To,

The Additional Secretary,
Ministry Of Skill Development and Entrepreneurship,
Government of India,
Room No.322, 3rd Floor, Shram Shakti Bhawan,
Rafi Marg, NEW DELHI - 110001

Dear Sir/Madam,

Subject : Submission of District Skill Development Plan (DSDP) proposal for "Awards for Excellence in District Skill Development Plan 2024-25 under SANKALP programme".

Ref : KSDC.SANKALP DSDP UR/05, 2024-25. Dated: 13.06.2024

With reference to the above, we are submitting herewith District Skill Development Plan 2024-25 under SANKALP programme" for consideration please.

Thanking You,

Your's faithfully,

Deputy Commissioner,
Chamarajanagar.

ಕರ್ನಾಟಕ ಸರ್ಕಾರ

DECLARATION

"This is to confirm that the plan has been prepared by the District and all data, information provided has been taken from the credible sources and referenced in the proposal".

Secretary
District Skill Mission
Chamarajanagar, Karnataka.

Background

About DSDP Toolkit

Ministry of Skill Development & Entrepreneurship (MSDE) developed District Skill Development Plan (DSDP) tool kit to develop DSDP at district level. Karnataka Skill Development Corporation (KSDC) is focusing on Improved Quality and Market Relevance of Skill Development Programmes across the districts of the state. KSDC, Project Management Team (PMT) is working on the District Skill Development Plan Toolkit. PMT collected data for District Skill Development Plan Toolkit.

The format is prepared on the basis of the DSDP. There are in total 22 sheets across the 4A's: As-Is Scenario, Aggregate Demand, Analyse the Gap, & Annual Work Plan.

In section I of as scenario, captured the details on District Overview, As Is Schemes, As-Is Trainer Data, As-Is ITI Trade Data, As-Is TC Information, As-Is Agri, Trainee Analysis, Cost of Training. It helped in developing District Skill Matrix. District skill matrix is the tool to measure the skill training capacity and process maturity of the district w.r.t Technical and Vocational Training (TVET). The district skill matrix has been designed to be in sync with the State Improvement Grant (SIG) Matrix and is structured around the three components listed below

Component 1 – Institutional Strengthening

Component 2 – Enhancing Market Relevance and Quality

Component 3 – Inclusion and Access

In section II of aggregate demand, captured the details on Survey Employer, Skill Gap Study, Macro Analysis Based Demand, Demand GPDP &Govt Agenda, Self-Employment and Primary sector

Further analysed the gaps in section III with the components like matrix analysis and gap analysis.

District Skill Committees (DSCs)

Since the District Skill Committees (DSCs) are mandated to do planning and skill training they need assistance and guidance in the form of a standard framework. For example, most of the districts across the country have DSCs, but are called with different names such as District Skill Development Committee, District Skill Development Authority etc. The members of these committees are District administration officials like District Employment officer, Fisheries officer, Agriculture officer, Panchayati Raj officer, Manager Lead bank, General Manager District Industries Centre etc. Members from industry and civil society organizations can also be co-opted under DSC.

District Skill committee is formed in Chamarajanagar district and the committee is engaging in (i) Planning, (ii) Mobilisation and Counselling, (iii)Industry engagement & Entrepreneurship, (iv) Monitoring & Evaluation and MIS and (v) other Support Functions.There are 16 members from different line departments are the members of the DSC and the committee chairperson is Deputy Commissioner of the district.

All the eight committees have been formed in Chamarajanagar district with all the requisite members appointed as per the requirement of DSC Skill Book Sub-committees are formed which can take up specific set of activities and projects. Some of the sub committees that the DSC are given below.

- Mobilization and Counselling
- Training Quality
- Industry Interface
- Self-Employment
- Gram Panchayat Coordination
- Agriculture

- Capacity Building
- MIS, Monitoring & Convergence

Process adopted by Project Management Team

Three workshops were organized for capacity building of DSDOs on DSDOP Toolkit launched by MSDE, GoI for creation of District Skill Development Plans. The agenda of the workshop were on Usage of DSDP Toolkit, Section I – As-Is Assessment (District Skill Matrix), Section II – Aggregate Demand.

As a part of the SANKALP scheme, Karnataka Skill Development Corporation (KSDC) is organized one day workshop for the capacity building of the district skill experts and other staffs for all the 8 sub committees. The workshop was aimed to build the capacity on Roles and Responsibility of the DSC members, Sub-committee members and key staffs to plan, execute projects and improve the quality of the training programs at district level. All the Sub- committees' members were attended the workshops from the district.

Orientation workshop on Section-2 Aggregate Demand was organized with the participation from DSDOs and DICs. It has been initiated w.e.f. 1st February 2021. Oriented on Aggregate Demand activity and on its expected outcome. PMT has been regularly coordinating and internal weekly review meeting conducted with PMT with respective DCs, DSDOs and other line department to collect the data. Preliminary analysis of labour market trends using administrative data available in District Office and external sources (NSSO, ASI, MISH, etc.) is completed.

Development of District Skill Matrix and Aggregate Demand of DSDP toolkit has been initiated in coordination with DSDOs as a part of creation of District Skill Development Plan (DSDP) subject to availability of data. PMT had organized orientation workshops for DSDOs by SANKALP team, MSDE, GoI on DSDP Toolkit. PMT has organized orientation workshop for DSDOs on Section1: District Skill Matrix. Reviewed and suggested corrective measures on district skill matrix submitted by DSDOs.

Key Steps followed:

- Capacity building on DSDP tool kit for DSDOs, DSCs, district level PMT and TPs
- Identification of key employers in the district and local trade association/ chambers of commerce and industry (DIC)
- Seminar/Meeting with key employers
- Meeting with DICs and other line departments
- Collection of data
- Analysis and compilation

1. District Profile

1.1 District Overview

Chamarajanagar was divided from Mysore district in 1997 and has four other taluks namely Kollegal, Hanur, Yelandur and Gundlupet. Chamarajanagar is southernmost district of Karnataka, Chamarajanagar district borders the states of Tamil Nadu and Kerala. It borders Mysore, Mandya, Bangalore districts of Karnataka. It also borders Dharmapuri, Salem, Erode, Nilgiris district of Tamil Nadu, and Wayanad district of Kerala. Most of the district lies in the east of the Nilgiris and consists of mainly semi-arid rain-dependent flatlands along with forested hills. Chamarajanagar. The geographical area is 5,648 km².

