demand sector and job roles, placement of the candidates, average remuneration, etc.
- To understand the progress of the skill development activities within the district against the three major components

(a) Institutional Strengthening at the District Levels for Planning, Delivering, and Monitoring of Skill Development Programmes
(b) Improved Quality and Market Relevance of Skill Development Programs
(c) Improved Access and Completion of Skill Training for Women and Other Disadvantaged Groups.

- To understand the demand and perspective of the industry in terms of expected recruitment, job roles, skill gap, quality of training, incentivisation of skill workforce etc.
- To understand the gap between supply side and demand side for design and improvement of current policies and procedures.
- To create a holistic annual action plan with the defined outcomes based on the gaps identified during the study

• Objective of Annual Work Plan

The major objectives of the Annual Work Plan are

- To provide convergence platform among skilling stakeholders to standardize skilling, promote maximum utilization of resource under common skilling norms in the state
- To conduct workshops, capacity building and awareness programmes to promote the skill development programmes in the district
- To Study the demand and supply in district and implementing and monitoring such job roles quality training
- To Develop robust skill plans, monitoring and evaluation enable MIS system covering all skilling activates align with requirement of the district

BRIEF BACKGROUND ABOUT THE DISTRICT

- District Overview

Bagalkot district is an administrative district in the Indian state of Karnataka. The district headquarters is located in the town of Bagalkot. The district is located in northern Karnataka and Share border on the north with Bijapur district, on the east with districts of Raichur and Koppal, on the south with Gadag and Dharwad The new Bagalkot district was carved out of Bijapur in 1997 via Government of Karnataka directive Notification RD 42 LRD 87 Part III. The bifurcated Bagalkot district consists of nine taluks - Badami, Bagalkot, Bilagi, Guledgudda,Hungund, Ilkal, Jamakhandi, Mudhol, Rabakavi Banahatti and 624 villages. It has a total land area of 6,552 sq km, which is 3.4 percent of the total State area and with 12.31 percent of forest cover.

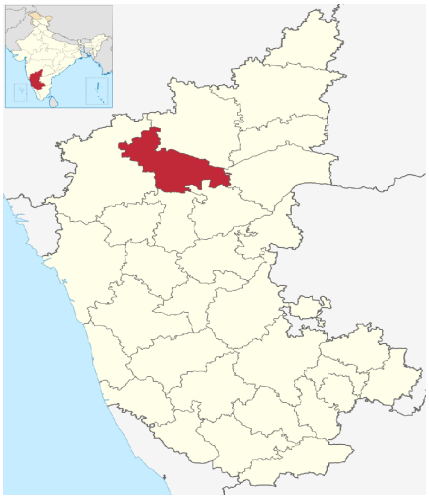

District has a population of 18,89,752 wherein 68.36 percent are from rural locality and 31.63 percent are from urban locality and district sex ratio is 989:1000. Agriculture is the main occupation, employing 23.98 percent as agriculture cultivators and 37.07 as agriculture labourers, household industries engage 5.48 percent and 33.47 percent others and total workforce of the district contribute to 43.29 percent of district population (2011 Census). Total land under agriculture 4700.64 sq km, Maize and jowar are the major cereals, Bengal gram is the major pulse, Sunflower is the major oil seed, Sugarcane is the major commercial crop, Onion is the major vegetable crop and banana is the major fruit crop grown in the district are the key crops grown. The district consists of 11 Sugar factories and enterprises capitalising on the resources and producing 8,48,211 MT of sugar, simultaneously engaging 30,273 enterprises (2015 Economic census).

Bagalkot district is rich in mineral wealth, the village of Kaladgi, located 24 km from the town of Bagalkot, harbours copper. Iron ore also exists in the southern part of the district.Like much of Karnataka, the gneiss is the most common rock family. Common rock types in the region include dolomite, greenstone, quartzite, sandstone and limestone. This has led to the setting up of several industries such as cement, granite cutting and polishing in the Ilkal taluk which is used in the construction and availability of iron ore mining in Hungund adds to the economy and employment opportunities in the district.

