DISTRICT SKILL DEVELOPMENT PLAN

District	Chikkaballapur
State	Karnataka
Financial Year	2024-25
Date Of Submission	18th September 2024
Submitted By	Deputy Commissioner, Chikkaballapur

DISTRICT SKILL DEVELOPMENT OFFICE, CHIKKABALLAPURA

Foreword

The skilling of the youth of the country is most important to benefit from the Demographic Dividend that India currently has. The skilling ecosystem has gained impetus with the creation of the nodal Ministry of Skill Development and Entrepreneurship and has been standardized through the National Skills Qualification Framework (NSQF). MSDE has initiated several skill training and RPL programs. The State Skill Development Missions have replicated this at the state level. The District Skill Committee have been formed at the district level to achieve convergence and decentralisation.

In this regard, the District Skill Development Plan 2024-25 for Chikkaballapur outlines the As-Is-Scenario of the socio-economic profile and the state of the current skill and vocational training in the district. It also analyses the Skill Gaps based on the Aggregate Demand and emerging trends and finally proposes an Action Plan to address the same.

As the Chairperson of the DSC, I would like to thank all the members of the District Skill Committee including the Government department official as well as representatives from the Industry and Educational institutions for supporting us by providing information and valuable inputs to prepare this report.

I am hopeful that this report will be a beacon to all the stakeholders in the skilling ecosystem to conduct activities that will lead to the overall development of Chikkaballapur district.

Ravindra P.N., IAS
Chairperson, District Skill Committee &
Deputy Commissioner,
Chikkaballapur

Declaration

We extend our thanks to Ministry of Skill Development and Entrepreneurship, GoI, for giving us the opportunity to prepare the District Skill Development Plan. This is to confirm that the plan has been prepared by the district and all the data, and information provided has been taken from credible sources and referenced in the plan.

Prasad M.
District Skill Development Officer,
Chikkaballapur

Executive Summary

The following report is a District Skill Development Plan (DSDP) for the district of Chikkaballapura in the state of Karnataka comprising 08 Taluks. It is situated in the south eastern part of Karnataka and falls in the Eastern dry climatic zone. Located on the National Highway connecting Bangalore and Hyderabad, it is the eastern gateway to Karnataka. This DSDP provides a high-level understanding of the existing skill ecosystem in the district and also analyses the existing skill gap.

The DSDP highlights the economic profile of the district keeping the demographics in consideration. It also details the current scenario of the industries and the state of the different sectors of the economy. The education framework and vocational training in the district are also elaborated in the DSDP.

The report provides an insight into the existing skill training ecosystem and the accomplishments of the previous years. The potential and capacity in the district for further skill training are also elaborated.

The importance of relevant skill training is realised only when it is converted into employment or livelihoods. Hence, understanding the demand of the job market is essential in preparing the DSDP. The same has been aggregated through various sources and presented in the report.

Based on the prevailing scenario and the required workforce, the Skill Gap has been analysed and detailed in the DSDP report.

Finally, the DSDP presents an Action Plan to be implemented by the District Skill Committee and its role in bridging the prevalent Skill Gap to match the demand in the job market and provide sustainable means of livelihood to the youth of the district.

1. About The District

Chikkaballapur district in the Indian State of Karnataka was carved out of Kolar district in the year 2007. Bagepalli, Chikkaballapur, Chintamani, Gudibanda, Gauribidanur, Sidlaghatta, Chelur and Manchenahalli are the 08 taluks in the district with its headquarters at the town of Chikkaballapur. Located 50 kms North of Bangalore, Chikkaballapur is also the economic hub of the district. With 2.2 percent of the total area of Karnataka, it has a total land area of 4254 sq. km and is bordered by Kolar, Bangalore Rural, and Tumkur districts of Karnataka, and Anantapur district of Andhra Pradesh.

With a population of over 12.5 lakh people, Chikkaballapur is home to around 2 percent of the State's total population. More than 80 percent of the population lives in the rural areas and around 70 percent of the workforce is employed in Agriculture. The district is rich in Agriculture, Horticulture and Sericulture. It is also a famous producer of flowers, tomatoes and grapes.