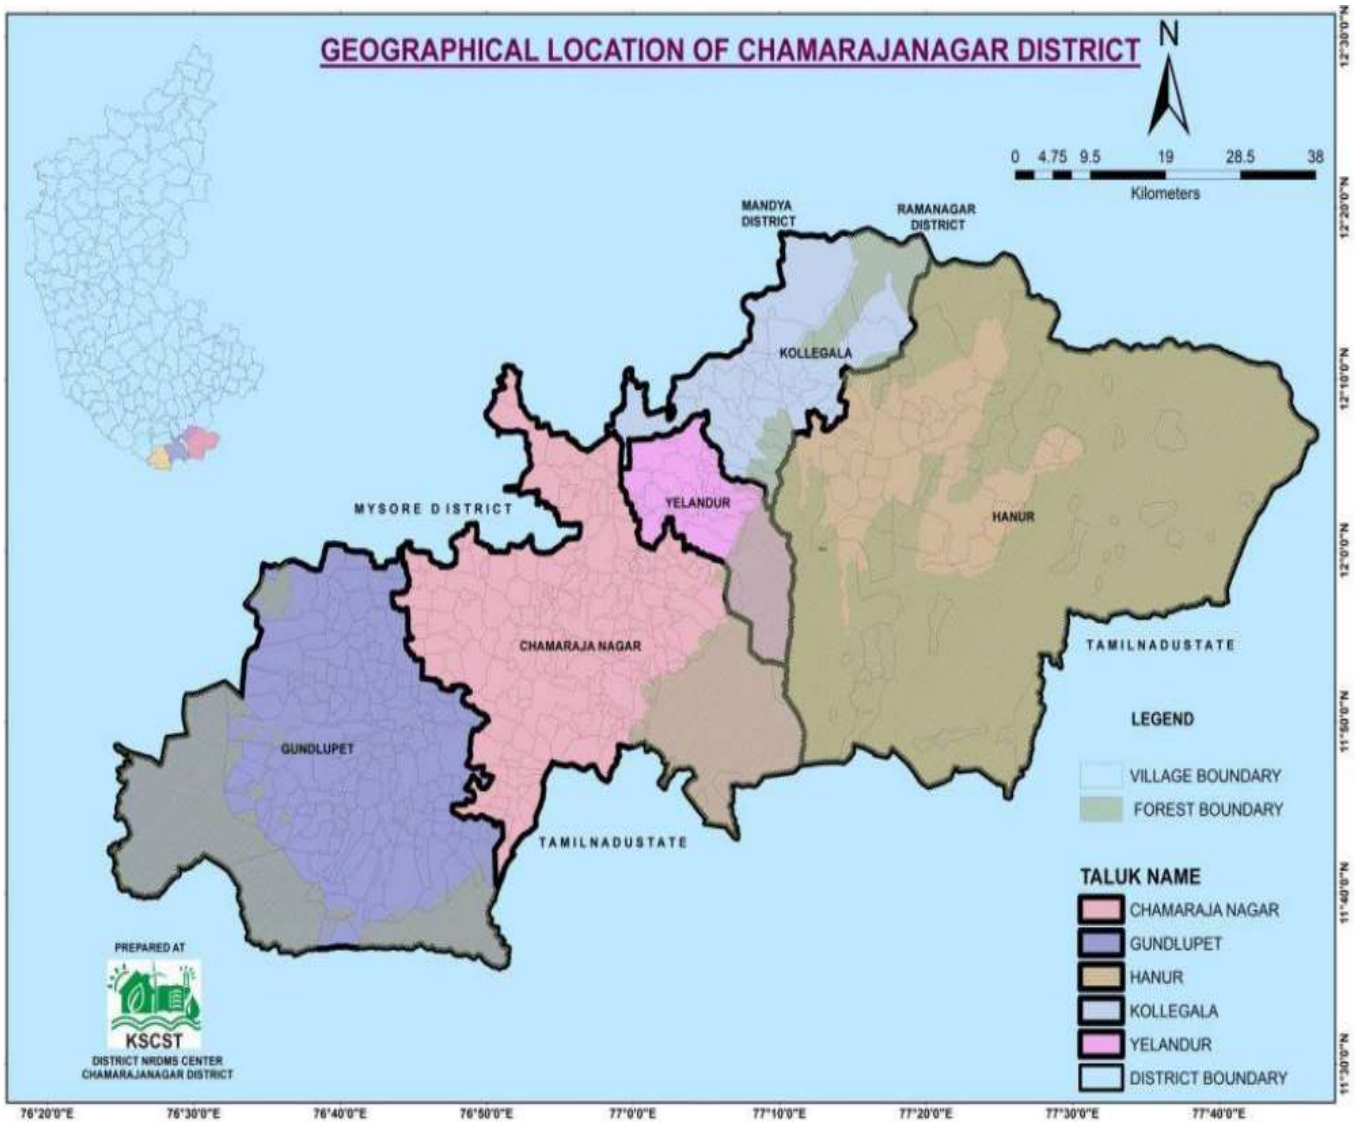

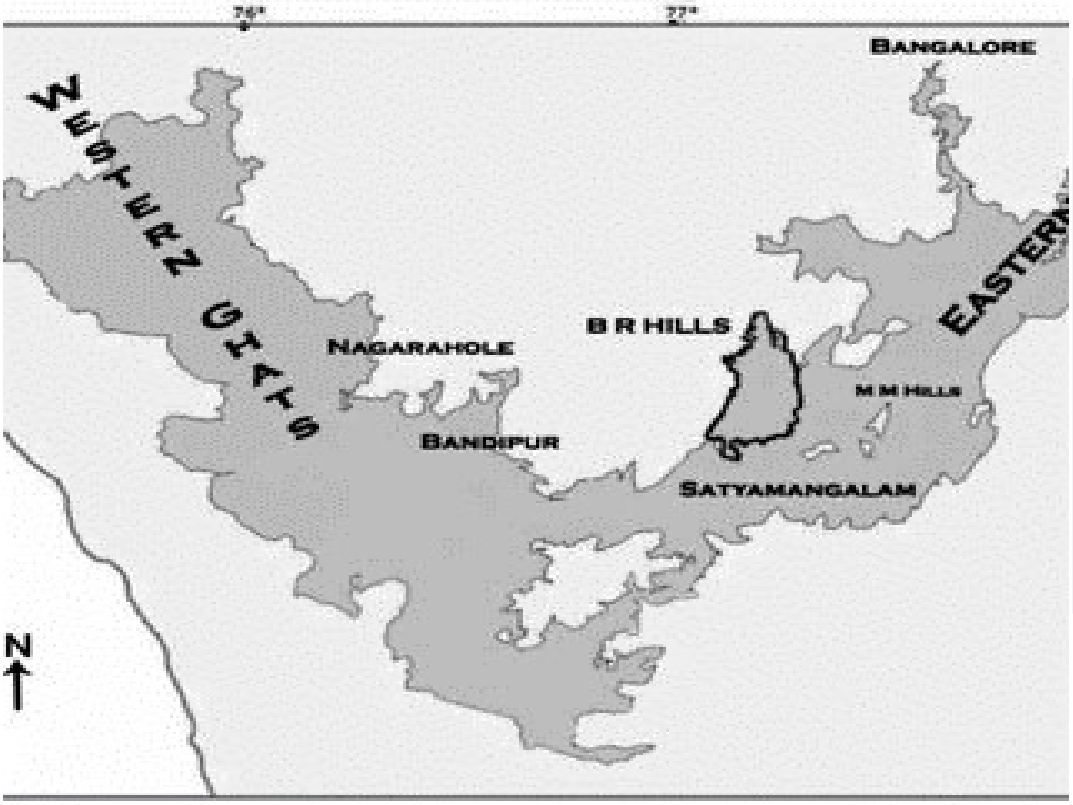

Fig 1: Map of Chamarajanagar

1.2 Unique Location

The Chamarajanagar is a connecting chain of mountains between eastern ghats and western ghats which make have a very vivid landscape and nearly 50 percent of the district is forest. The district Chamarajanagar is a part of the UNESCO heritage Nigiri Biosphere reserve, nearly 50 percent of the district is forest cover.

Source:1. District at Glance 2023
https://vtpc.karnataka.gov.in/

The district is home to three hill stations Male Mahadeshwara hills, Biligiri Ranganatha Hills, and Himavad gopalswamy hills. The High Forest cover of the region had made the district conducive to a high percentage of the tribal population.

Fig 2: Unique Location of District

1.3 Taluk Profiles

Chamarajanagar

Chamarajanagar was earlier known as Sri Arikottara, Chama Raja Wodeyar, the Wodeyar of Mysuru was born here and hence this place was renamed after him it is the district headquarters and a commercial centre of the district

Kollegal

Kollegal is an industrial centre in the district. Kollegal is well known for its silk industry which attracts traders from all over the state.

Gundlupet

Gundlupet is also known as the “Land of Tiger”. It is also known as "The flower pot of India". Gundlupet is the last town in Karnataka on National Highway 766 which goes through Mysore, Ooty, Wayanad, and Calicut. It is a tourist hub and known for turmeric cultivation.

Yelandur

Yalandur has historic and cultural importance and is home to Biligirirangana Hills.

Hanur

Hanur was formed recently and split from Kollegal. It is rich with natural resources like granite, and agricultural products which include sugar cane, jowar, and coconut. The place is surrounded by hills and is located at the heart of the terrain. It has a rich culture with diversified people.

2. Demographic Profile