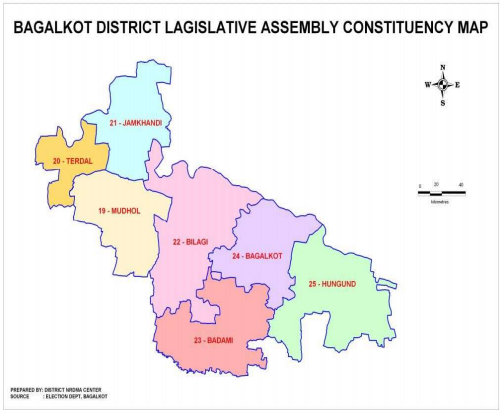

The Upper Krishna Project across the river Krishna at Almatti is one of the major projects of the government of Karnataka. This project on completion will irrigate the drought areas in the districts of Bagalkot and Bijapur. However, due to this project 131 villages and some parts of the Bagalkot town will be submerged under backwaters. The challenge of rehabilitation of project affected families is being taken by the "Rehabilitation and Resettlement" department of Bagalkot, a new town named "Navanagar" has been constructed. Navanagar is a planned town with grid pattern layout with wide roads, parks and other amenities.

	Total	Rural	Urban
SC Share of Youth Population (%)	1,28,283 (17.29%)	94,024 (18.88%)	34,259 (14.04%)
ST Share of Youth Population (%)	38,478 (5.19%)	31,589 (6.34%)	6,889 (2.82%)

Youth is being defined as 16-34 years of age, since most trainees come from this age group.

Data is based on 2011 Census report. If your district boundaries have changed after the 2011 census report, the data may not reflect the population of your district. You may have to check the detailed District Census Handbook and collate data based on block-wise population, or rely on alternative sources available at district.

Source: District Census Handbook (Bagalkote), Census 2011

As per Census 2011, Bagalkot district has a population of 18.9 lakh persons – 3.1 per cent of the State population. Majority of the population (25 percent) is concentrated in Jamkhandi sub-district, followed by Badami, Mudhol and Hungund sub-districts at 17 per cent each, Bagalkot sub-district at 15 per cent and Bilagi sub-districts at 9 per cent. **While 60 percent of the population in the district is in working- years), about 38 percent is only actually working i.e. work participation rate**. The district's literacy rate is 69.39 per cent, which is lower than the State average of 75.6 percent. **Male literacy at 80.16 per cent is significantly higher than female literacy rate at 58.55 per cent. Of Karnataka's 30 districts, Bagalkot ranks 23rd on Gender Development Index (GDI), with a value of 0.571**.

1.2 District Support Infrastructure

Railway connectivity through Bagalkot and Badami town connecting Bengaluru and Mumbai via Gadag and Hutgi (MH) junctions Bagalkot-Kuduchi, 142 kms new railway lines in progress

- NH 13 & NH 218 connects 5 main cities of Karnataka- Bidar, Kalaburagi, Bagalkote, Bijapur and Hubli
- Nearest airport: Hubli and Belgaum; at a distance of 113 Km and 185 Km respectively from district Bagalkote town.
- Nearest port: Murmugoa and Karwar Port, each located 220 kms from Bagalkote town. Other ports include Goa, Mangaluru and Mumbai
- 3 rivers: Krishna, Ghataprabha, Malaprabha
  - ► 2 barrages: Hipparagi, Hirepadasalagi
  - ► Average demand: 122.6 MLD
  - ► Average consumption: 101.4 MLD
- Distribution through Hubli Electricity Supply Company Limited (HESCOM)
  - ► Hydel power project: Alamatti Dam reservoir generating 290 MW, and with 6 power generation units
  - ► Consumption: 727.60 MU (Industry), 133.95 MU (Domestic

- **Public Health**

District has 1127 allopathic hospitals and clinics with 7481 beds, 6 Ayurvedic hospitals with 56 beds, 8 community health centres with 240 beds. 48 primary health centres with 240 beds, 1189 dispensaries, 232 Sub health centres and 1724 doctors.

- **Banking and Financial services**

District has 76 Regional Rural banks with 9 ATM, 125 Public Sector bank with 126 ATM, 52 Private sector bank with 78 ATM, 48 DCC bank,6 KSCARD/PLD bank, 278 Credit cooperative societies with 3,90,324 members and 1258 Non Credit cooperative societies with 3,14,026 members of marketing, milk, housing and other sectors combined.

1.3 District Economic Profile

Bagalkot is the 10th largest economy among the 30 districts of the state. As of the economic survey 2021-22 of Karnataka, GDDP is 37,310 crores which is 2.5 percent of the state GSDP for the fiscal year 2018-19. The per capita income of the District is 1,65,146 rupees which are 21.69 per cent less than the State per capita income. The service-based sector is the sector bringing in the largest share of 46.31 per cent in FY 2018-19 and the secondary sector at 26.15 per cent and the primary sector with the least share of 17.67 per cent.