The famous tourist spot - Nandi Hills is situated in the district which attracts a lot of tourists around the year. The rivers Arkavathi, Chitravathi, Papagni, Uttara Pinakini, Dakshina Pinakini and Palar originate from the hills which are non perennial.The nearby region of Muddenahalli is the birthplace of legendary engineer Bharat Ratna Sir Mokshagundam Visvesvarayya and his home is now converted into a museum. And Esha Foundation at Avalagurki, Chikkaballapura.

The district is also a regional transport hub with access to several National Highways and is rightly called the gateway to North Karnataka. With several colleges for higher education the district also attracts students from neighbouring districts.

As per Census 2011, Chikkaballapur district has a population of 1255104 persons which amounts 2 percent of the total population of Karnataka. Majority of the population is concentrated in the taluks of Chintamani and Gauribidanur at 24 percent each , followed by Chikkaballapur and Sidlaghatta taluks at 17 percent each. Bagepalli is home to 15 percent while Gudibanda has five percent share in the district population.

Chikkaballapura district has 284698 households out of which 636437 are males and 618667 are females. The population of children between the ages 0-6 is 132286 which is 10.54 percent of total population. The population has grown by 9 percent over the previous decade.

Table 2.15: Details of Self-Employment Training in RSETI for 2023-24(*Source: RSETI)*

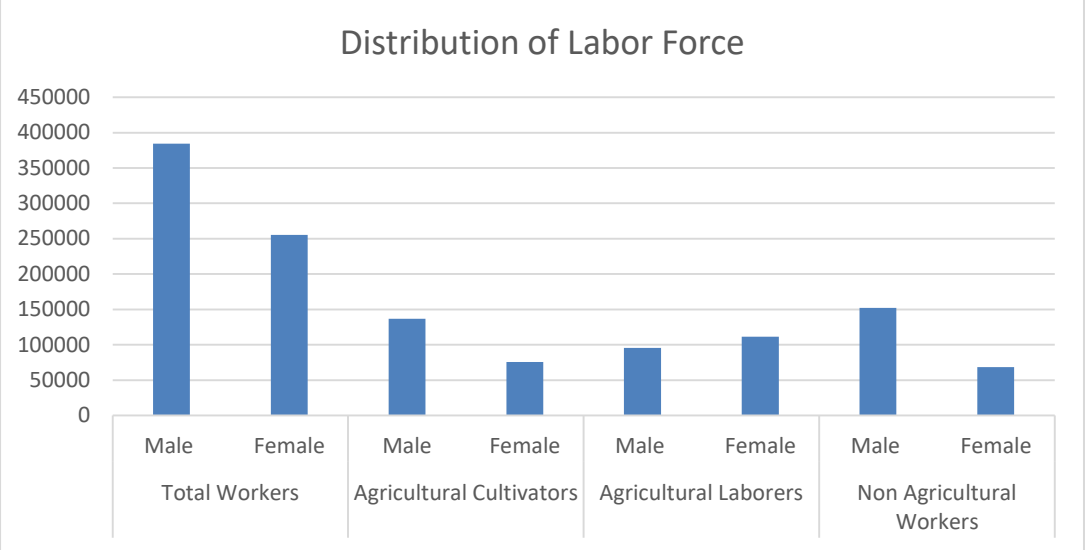

3. Aggregate Demand

3.1 District Profile : Sector Wise

Primary Sector

Chikkaballapur is predominantly occupied with Agriculture with majority of the population in rural areas. The net sown area (NSA) across Khariff and Rabi crops is almost 1.94 lakh hectares. About 21.61 % of the NSA is under irrigation and the cropping intensity is 110 per cent. The soil and the climate are favourable for growing field crops like ragi, maize, pulses and oil seeds, vegetables and fruit crops. It is also famous for its Horticulture crops like mango, grapes, pomegranate, sapota, guava, papaya, banana and citrus and cut flowers. Farmers are increasingly going in for protected cultivation, particularly, carnation, gerbera, Dutch roses, capsicum, tomato, etc.