Chamarajanagar has a total population of around 10.2 lakhs with a population of males-512231 slightly greater than of females-508560 but is not so large as to be a big concern, when coming to the taluk wise break of the population notably Chamarajanagar has the highest population of around 35% followed by Gundlupet of 22% then followed by kollegal, Hanur, Yelandur having 19%,17% and 8% of the population respectively. The sex Ratio of the district is fairly above the national average and is expected that a number of women will take over the number of men in 2024.

2.1 Population

The projected population growth of the district is not alarming and is expected to reach 1082139 in 2024, and females are set to overtake the number of males in 2024. More than 90 percent of Chamarajanagar is rural and only 8 % resides in the urban areas. The district's literacy rate is 61.43per cent, which is over ten percent improvement from its literacy rate of 50.87per cent in 2001. The 2011 literacy rate is still lower than the State average of 75.6 percent. Male literacy at 67.93 percent is higher than the female literacy rate at 54.92 percent.

***Table 1: Demographic details of Chamarajanagar district**

2.2 Rural-Urban Divide

More than 85 percent of the population resides in rural areas and the district is majorly agrarian and the only urbanized parts are the district and taluk headquarters.

2.3 Age Pyramid

The Population of chamarajanagaris relatively young with more than 50 percent of the population less than 30 years of age. The potential youth population in the district is 3.66 lakhs which is about 35.89% of the total population, out of which 29.44% of the youth population resides in the rural area. This emphasizes that the rural youth have to be skilled related to the requirement of the rural population

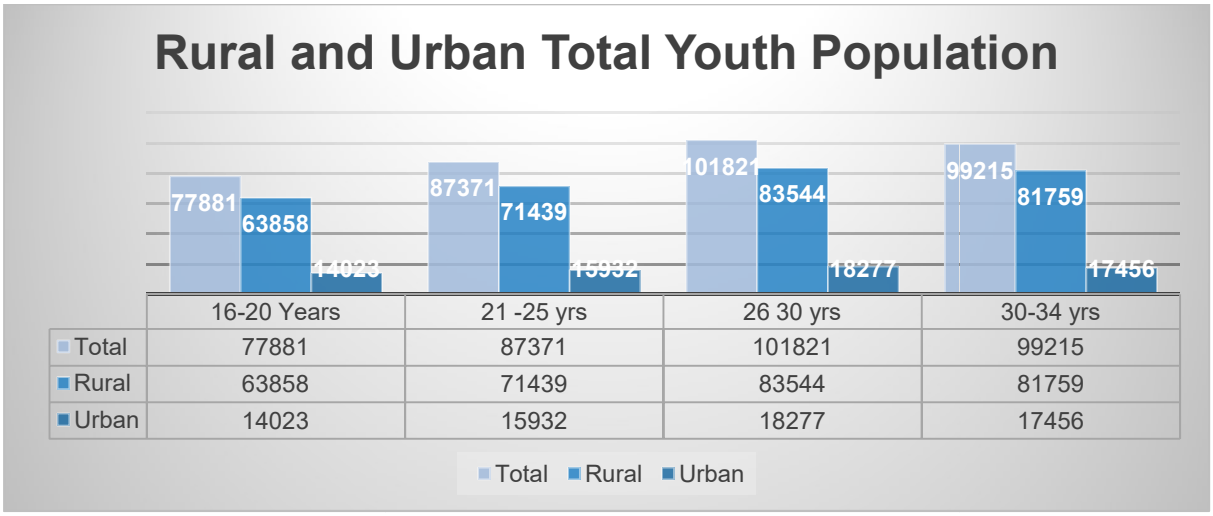

Figure 3: Distribution of Youth Population in Rural and Urban areas of Chamarajanagar District