Table 1.3: Comparison of district Economy with reference to State (Karnataka)

	Bagalkot	Karnataka	Percentage of Bagalkot to State
Gross Domestic Product (Lakh)	3731097	149062400	2.50%
Net Domestic Product (Lakh)	3324161	134,896,200	2.46%
PerPer Capita Income (Lakh)	165146	210887	78.31%

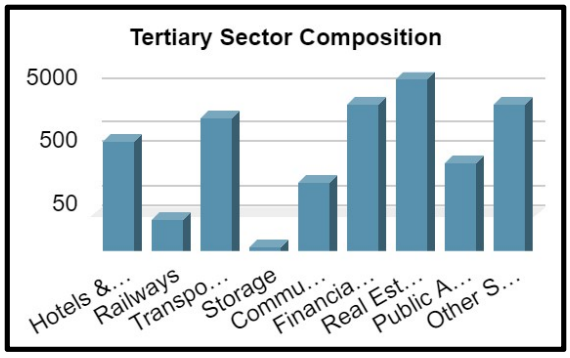

Figure 1.4: Tertiary Sector Composition

1.5 Traditional arts and crafts

a. Ikal saree –

Bagalkot district has a number of silk and handloom units. The district is famous for its traditional "Ilkal Sarees" which are generally weaved in and around Ilkal taluk. Ilkal sarees are woven using cotton warp on the body and art silk wrap for border and art silk wrap for pallav portion of the saree. In some cases instead of art silk, pure silk is also used. Traditionally, these sarees were weaved using handlooms and now power looms have replaced them. There are approximately 2000 power looms in Ilkal producing these sarees. This is usually a household enterprise involving family members and other locally available workers. The sarees are quite popular among females in Maharashtra and Karnataka. Ilkal Sarees is given a Geographical Indication (GI) status. The Raw materials of the Ilkal sarees are art silk, silk and cotton. Most of the weavers procure silk from Bangalore silk market. The woven sarees are then sent to sale for places such as Solapur (Maharashtra) and other parts of Karnataka. The distinctive feature of Ilkal sarees is the use of a form of embroidery called Kasuti. These sarees are usually 9 yards in length and the pallu of the Ilkal saree (the part worn over the shoulder) carries designs of temple towers.

b. Banhatti Cotton saree –

Bahatti cotton saree is from the taluk Rabkavi-Banahatti, Banahatti's multi colour handloom saris have been made in small family-run businesses for generations.These saris are made of pure cotton in most cases, have little to no designs on them, breathable and comfortable for hot summers. Their simple minimalist banahatti handloom sarees are sold for Rs. 1500 on average, making them affordable.

In the past, the traditional handloom businesses of Rabkavi Bagalkot went through a period of incredible boom. In the 80s, Banahatti handloom saris were in huge demand. However, now that mill-made saris and power looms have taken over, many handloom weavers are not able to keep up. As a result, handloom, especially in Rabkavi Banahatti district, has seen a steep fall. Over the past 30 years, many handloom businesses are shutting shop due to unpaid bank loans and are seeking alternative employment. Today, the few remaining handloom weavers only make cloth pieces and simple saris, so unfortunately people are moving away from handloom clothing and the art form is slowly diminishing. In Banahatti, there are 1427 handlooms, of which only 636 are still working. In Rabkavi for instance, only 697 of 1083 are still working, according to the February 2019 data provided by the Karnataka Handloom Development Corporation. Banahatti Sarees are made of pure cotton, simple in design, breathable and comfortable to wear. Supporting this authentic weave of Karnataka, ensures the longevity of this traditional art form.

Source: https://isha.sadhguru.org

c. Guledgudda Khun –

The fabric is often collectively known as Guledgudda Khana, with "khana" being a prominent blouse fabric of the state. A traditional swathe of Guledgudda Khana comprises a rich amalgamation of hand-spun and handwoven silk and cotton, which is further accentuated by contrastingly colored dobby weaving on either of the sides.The yarn is dyed, wrung, dried and combed before it is taken to the loom for weaving. The fabric originally measures 31 inches; but adapting to changing times, weavers have expanded the size to as much as a metre.