Lack of perennial source of water, drought like conditions adversely impact the produce. The district also needs Cold Storage facilities and Warehouses to safeguard farmer's interest and reduce wastage. Setting up Food Processing units will not only reduce farmer's losses but also increase their income through higher prices for value added products.

Taluks	Net Area Sown Khariff	Net Area Sown Rabi	Area under Total Food Grains	Area under Horticultural Crops
Bagepalli	28719	1813	17969	8339
Chikkaballapur	14784	27	14311	6827

Table 3.2: Details of Major Crops in the district (*Source: District At A Glance 2022-23)*

Secondary Sector

There are 2 Large Scale industries, Raymond Limited (readymade pieces of clothing) and ACC Limited (concrete). Precot Meridian, Titan Industries, Industries, RL Fine Chemicals, A-One and Linfox Logistics are the Medium Scale industries in the district. There are more than 15,000 Small Scale Industries (SSIs) present in the textile, job works and repairs and other sectors employing 122504 workers. There are 2 established Industrial areas (Chikkaballapur and Gauribidanur) and 5 Industrial estates in the district. Apparel sector is the biggest employer in the district with 21868 people working in these industries.

Major Industries

Sl	Category Based on	No. of Units	Employment		
			Male	Female	Total
1	Automobiles	17	93	14	107

	TOTAL	**15977**	**81722**	**40782**	**122504**

Table 3.2: Major Industries in the District (*Source: DIC, Chikkaballapur)*

Tertiary Sector

The services sector includes wholesale and retail trade, hotels and restaurants, transport, storage and communication, banking and insurance, real estate, public administration and other services. Services account for 46 percent of GDDP in Chikkaballapur district. Of all the services, the key services in the district are in the IT-ITES and Banking sector. Real estate, ownership of dwellings, business and legal services contribute 11.9 percent of GDDP, followed by public administration at 10.2 per cent.

3.2 Traditional Arts

Chikkaballapur is the second largest producer of silk in Karnataka, after Ramanagara district. The activity is mainly concentrated in Sidlaghatta and Chintamani taluks. Employing around **18835** sericulturists, it is one of the major sectors. There are Four big sericulture markets in the district, where about 40 tons of cocoons are traded every day and about four to five tons of silk is produced on a daily basis. The district has over 4,500 reelers.
Sericulture is an age-old activity in the district. It is a traditional skill which is possessed by the farmers and reelers. However, the sector has started to suffer in recent years, due to the onslaught of cheap Chinese silk, which is cheaper and looks more attractive. There is a need to upgrade to bio-voltine cocoons and automatic reeling.

There are around 800 weaver families in the district involved in silk weaving. However, their numbers are dwindling due to stiff competition and lack of marketing and branding for their products. The weavers have a very irregular income and lack any working capital during the lean period.

Karnataka Skill Development Corporation has started One District One Skill (ODOS) initiative for the districts in Karnataka. For Chikkaballapur, Cocoon Craft is the ODOS. The garlands, ornaments, decorative items prepared from Sericulture waste provide alternate income to the sericulturists and also help reduce the negative impact on the environment.

Taluks	Mulberry Area (Hects)	Cocoon Production (In Tonnes)	Sericulturists	Value of silk Cocoon Produced (Rs. in lakhs)	Cocoon Markets
Bagepalli	900.37	887.93	1715	4891.72	0
Chikkaballapur	2366.99	1732	2202	9583.72	1
Chintamani	6328.22	3407.26	4761	18866.45	1
Gauribidanur	3309.74	1757.7	2992	9791.37	0
Gudibanda	263.88	132.49	392	732.14	0
Sidlaghatta	7375.42	444.75	6773	24446.84	2
Total	**20544.62**	**12358.13**	**18835**	**68312.24**	**4**