2.4 SC & ST Population

	Total	Rural	Urban
SC share of Youth Population	27.10%	27.96%	23.16%
ST share of Youth Population	12.43%	12.21%	13.40%

The district has a large population of SC and ST. SC compromises nearly 25 percent of the population while ST compromises nearly 12 percent of the population. There is a significant population in the SC and ST whose skill training also plays an important role in the overall development of the communities.

Source: District at Glance 2023

Table2: Share of SC and ST rural and urban population in the district

2.5 Workforce

Occupation	Number of People
Cultivators	113346
Agriculture Labourers	214121
HH Workers	14012
Non-Workers	539120
Other Workers	143425

The majority of the population is dependent on agriculture and Chamarajanagar has the highest number of agricultural laborers in the State at 44.49%.

Source: District at Glance 2023

Table 3: Population involved in the workforce

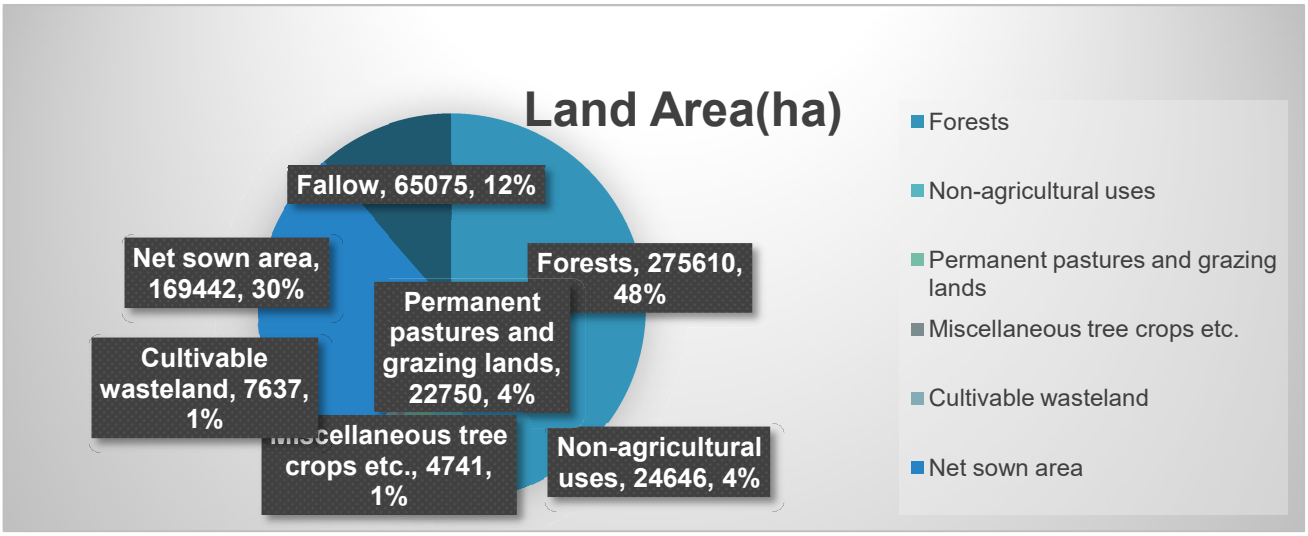

3. Agricultural Profile

Chamarajanagar District is endowed with a unique agricultural situation with diversified cropping pattern. The rural population constitutes 86% of total population of the district. Agriculture is the main occupation. The major area is under rainfed agriculture which is subjected to vagaries of monsoon. Cereals, Oil Seeds, pulse crop vegetables, and plantation crops are grown by the farmers. Important commercial crops like Cotton Sugarcane, Turmeric, and Tobacco are also grown. In addition, farmers practice subsidiary enterprises like Sericulture, Dairying, Poultry Farming, and Fish culture. The district having diversified enterprises is denied/deprived of new Technology. The existing developmental departments working in the district are not able to meet the technical demands of the farmers in respect of these enterprises. Although the improved technologies in agriculture and allied fields are available, farmers are not able to adopt them in their fields due to ignorance backwardness, and isolation from the research stations situated in Mysore and Mandya Districts. If these technologies are effectively transferred to farmers certainly, they will adopt them in their fields.