Today, the village is home to a mere five dyers, on the contrary, the weaver count in the village is relatively well off - Guledagudda houses thousands of weavers, brothers Jagannatha and Siddharamappa Mallagi being two of them. Residing in a rustic home which doubles as a handloom set-up, they are extremely dedicated to the craft, using only natural dyes and the purest of cottons and silks.

Guledgudda is not foreign to the inundation of power looms, a phenomenon which has been throwing the authenticity of many of the country's indigenous weaves into disarray. A number of private firms today have been attempting to leverage the mushrooming call for the cloth. To meet with this demand, weavers are now on the lookout for more financially feasible fibre such as polyester and artificial silk. And with power looms significantly speeding up the process (a power loom takes up to 2 days to churn out 40 metres of fabric, while an unpowered one would require as many as 30 days to produce the same quantity), many weavers are turning to the former. But Guledgudda Khana still has a silver lining going for it, no matter how attenuated. Today, the weave prides itself on its GI tag. Although traditionally incorporated in sari blouses, the weave now lends itself to more innovations than one.

1.6 District Education Profile

Bagalkot district 2,280 schools, with 3,83,053 students enrolled for the academic year 2023-24. The dropout rate was seven per cent for lower primary and 7.44 percent for upper primary schools. The State average is 4.6 per cent for lower primary and 8.1 per cent for higher primary schools. The district has a high dropout rate in lower primary schools compared to the state average with respect to the 2011 census. Latest dropout rate is 13 percent for the academic year 2022-23 but for the academic year 2023-24 the dropout rate for children between the age group of 6 to 14 years has drastically reduced to 2 percent.

Source: DDPI, Bagalkot

There are 141 pre-university (PU) colleges with 51,036 students for the academic year 2023-24.

1.7 DISTRICT SKILL PROFILE

a. Industrial Training Capacity

There are 09 Government ITI's and 10 Added, 54 private ITI of total 73, in which 45 are situated in rural locality and rest 28 are in Urban locality. ITIs in the district with skilling the students in totally 49 trades. Important trades are Data Entry Operator, Technician, Sewing Machine Operator, Tailor, Electrician, Dairy Farmer and Front Office Executive. Total student capacity of all ITI combined in the district is 8949.

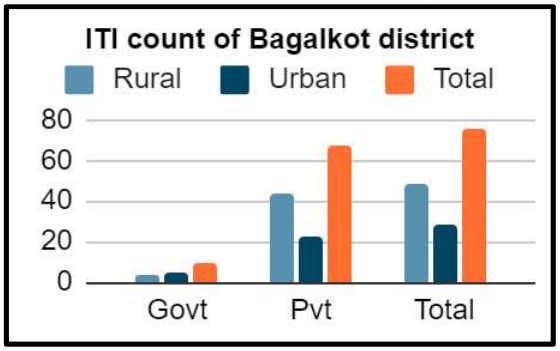

Figure 1.7: Number of ITI colleges, Bagalkote

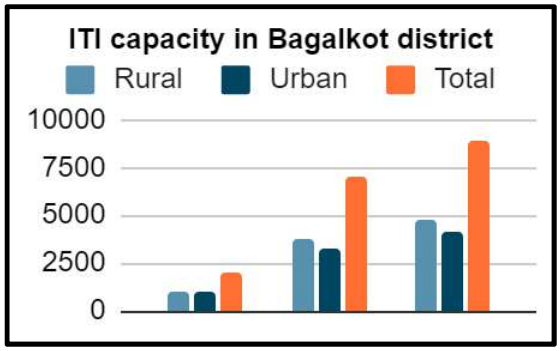

Figure 1.7: Intake Capacity of ITI colleges, Bagalkote

b. Vocational training in schools

District has a total of 2471 schools among them, 23 schools with a total capacity of 1418, currently are equipped with vocational training facilities for the students in the form of course curriculum and also as a local skill hub for the community. Currently trades like ITeS, Beauty and Wellness, Healthcare, Automobile and electronics & Hardware have been taught.

c. CMKKY

Is the state sanctioned and state managed training centre for skill development of the locals, currently there under CMKKY in Bagalkot there are Only Govt ITI College Bagalkote, Bilagi & GTTC Kudalasangam Training partners in the Financial year 2023-24 have trained overall of 329 in the district of bagalkot

h. Other Skill development / Training centres in district

- RSETI, Vidayagiri, Bagalkot, Karnataka 587103
- KVK, Near Railway Station Badami Road, Bagalkot, Karnataka 587101
- JSS Vidyagiri Bagalkote Karnataka 587103
- CEDOK Bagalkote Karnataka 587102