Table 3.2: Data on Sericulture (*Source: Chikkaballapur District At A Glance 2022-2023*)

3.3 SWOT Analysis

STRENGTHS	OPPORTUNITIES
1. Rich in Agiculture and Horticulture 2. Proximity to Bengaluru and International Airport, and Inter State Highways 3. Traditional Sericulture Knowledge - One of the oldest sericulture markets in India	1. Apparel based industries 2. Food/Fruit processing units 3. Advancement in Sericulture 4. Employment opportunities through migration to nearby districts and abroad
1. Heavy dependence on agriculture 2. Outdates techniques used in sericulture 3. Lack of investments in diversified industries	1. Acute water shortage, harming both agriculture and the industry 2. Declining traditional industries 3. Local jobs not meeting the aspirations of the youth
WEAKNESSES	**THREATS**

Table 3.3: SWOT Analysis of Chikkaballapur District

The above table presents the Strengths, Weaknesses, Opportunities, and Threats (SWOT) of the economic and skilling scenario in the district. The training programs should be designed taking into consideration these aspects of the district and capitalize on the positives. Safeguarding against Threats and special focus to improve upon weaknesses is the need of the hour.

The Apparel and Sericulture sectors are the key strengths of the district. At the same time, relevant upgrades to the traditional practices will further boost these sectors. Focusing on counselling of youth and spreading awareness of the training programs will play an important role in balancing their expectations with the existing job market in the district.

4. Skill Gap Analysis

The majority of the population is occupied in Agricultural activities with 212226 cultivators and 206939 labourers in the district. Most of them follow traditional practices. It is of utmost importance to upskill the farmers to make a positive impact on the overall district which is mainly an agrarian society.

However, taking up short-term skill training of 2-3 months comes with an opportunity cost. The farmers are unable to spare the time for such courses as it interferes with their cropping schedule. Even those involved in Animal Husbandry or other agri-allied activities cannot forgo their daily earnings to be part of the training. Hence, the training programs should be designed keeping these constraints in mind. RPL programs or Special Projects of 7-10 days focusing on only the relevant topics are ideal for the agriculture sector. These trainings will not only provide additional knowledge and upskill the farmer, but also the Certificate of Course completion is a way to partially formalise the otherwise unorganised sector.

Apart from the Primary Sector, there are also several other service providers in the informal sector like, plumbers, electricians, household appliance technicians, mechanics, and construction workers who would benefit from an RPL or very short training programs. Considering the above, there is a need to upskill this target population through appropriate training programs which caters to their requirements.

Trades Suitable for RPL or Special Projects	Agriculture Extensions Service Provider, Commercial Horticulture, Sericulturist, Plumber, Construction Worker, Electrician, Silk Weaver

Apparels and Textile industries continue to dominate the Secondary sector in the district. The demand for Specialised Sewing Machine Operators, Cutters, Packers, Quality Checkers is ever-present. There is a demand for skilled students from ITIs capable of handling CNC machines in the manufacturing industries. Pharmaceutical companies in the district are facing a shortage of candidates with the required skillset. Several industries in the Automobile sector also have a steady demand for skilled mechanics.

The tertiary sector has jobs mainly in the IT domain like Data Entry Operator, Field Technician for Computer and adequate skill training is being provided for these job roles. There is a demand for Sales Executive in the Retail sector and there is some scope to take up training for this job role. The demand from Bengaluru Urban district in this sector can also be partially met by the workforce from Chikkaballapura.

There is a growing demand for renewable forms of energy and hence the usage of Solar appliances and Electric vehicles are increasing in the district. This emerging trend will lead to a demand for technicians specialised in installing and maintaining these equipments.

Tourism in the district is also gaining momentum as it is becoming the preferred weekend getaway destination for people in Bengaluru and nearby districts. The jobs in the Tourism and Hospitality sector are expected to grow in the near future.

Based on the information presented so far, the following is the Skill Gap Analysis for the district in the formal sector. The tables below list the Job Roles based on the Supply and Demand of the same and the Emerging trends in the district.