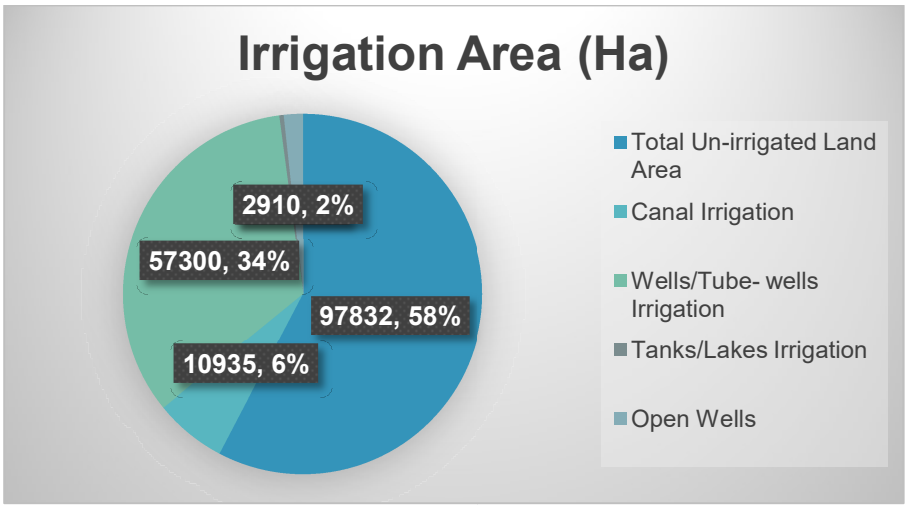

3.1 Land Utilization

Source: District Statistical Office, Chamarajanagar

Figure 4: Land Utilization of Chamarajanagar

3.2 Irrigation

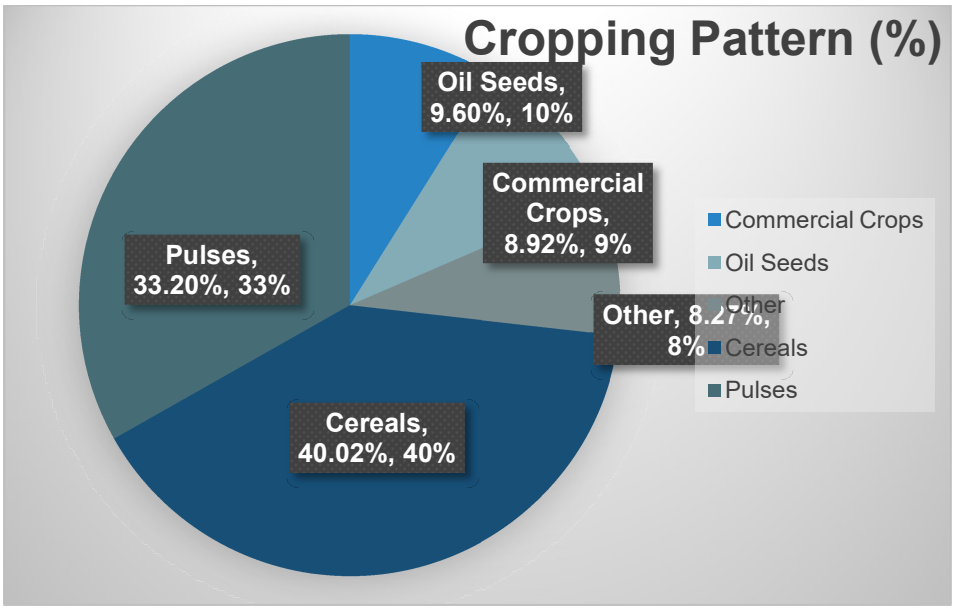

42.38% of the net sown area is irrigated and the major irrigation is tube well irrigation. The regions Kollegal and Yelandur are highly irrigated compared to the rest of the regions.

7. Secondary Sector Profile

Chamarajanagar is blessed with rich natural reserves and Black granite is a major Resource available here. Karnataka Industrial Areas Development Board has allocated industrial land in the Badanakuppe – Kellamballi area for industrial development in the Chamarajanagar region. Located on State Highway Connecting Chamarajanagar with Mysore. The proposed industrial area Badanakuppe – Kellamballi Located approximately 7 km from the city of Chamarajanagar and 40 km from Mysore will certainly Improve the expected growth of Industries in the district

7.1 Dynamics

Industrial Area	Extent (Acres)
Badanakuppe – Kellamballi	1362

Table 17: Industrial Areas in District *Source: District Industrial Centre, Chamarajanagar*