1.8 District SWOT Analysis

Strength	Weakness
Fertile and 60% of land is irrigated, avid sugarcane cultivation with 11 sugar factories	Lack of vivid large industries and Hubs for wage employment opportunity
Availability of minerals and granite, well setup business leveraging resources	Lack of strong market place, prominent ones are mudhol and Jamkhandi which are more close neighboring district and state
Educational institutes with 100 plus years of experience	Informal service sector which holds large part of district economy
Healthcare hub for neighboring districts and region	Migration of skilled personnel in search of better earning
Human Resource	Limited/ Lack of infrastructure for value addition
Opportunities	**Threats**
Ancient historical monuments and tourism	Shortage of skilled man power
Traditional textile manufacturing and GI tagged products from district	Delay in Rehabilitation work (Upper Krishna Project)
Strong agrarian background	Lack of leadership in the district
Availability of natural resources and backwaters for fishery	Citizens lack the zeal to improve or strive for better living standards
Geographic benefit, Central region of northern karnataka and close to cities of maharashtra, goa and Andhra Pradesh	Economic divide between the districts of northern parts and southern parts.

SECTION 2 - DEMAND AGGREGATE

2.1 Industrial and Services Profile

Bagalkot district has 25 Large and Medium Scale Industries with an aggregate investment of 6366.27 crore and 7,743 MSME with an aggregate investment of 167.88 crore and employment of 36,504 and 142 units are registered under service enterprises.

Key players - JK Cement Works, Bagalkot Cement & Industries Ltd, Nirani Group of Companies Ltd
Major exportable item - Granite Tiles/ Slabs, Raisins
Ancillarisation of the Industry - Granite Tiles, Raisins and Machinery Components
Service Enterprises - Tyre Rethreading, Automobile Servicing, Flouring of Food Grains

a. Cement - Ideal ecosystem for cement industries and limestone units due to availability of raw materials, natural resources and infrastructure support in the district. Bagalkot has 2 fully functioning cement factories.
b. Textile and Handloom - District has more than 13 percent of MSME units in the district participating in textile, availability of cotton and skilled labours provides opportunities for setting up large handloom and textile industries in the district. Also there is traditional handloom of Ilkal Sarees which has been passed through generations.
c. Sugar and Food processing - District has 11 sugar factories which have produced 12.9 lakh MTs of sugar in the fiscal year of 2019-20 (DIC, Bagalkot). Most of these factories are equipped with ethanol production units. GoI has approved a cluster for jaggery in Hipparangi and agro processing unit in bagalkot industrial area.

Table 2.1 : Details of existing micro & small enterprises and artisan units in the district

Type of Industry	Unit	Investment (crore)	Employment
Agro based	954	26.37	4324
Ready-made garments	626	15.75	2423
Wood/wooden based furniture	315	4.61	1664
Paper & Paper products	141	5.99	1425
Leather based	64	3.27	205
Chemical/Chemical based	216	5.5	684
Rubber, Plastic & petro based	25	5.06	318
Engineering units	911	7.92	1625
Electrical machinery and transport equipment	1347	3.42	5854
Repairing & servicing	142	3.35	894
Others	3002	86.59	24018
Total	**7743**	**167.88**	**36504**

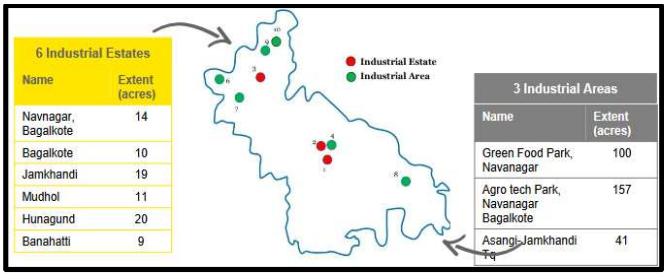

Figure 2.1: Industrial Areas and Estates, Bagalkote

2.2 Emerging Sectors

a. Fabrication and Heavy structural engineering works

Post the submergence of old Bagalkot habilitation and sanctioning of Upper Krishna project has exponentially increased the number of construction projects both public and private funded creating market to MSME, comprising 9 percent general engineering and more then 20 percent building materials.