Top Trades which are low in supply but high in demand		
#	**Sector**	**Trade**
1	Logistics	Warehouse Associate
2	Retail Sales Associate	Retail
3	Construction	Helper Fabrication
4	Plumbing	Plumber (General)
5	Electronics & HW	Field Technician – Other Home Appliances
6	Electricals	Electronic Vehicle Mechanic

Top Trades which are high in supply and high in demand		
#	**Sector**	**Trade**
1	Apparel Made Ups and Home Furnishing	Specialised Sewing Machine Operator
2	Apparel Made Ups and Home Furnishing	QC Executive-Sewing Line
3	Automotive	Automotive Service Technician
4	Electronics & HW	Field Technician – Computing and Peripheral
5	Beauty and Wellness	Beauty Therapist

Top Trades which are low in supply and low in demand		
#	**Sector**	**Trade**
1	Logistics	Inventory Clerk
2	Gems and Jewellery	Rough Cutter - Gemstone Processing
3	Food Processing	Quality Assurance Manager
4	Retail	Retail Trainee Associate
5	Capital Goods	CNC Setter and Operator
6	Electronics & HW	Field Technician – Networking and Storage

Top Trades which are high in supply but low in demand		
#	**Sector**	**Trade**
1	IT-ITES	Domestic Data entry Operator
2	Life Sciences	Fitter Mechanical - Life Sciences

Top Emerging Trades in the District		
#	**Sector**	**Trade**
1	Green Jobs	Solar PV Installer (Suryamitra)
2	Automotive	Battery Electric Vehicle Jr.Technician
2	Tourism and Hospitality	Tour Escort

Table 4.1: Skill Gap Analysis for Chikkaballapur

5. Action Plan

After identifying the Skill Gaps in the district, it is prudent to provide the necessary skill training in these trades to meet the demand that exists and also provide meaningful livelihoods to the youth of the district. The following table details the Job Roles that can be focused on along with the number of people that can be trained in these roles in a year. It also details the approximate financial outlay required to conduct these training programs based on the common cost norms.

Action Plan for Skill Training in Chikkaballapur for 2024-25						
Sl. No	**Trades**	**Sector**	**QPNos**	**Hours**	**Target**	**Approximate Cost**
1	Warehouse Associate	Logistics	LSC/2449	340	240	₹ 34,27,200.00
2	Specialise Sewing Machine Operator	Apparel	AMHSSC/04550	255	360	₹ 44,98,200.00
3	Retail Sales Associate	Retail	RAS/Q0104	280	240	₹ 28,22,400.00
4	Solar PV Installer (Suryamitra)	Green Jobs	SGJ/Q0101	300	150	₹ 22,05,000.00
5	Battery Electric Vehicle Jr.Technician	Automotive	KSDC/05925	270	90	₹ 11,90,700.00
6	RPL - Plumber (General)	Plumbing	JSS/06003	25	400	₹ 4,70,000.00

Table 5.1: List of Job Roles for which skill training is required in the district

6. Conclusion

The Chikkaballapur District Skill Committee (DSC) comprises of 8 sub-committees. The Deputy Commissioner is the chairperson of the DSC. The sub-committees have stakeholders from all the line departments involved in skilling and employing the youth of the district. Their inputs have been invaluable in preparing this District Skill Development Plan.

In order to achieve the goals set out in the Action Plan above, it is necessary to have convergence among the members of the DSC. To accomplish the same, we need collaboration and efforts from the DSC to mobilise, train and provide livelihood to the candidates.

The current Skilling Program being run across the country is an excellent example of Public Private Partnership. Hence, the contribution of the private sector is imperative in providing quality skill training to the youth of the country. The Training Partners should continue investing in required infrastructure and quality trainers to impart the required skills which will help in the development of the district.

The successful implementation of the above skill training will result in inclusive growth and upliftment of the most vulnerable sections of the society. The capabilities of youth of the district can be harnessed appropriately to contribute meaningfully to the development of the district.