Industrial Estate	Extent (Acres)
Chamarajanagar	9.13
Kollegal	7.40
Gundlupet	10

Table 18: Industrial Estates in the district

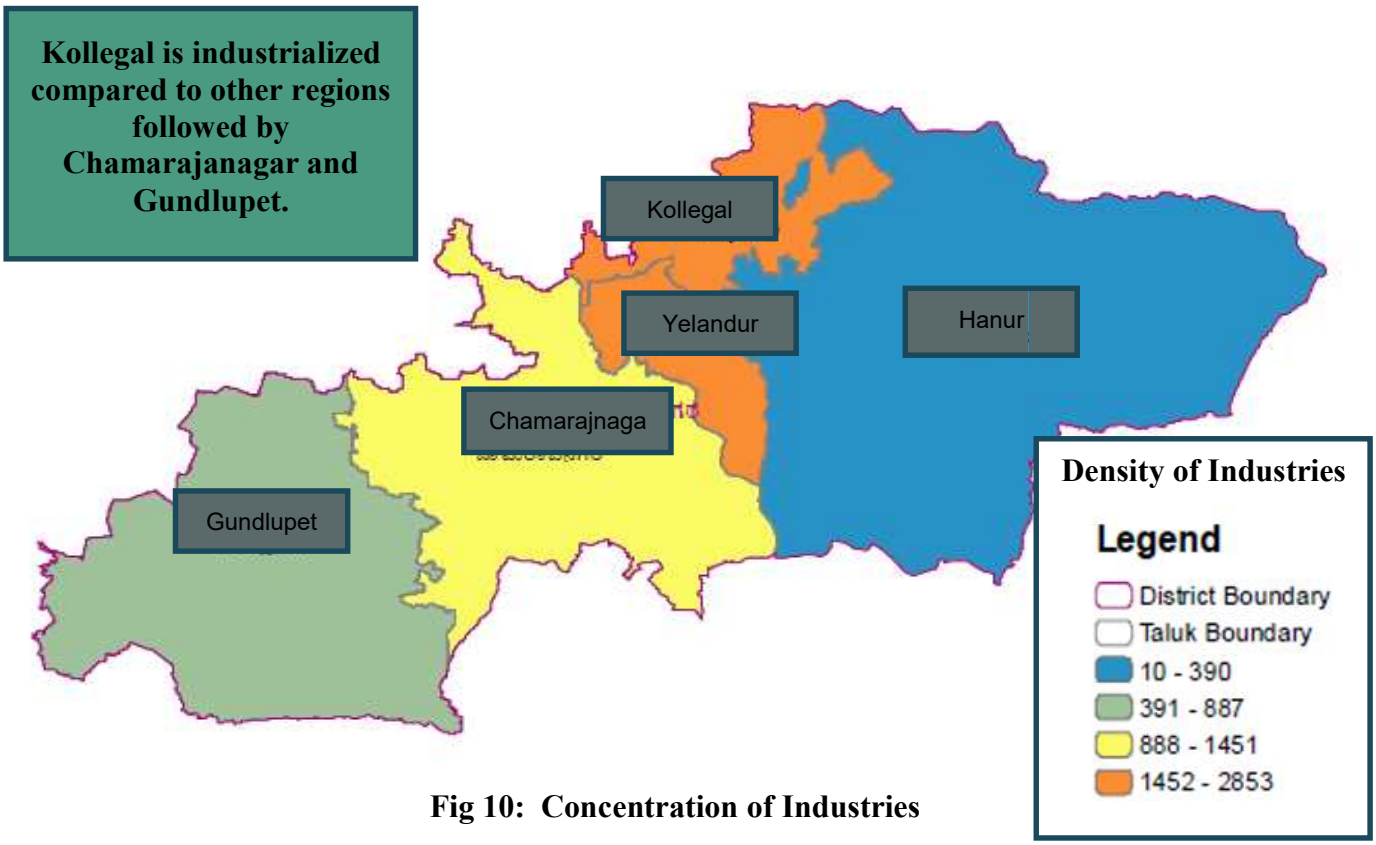

Fig 10: Concentration of Industries

Source: District Statistical Office

7.2 Infrastructure

Rail: Presence of 3 railway stations with a total railway route length of 20 km with the connectivity of trains to Mysore and Bangalore.

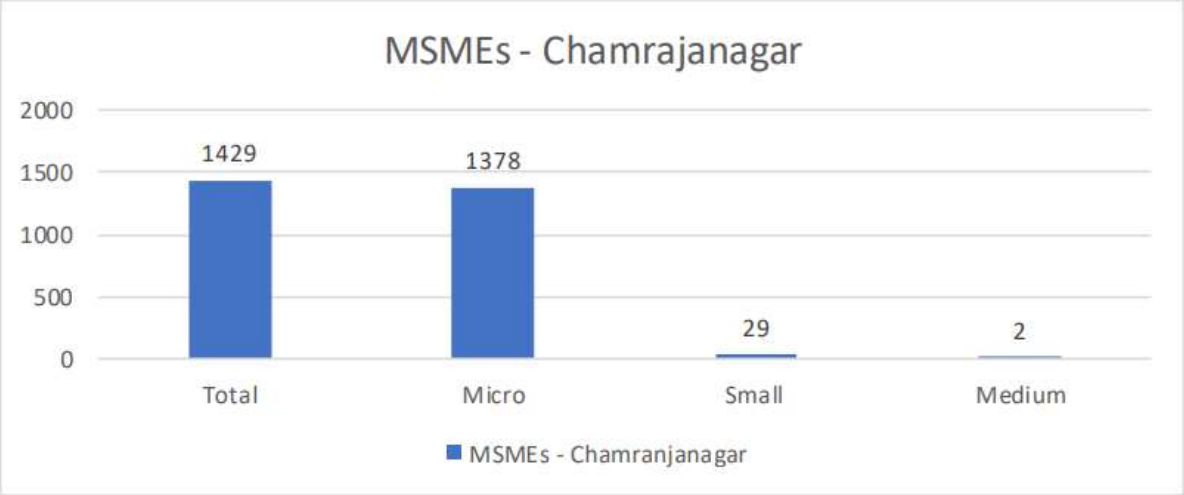

Road: NH 209 (connecting from Bengaluru to Satyamangalam), NH 212 (connecting from Kozhikode to Karnataka border) passes through the district.

Air: Bengaluru airport is located 182 kms away from Chamarajanagar city, with proximity to other airports include Chennai.

Port: Nearest seaport is Mangalore, 495 kms from Chamarajanagar city, other seaports include Tuticorin, Karwar and Goa.

Water Supplies: River Cauvery flows through Kollegal taluk, Gaganachukki and Barachukki waterfalls lies to the north-west of the district. River Palar flows to the south-east, River Suvarnavathi, River Gundluhole also flows through this district with multiple small tributaries joining River Palar and Cauvery in district.

Power Supply: Power Distribution in the district is through Chamundeshwari Electricity Supply Company Limited.