b. Automobile manufacturing and servicing

Is one among the potential industries as investments are being made to the district, ideal land resources and push from the state has been seen in recent times. Apart from this there is a wide range of heavy automobile usage for agriculture, mining and logistics increasing the potentials for the service sector and tyre rethreading.

c. Textile Factories

Although still a small and medium enterprise, the district has a strong traditional weaving- Ilkal sarees, Banahatti cotton sarees, Guledgudda Khun and has been family trade for generations. There is adequate human resource both skilled and semi- skilled and local market of supply and demand for setting up Textile and handloom industries.

d. Tourism and hospitality

District has one UNESCO world heritage site Pattadakal, two recognised Badami and Aihole respectively - the monuments date back to 8th century AD. There are multiple religious epicentres Kudalasangama, Banashankari temple and Mahakuta Group of Temples which have a great influx of people on a seasonal basis.

e. Food processing and Agri Farms

Agriculture is the primary occupation of the district population engaging nearly 70 percent of the workforce directly and 10 percent on agriculture allied activities. Jaggery cluster and 100 acre food park in Navanagar, Bagalkot sub-district have been recognized in the district. There are well established 11 sugar factories, few of them have well set up ethanol production units. Jamkhandi and Mudhol sub-district have a few small scale food processing units, having potential to expand as the district provides both the supply and demand required.

2.3 Bagalkot Employer survey 2023-24

Totally 45 industries were surveyed in which there were 14 Large Scale Industries, 7 Medium Scale Industries and 21 Small Scale Industries. Sectors covered were both from the Manufacturing and Service sector. It's found that the major requirement for skilling in various trades is seen in the Automotive sector and high demand for job roles like welder, fitter and technician in the Capital goods sector. In the informal sector construction has the most demand for skilling and recognition of prior learning, especially for the people favouring migration and in the agriculture sector an evident gap in skilled service providers was seen but due to lack of quantifying, numbers are not mentioned below.

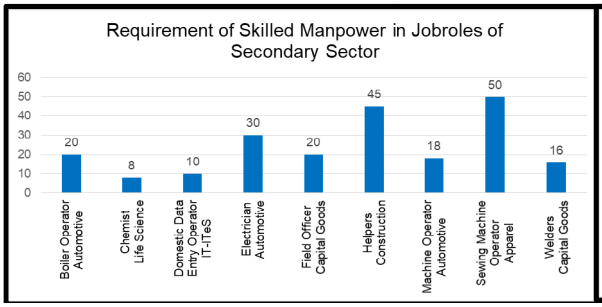

Figure 2.3 : Employment survey requirements in Secondary sector

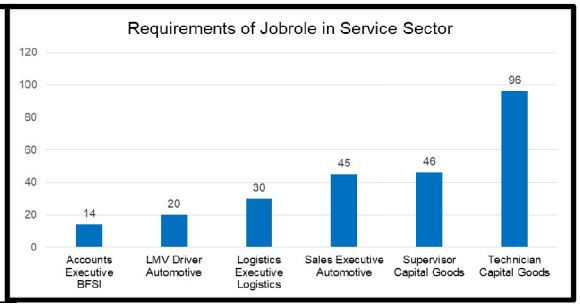

Figure 2.3 : Employment survey requirements in Primary sector

2.4 High Demand Trades Supply Incremental Capacity

Sl No	Sectors	Job Roles	Incremental Capacity
1	Agriculture Sector	Dairy farming & entrepreneur	**480**
		Animal Health Worker	
		Dairy Worker	
		Soil & water testing lab	
		Goat farming	
2	Apparel, Made ups & Home Furnishing Sector	Sewing machine operator,	**1110**
		Hand Embroidery	
		Self employee tailor	
		Fashion Designer	
		Sampling Tailor	
		Boutique Manager	
3	Automotive Sector	Automotive Sales lead (Retail)	**240**
		Tele caller	
4	Banking, Financial Services & Insurance (BFSI) Sector	Business Correspondence and Business Facilitator	**120**
5	Beauty & Wellness Sector	Beauty Therapist	**120**
		Assistant Beauty Therapist	
6	Capital Goods Sector	Fitter Fabrication	**1080**
		Fitter electrical & electronic Assembly	
		Draughts man mechanical	
		Manual metal arc welding / shielded metal arc welding welder	
		Fitter Mechanical Assembly	
7	Construction Sector	Assistant Electrician	**300**
8	Electronic Sector	CCTV installation Technician	**510**
		DTH Set Top Box Installation & Service Technician	
		Field Technician Computing and Peripherals	
9	Healthcare Sector	General Duty Assistant	**300**
		Hospital Front desk coordinator	
10	IT-ITeS Sector	Domestic Data Entry Operator	**750**
		Domestic It Helpdesk Attendant	
11	Indian Plumbing Sector	Plumbing General	**150**
12	Retail Sector	Retail sales Associates	**180**
13	Textile & Clothing Sector	Textile designer & Handloom Jacquard	**120**
		Jacquard viewer	
14	Tourism and Hospitality Sector	Front office Executive	**210**
		Heritage tour guide	
15	Iron & Steel Sector	Fitter leveling & alignment Balancing	**210**
		Gas tungsten arc welding	
		Fitter electrical Assembly	
16	Infrastructure Sector	Junior Mechanical Electric / Electronics /Instruments	**90**
17	Automotive Sector	Automotive Engine repair technician (Level-4)	**90**
		Welding and quality technician	
18	Logistics Sector	Documentation assistant	**60**
		Total	**6120**

Source : As per 2024-25 Action Plan

- **Strategies and Priorities based on SWOT and other inputs**

- Long term Technical Training Institutions can be explored to be part of Short-Term Training Centres. Many of the private ITI's, Polytechnics, Degree colleges can be encouraged to take up Employment oriented short-term programs
- Districts having a well irrigated land have the yield less than State and national average youth need to be motivated towards more of Agricultural related skills like Dairy farming, Organic Farming, etc related skills. Thus, to avoid migrating population elsewhere for employment opportunities more Primary sector training institutions could be set up with technology orientation to attract the youth back to their own irrigated land.
- Only 4 Blocks/Taluks have a small number of Short-Term Training Centres for the youth population in the district. More Training Centres to be opened based on the demand of requirements of the local and state level employment. Priority needs to be given to the emerging sectors of the district which have high demand and low supply of skilled manpower. At the same time reach out to industry and speed up the process of skill training and narrow down the skill gap and match the industry standards.
- Many of the native skills like handloom are on the verge of extinction and should be encouraged by opening up more and more Native skills related training centres near the vicinity of the native skill industry and building market linkage for creating financially sustainable livelihood.

SECTION 3 - GAP ANALYSIS

3.1 Key Gaps in Primary, Secondary and Tertiary sectors, Tradewise

As discussed previously, textile and handloom has good scope in the district but at the same time most of the schemes and programmes were designed around them which have made an impact in the district. Still agriculture is the primary occupation, textile has a prominent number of MSMEs and tourism support infrastructure yet to reach its full potential but over the course of time other sectors are growing and require skilled man power, which are widening the opportunity for socio-economic growth of the district. Some of them are Capital goods, Health Services, Transport and Logistics, Automotive and Retail as the growth in economy. Below are some of the trades in demand sector wise based on the recent studies, reports, discussions and interactions with various stakeholders of the skill ecosystem.

Table 3.1: Sector and trades list based on Demand and Supply in the District

Status		Sector	Trade
High Demand	Low Supply	Tourism and Hospitality	Heritage Tour Guide, Front Office Executive, Housekeeping Executive
		Health services	Medical Equipment Technician (basic), Frontline worker, General duty assistant
		Food Processing	Grain Mill operator, Pulse Processing Technician, Oil Mill Operator
		Agriculture and allied	Farm workshop/Service manager (Technician), Soil & Water Testing Lab Analyst
		Automotive	Automotive Sales Lead (Retail), ServiceTechnician, Machining Technician
		Transport and Logistics	HMV and LMV driver, Courier sorter, Data Feeder (Warehouse)
High Demand	High Supply	Agriculture and allied	Dairy Entrepreneur, Animal Health Worker, Goat Farmer
		Capital goods	Fitter, Welder, Electrician
		Construction	Assistant Electrician, Fabricator, Mason, Carpenter
		Retail	Retail Sales Associate, Retail Trainee associate, Cashier
Low Demand	Low Supply	Textile and Handloom	Jacquard Weaver - Powerloom and Handloom, Hand Embroidery
		Agriculture and allied	Sugarcane cultivator, Maize cultivator
Low Demand	High Supply	IT-ITeS	Domestic Data entry Operator,

SECTION 4 - ANNUAL WORK PLAN

Initiative

The primary initiative is to assess and fulfil the demand for skilled personnel, Enrolment & Counselling of Trainees, Monitoring of Training Activities, Promoting Self Employment Activities, DSC Capacity Building Activities in the district. This includes identifying key sectors with a demand for skilled labour, developing targeted training programs, and collaborating with local industries to ensure a steady supply of well-trained professionals. This initiative aims to bridge the skill gap, enhance employability, and contribute to the overall economic development of the district.