7.3 Industries in the District

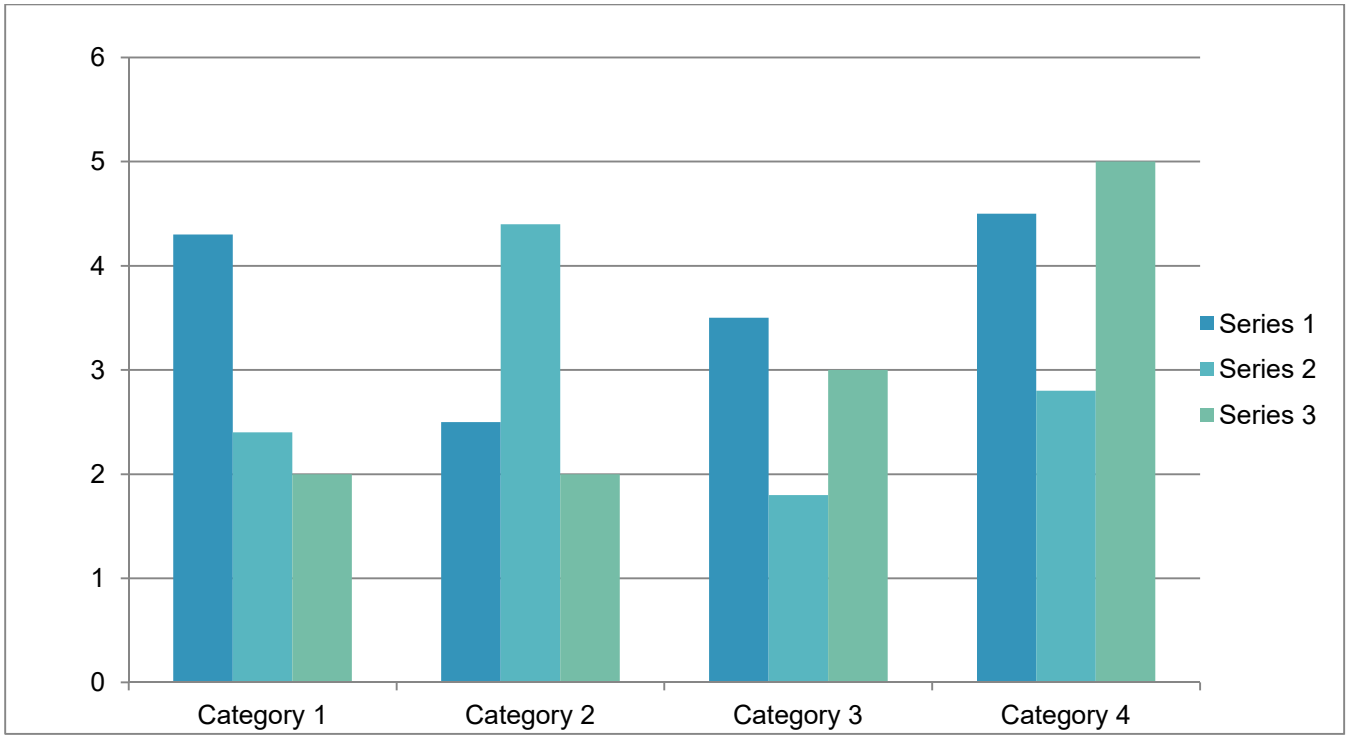

Fig 11: Udyam Registrations in District on August 2023

Potential Sectors	
Agro and Food Processing: Horticulture crops production is extensive in the district. Owing to expanding horticulture, there is scope to integrate the value chain with Value Added Process based industries. Scope in building of cold storage facilities	**Sericulture:** Traditional district identified for Sericulture. The total area under mulberry cultivation is 1321 hectares with a total of 2136 sericulturists in the district.Climatic conditions favour the development of sericulture in the district throughout the year.
Tailoring Tailoring is emerging as one the most aspired occupation in the district with new industries coming up. Kollegal and Chamarajanagar have emerged as the new hotspots for this tailoring industry.	**Mining:** High-value quality Black Granite is available in the district Scope for development of Granite cutting and polishing clusters

Table 19: Potential Sectors in the district

SL No.	Sector	No. of Units	Investment (in crores)	Employment (no. of people)
1	Food Beverages	1804	1265	8300
2	Textile/Garments	4640	3000	21650
3	Wood	564	390	2607

8. Service Sector Profile

Tertiary Sector being the largest contributor to GDP provides an alternative for people who are looking to go out of the overloaded primary sector. The district headquarters are slightly urbanized and banking, telecom, hotel real estate, and other services have grown. The growth of these sectors is confined to district and taluk headquarters and still, the other 95 percent of the district is yet to be urbanized and the services sector is yet to mark its footprint in rustic regions of the district.

8.1 Tourism

The most prominent underachieved sector is the tourism and hospitality sector, Chamarajanagar being a part of the UNESCO heritage Nilgiris Biosphere Reserve is a biodiversity hotspot with overstretching greenery. The district also has three major Hill stations which are still obscure to the majority of visitors worldwide. The district also has religious pilgrimages centres and unexposed temples and sites. It is not wrong to say tourism is still in its nascent stages and has not been paid the right attention and a lot of work is yet to be done in the field.

Tourism Spots:

1. Sri Male Mahadeshwara Hills – It is both a religious as well as a scenic spot with 7 major hills.

Fig 12: Male Mahadeshwara Hills

2. Barachukki (Kollegal Taluk) - Kaveri falls from 75 to 100 feet from around the hillocks.

Fig 13: Barachukki

3. Himavad Gopalaswamy Hills- Meaning covered in snow, Hill station located at an altitude of 1450 meters above sea level.
4. Survarnavathi Reservoir: The dam is built across the Suvarnavathi river. It is famous for its scenic beauty.
5. Kanakagiri hill: Religious Jain centers cantered around a forest.
6. BR Hills Wildlife Sanctuary- BR Hills is one of the famous Bio diversities and Hill station.

Fig 14: B R Hills

7. Bandipur National Park-Wild life sanctuaries in India best known for its Tiger Reserve.

Fig 15: Bandipur

9. Gap Analysis

9.1 Swot Analysis of the District

Strengths		Opportunities	
Sl. No	Top 5 strengths of the district	Sl. No	Top 5 Weaknesses of the District
1	Geographical Location	1	Tourist Paradise
2	Multistate Border	2	Forest Produce Collection
3	Good Climate	3	Turmeric Value Addition
4	Close to State Capital	4	Recent Investment in Apparel Sectors
5	Young Population	5	Tribal Crafts
Weaknesses		**Threats**	
Sl. No	Top 5 opportunities for the district	Sl. No	Top 5 threats for the district
1	Poor Infrastructure	1	Disguised Unemployment
2	Low Literacy	2	Lack of skilled manpower discourages new industry development
3	Less Modernization in agriculture	3	Insufficient Water and Electricity Supply to Industrial Area
4	No Coordination between Departments	4	Less Ambitious residents
5	No Market Linkages	5	Social Exclusion of ST and SC population

Table 21: SWOT Analysis of the district

9.2 Skill Gaps

Sector	Trade
Agriculture	Maize Cultivator
Agriculture	Pulses Cultivator
IT_ITES_SSC	Domestic Biometric data operator
Apparel_Made_Ups_and_Home_Furnishing	Self Employed Tailor
Beauty_and_Wellness	Assistant Beauty Therapist

Table 22: Trades that are high in supply but low in demand

Sector	Trade
Furniture and Fittings	Wooden/Modular Furniture Supervisor
Beauty_and_Wellness	Assistant Beauty Therapist
Banking Financial Services and Insurance	Small and Medium Enterprise Officer (SME Officer)

Table 23: Trades that are low in supply and low in demand

Sector	Trade
Mining	Mazdoor / Helper
Agriculture	Beekeeper
Agriculture	Sugarcane Cultivator
Agriculture	Spice Crop Cultivator (Electives: Herbal Spices/ Seed Spices/ Tree Spices/ Rhizomatous Spices/ Oil Yielding Spices/ Pod (Cardamom) Spices)

Table 24: Trades that are high in supply and high in demand

Sector	Trade
Handicrafts_and_Carpet	Bamboo Artwork Maker
Tourism_and_Hospitality	Heritage Tour Guide
Apparel_Made_Ups_and_Home	Sewing Machine Operator
Agriculture	Mango grower
Food_Processing	Traditional Snack and Savoury Maker

Table 25: Trades that are low in supply but high in demand

9.3 Incremental Demand

SECTOR	Incremental Demand - 2012 to 2024				
	Total	Minimum Skilled	Semi-Skilled	Skilled	Highly Skilled
Agricultura and allied	37787	31471	4704	856	756
BFSI	2786	-	1672	836	279