Categories of work plan:

- **Demand for Skilled Personnel in the District**
- **Enrolment & Counselling of Trainees in the District**
- **Skill Mix and Network Planning**
- **Promoting Self Employment Activities in the District**
- **DSC Capacity Building Activities in the District**

➢ Key Activities

4.1 Conduct a District - Placement Drive

❖ **Objective:**
Identify the current and future demand for skilled personnel in various sectors within the district.

❖ **Activities:**
- Visit College's
- Survey local businesses and industries.
- Analyze employment trends and labour market data.
- Conduct focus group discussions with industry leaders and stakeholders.
- Candidate's & Employer's Mobilization

❖ **Timeline:** Q2, 2024-25

4.2 Develop Sector- Enrolment and Counselling Trainees

❖ **Objective:**
Design training programs tailored to the needs of key sectors identified in the demand assessment.

❖ **Activities:**
- Collaborate with industry experts to develop curriculum
- Identify and procure necessary training materials and equipment.
- Recruit qualified trainers and instructors.
- Collaborate with line Dept.

❖ **Timeline:** Q2, 2024-25

4.3 Skill Mix and Network Planning

❖ **Objective:**
- Clinical Work Force skill mix Planning to health and health care dynamics

❖ **Activities:**
- Combination of skills available
- Specific time difference across occupational groups such as nurses and physicians or between various sectors of health system

❖ **Timeline:** Q1-Q4, 2024-25

4.4 Implement Training Programs

❖ **Objective:**
- Deliver high-quality training programs to equip individuals with the skills required by local industries.

❖ **Activities:**
- Schedule and conduct training sessions.
- Assess and certify trainees upon completion of the program
- Provide hands-on practical training and simulations.
- Assess and certify trainees upon completion of the program.

❖ **Timeline:** Q1-Q4, 2024-25

4.5 Monitor and Evaluate Training Outcomes

❖ **Objective:**
- Ensure the effectiveness of training programs and make necessary improvements.

❖ **Activities:**
- Track trainee progress and job placement rates
- Collect feedback from trainees and industry partners.
- Conduct periodic reviews and make adjustments to training programs.

❖ **Timeline:** Ongoing

4.6 Organize Job Fairs and Placement Drives

❖ **Objective:**
Facilitate employment opportunities for trainees by connecting them with potential employers.

❖ **Activities:**
- Plan and organize job fairs and placement drives.
- Invite local businesses and industries to participate.
- Provide career counselling and resume preparation assistance to trainees

❖ **Timeline:** Q4, 2024-25

4.7 Promote Awareness and Outreach Activities

❖ **Objective:**
Raise awareness about the training programs and attract participants.

❖ **Activities:**
- Launch a marketing campaign through local media and social media platforms.
- Distribute promotional materials and brochures.
- Conduct informational sessions in schools, colleges, and community centres.

❖ **Timeline:** Q1-Q4, 2024-25

➢ Resource and Budget

- **Resource and Budget requirement of Bagalkote district**

Sl No	Activity	Addition resources required (YES/NO)	Type of resources required(individual consultant or agency)	Number of resources required	Annual Tentative Budget Required (in INR)
1	Planning and Monitoring	Yes	Consultant	1	4,80,000
2	Orientation Program	Yes			
3	Creation of DSDP 2024-25	Yes			
4	Feedback Mechanism	Yes			
5	Performance Review	Yes			
6	Strengthening the Institute-Industry Ecosystem	Yes	Conducting workshops, meetings, programs etc, Branding and Logistics cost		10,50,000
7	Trainer Development Initiative	Yes	Sector Skill Council		Per trainer cost prescribed by SSC
8	Setting up the Aptitude Test:	No	DSC will be plan accordingly with the coordination of consultant		
9	Organizing Entrepreneurship Development Programs (EDPs)	Yes	CEDOK	CEDOK Trainer	2,00,000
10	Improved Access and Completion	No	DSC will be plan accordingly with the coordination of consultant		
11	Creating a well-balanced social category pool:	No	DSC will be plan accordingly with the coordination of consultant		
Total			**17,30,000/-**