Total	**146118**	**50357**	**64317**	**25212**	**6233**

Table 26: Incremental Demand in Different Sectors

Source: IMaCS Analysis, NSDC Skill gap Report

10. Strategy and Action Plan

Short & Medium Term	Strategies	Action Plan
Skill Development	Organize outreach programs/ workshops for the farmers/exporters. Work towards continuous feedback from the farmers for understanding their perspective. Upskill the existing farmers for enhancing production.	Concerned stakeholders to be invited to business events/workshops to help provide market linkages to exporters. DICs must make effective use of existing training institutes established by the State Govt. at the district & state levels for imparting training in Agriculture products. Conducting dedicated workshop/webinar for the skill development in identified sectors The Agricultural Universities and Colleges located in the district are to be sensitized for providing best practices for the farmers to grow the quality production of products like chilli, turmeric, mango etc.
Financial Assistance	Provide term loans to small and medium enterprises to enable them to upgrade export production capability. Assist exporters with pre-shipment and post-shipment credit.	Information Dissemination about existing financial schemes which the MSMEs, exporters, and other relevant stakeholders can avail of which would facilitate in export promotion. Support smaller units in establishing their business through financial assistance.
Marketing & Packaging Support	Adopt new Technologies and increase Market Access to farmers. Tie up with NGOs to help the artisans in value-enhancing activities.	To work towards improving the quality standards & manufacturing compliances, learning new techniques & technology, and market intelligence. To enhance exports, it is imperative to provide training to the farmers for the adoption of innovative methods in the growth of quality Agri products. Turmeric is an identified ODOP product, on which the district must focus with a vision to promote it at a global level.
Branding and Promotion	Design logos for Agri products goods. Leveraging the power of social media. Leveraging e-commerce facilities	Appoint an agency for designing of the logo and ensure only quality products use this logo which will ensure product differentiation. Tie up with various e-commerce players to market the products on their online platforms

Table 27: Action Plan

Annual Work Plan

Demand for skilled personal is a key function for DSCs. Some of the initiatives the DSC can take are Mapping demand requirements, Placement Drive, CXO Meets, GPDP demand, Apprenticeship,

Choose the Initiative that you would like to take up. Each initiative can have multiple key activities under it. Add additional rows if needs

Initiative	**Mapping Demand Requirements**
Key Activities	1. Conduct Industry surveys to identify industry needs 2. Analyse Industry/Market trends and forecasts 3. . Identify skill gaps in District Level. 4. Develop a demand-driven training Programmes.
Initiative	Placement Drive:
	1. Organize job fairs and placement drives. 2. Invite industry partners for recruitment 3. Provide career counselling and job matching services.
Initiative	CXO Meets:
	1. Conduct regular meetings with industry Associations/leaders/representative (CXOs). 2. Discuss skill requirements and industry requirements. 3. Identify opportunities for apprenticeships and on-job training
	GPDP Demand:
	1. Identify demand for skilled personnel in rural areas 2. Provide training and placement support for rural youth
Start Date	01-April-2024
End Date	31-March-2025
Resources Needed	PMKVY,DDUGKY,ITI,Employment IFFICER
Budget	

Enrolment and Counselling of trainees

Effective mobilisation for trades which are in demand is important. Also trade allocation as per aptitude of trainee would help in reducing dropouts. DSC can undertake initiatives for centralised mobilisation, blockwise mobilisation calanders, aptitude testing and counselling, aptitude testing in schools etc

Choose the Initiative that you would like to take up. Each initiative can have multiple key activities under it. Add additional rows if needed

Initative	**centralised mobilisation**
Key Activities	1 Conduct skill Awareness programmes 2 organise publicity programmes 3 conduct individuals and Group Counselling 4 Set mobilisation requirements and targets for the district in consultation with DM, TP and industry 5 Devise a strategy and mobilisation calendar covering different trades, blocks and TPs. 6 Coordinate with other stakeholders like Model Career Centres, ITIs Retired professionals to conduct counselling activities
Start Date	April-2024
End Date	March-2025
Resources Needed	Taluk Panchayat Executive Officers. Mission Manager, NULM Principal, District Cluster College . District Youth Coordinator
Bugdet	4 lakhs

Monitoring of Training Activities in District

Choose the Initiative that you would like to take up. Each initiative can have multiple key activities under it. Add additional rows if needed

Initative	**Monitoring of Training Activities in District**
Key Activities	1 Conduct / Organise the pre-interview training for students on resume writing, interview handling skills etc. 2.Plan and execute trainer development initiatives by identifying knowledge partners within the district. 3.Prepare periodic reports which analyse feedback across TP, TC, Faculty, Sector, Gender and social groups. 4 Conduct / Organise the pre-interview training for students on resume writing, interview handling skills etc.
Start Date	April-2024
End Date	March-2025
Resources Needed	DDPI,DDPU,CMKKY,PMKVY
Bugdet	5 lakhs

Promoting Self Employment Activities in District

Choose the Initiative that you would like to take up. Each initiative can have multiple key activities under it. Add additional rows if needed

Initative	**Planning for Self Employment**
Key Activities	1. Build models for TVET trainees to meet GP demand. 2. identify self-employment models prevalent in district - SHG and FPO networks 3 identify self-employment training facilities in the district - RSETI, ICDS. KVIC, 4 Set target for number of trainees to be made self-employed during the year.
Start Date	April-2024
End Date	March-2025
Resources Needed	SHG,RSETI,KVK ,FPO
Bugdet	5 lakhs

NEP 2020 Implementation

Choose the Initiative that you would like to take up. Each initiative can have multiple key activities under it. Add additional rows if needed

Initative	**Finding Enterepreneur**
Key Activities	1 conduct EDPs Training 2 Fellow up from Mentors 3 Visit and Collect Report
Start Date	April-2024
End Date	March-2025
Resources Needed	NGOS, CEDOK
Bugdet	2lakhs

DSC Capacity Building Activities

Choose the Initiative that you would like to take up. Each initiative can have multiple key activities under it. Add additional rows if needed

Initiative	**Monitoring and Corrective Actions**
Key Activities	1conduct capacity Building work shops 2.To organise programs that can be done at local level with expertise within various departments and institutions 3 To identify the capacity building requirements of DSC and its constituent role holders and departments in the TVET area. 4 To prepare reports on various capacity building activities done through the DSC.
Start Date	April-2024
End Date	March-2025
Resources Needed	Principals welfare officers
Bugdet	5 lakhs
