DISTRICT SKILL DEVELOPMENT PLAN

2024-25

Chikkamagaluru District, Karnataka

DISTRICT SKILL DEVELOPMENT PLAN
2024-25

Chikkamagaluru District,
Karnataka

DISTRICT SKILL DEVELOPMENT OFFICE

KARNATAKA SKILL DEVELOPMENT CORPORATION

Chikkamagaluru (D)

Karnataka

To,

The Secretary,

Ministry Of Skill Development and Entrepreneurship,
Government of India,
Room No.322, 3rd Floor, Shram Shakti Bhawan,
Rafi Marg, NEW DELHI - 110001

Dear Sir/Madam,

Subject: "Submission of District Skill Development Plan (DSDP) for the year 2024-25 under SANKALP programme"

Reference: 1) D.O No.76/secy (MSDE) 2024. Dated 17th May 2024.
2) Executive Director, KSDC, Bengaluru File No. KSDC/SANKALPDSDP/ CR-05/2024-25. Dated 13th June 2024.

With reference to the above, we are herewith submitting District Skill Development Plan 2024-25 Under the SANKALP programme for consideration, please.

Thanking You,

Yours faithfully,

Smt. Meena Nagaraj C.N
Deputy Commissioner And
Chairman District Skill Committee
Chikkamagaluru.

Declaration

"This is to confirm that the plan has been prepared by the District and all data provided has been taken from credible sources and referenced in the proposal".

Member - Secre ary, District Skill Committee
And District Skill Development Officer
Chikkamagaluru, Karnataka

Background

About DSDP Toolkit

The Ministry of Skill Development & Entrepreneurship (MSDE) developed the DSDP tool kit to develop DSDP at the district level. Karnataka Skill Development Corporation (KSDC) is focusing on Improved Quality and Market Relevance of Skill Development Programmes across the districts of the state. The District Skill Development plan is created at the District Skill Development office with support from KSDC, GT-PMT, District Counsellor and MGNF.

The format is prepared based on the District Skill Development Plans (DSDP). There are in total 12 sheets across the 4A's: As-Is Scenario, Aggregate Demand, Analyze the Gap, & Annual Work Plan.

In section I of as scenario, captured the details on District Overview, As Is Schemes, As-Is Trainer Data, As-Is ITI Trade Data, As-Is TC Information, As-Is Agri, Trainee Analysis, and Cost of Training. It helped in developing the District Skill Matrix. District skill matrix is the tool to measure the skill training capacity and process maturity of the district w.r.t Technical and Vocational Training (TVET). The district skill matrix has been designed to be in sync with the State Improvement Grant (SIG) Matrix and is structured around the three components listed below.

Component 1 – Institutional Strengthening
Component 2 – Enhancing Market Relevance and Quality
Component 3 – Inclusion and Access

In section II of aggregate demand, captured the details on Survey Employer, Skill Gap Study, Macro Analysis Based Demand, Demand GPDP & Govt Agenda, Self-Employment and Primary sector Further analyzed the gaps in section III with the components like matrix analysis and gap analysis.

District Skill Committees (DSCs)

Since the District Skill Committees (DSCs) are mandated to do planning and skill training they need assistance and guidance in the form of a standard framework. For example, most of the districts across the country have DSCs, but are called with different names such as District Skill Development Committee, District Skill Development Authority etc. The members of these committees are District administration officials like District Employment officer, Fisheries officer, Agriculture officer, Panchayati Raj officer, Manager Lead bank, General Manager District Industries Centre etc. Members from industry and civil society organizations can also be co-opted under DSC. District Skill committee is formed in Chikkamagaluru district, and the committee is engaging in (i) Planning, (ii) Mobilization and Counselling, (iii)Industry engagement & Entrepreneurship, (iv) Monitoring & Evaluation and MIS and (v) other Support Functions. There are 13 members from different line departments who are the members of the DSC, and the committee chairperson is Deputy Commissioner of the district.

All the eight committees have been formed in the Chikkamagaluru district with all the requisite members appointed as per the requirement of DSC Skill Book Sub-committees which can take up specific set of activities and projects. Sub committees that the DSC are given below:

- Mobilization and Counselling
- Training Quality
- Industry Interface
- Self-Employment
- Gram Panchayat Coordination
- Agriculture
- Capacity Building
- MIS, Monitoring & Convergence

Process adopted.

As a part of the SANKALP scheme, Karnataka Skill Development Corporation (KSDC) organized a capacity building workshop for district skill experts and other staff for all the 8 sub-committees. The workshop was aimed to build the capacity on Roles and Responsibilities of the DSC members, Sub-committee members and key staff to plan, execute projects and improve the quality of the training programs at the district level.

Below is the workshop scheduled dates:

S.NO	Date	Nature of Sub-Committee
1	15th July 2021	Mobilization and Counselling
2	20th July 2021	Training Quality
3	22nd July 2021	Industry Interface
4	27th July 2021	Self-Employment
5	29th July 2021	Gram Panchayat Coordination
6	3rd August 2021	Agriculture
7	5TH August 2021	Capacity Building
8	10th August 2021	MIS Monitoring Convergence

PMT has been regularly coordinating an internal weekly review meeting conducted with PMT with respective DCs, DSDOs and other line departments to collect the data. A preliminary analysis of labour market trends using administrative data available in the District Office and external sources (NSSO, ASI, MISH, etc.) is completed.

Development of the District Skill Matrix and Aggregate Demand of DSDP toolkit has been initiated in coordination with DSDOs as a part of the creation of the District Skill Development Plan (DSDP) subject to the availability of data. PMT had organized orientation workshops for DSDOs by the SANKALP team, MSDE, and GoI on DSDP Toolkit. PMT has organized orientation workshops for DSDOs on Section1: District Skill Matrix. Reviewed and suggested corrective measures on the district skill matrix submitted by DSDOs.

Key Steps followed:

- Capacity building on DSDP tool kit for DSDOs, DSCs, district level PMT and TPs
- Identification of key employers in the district and local trade association/ chambers of commerce and industry (DIC)
- Seminar/Meeting with key employers
- Meeting with DICs and other line departments
- Collection of data
- Analysis and compilation

Introduction

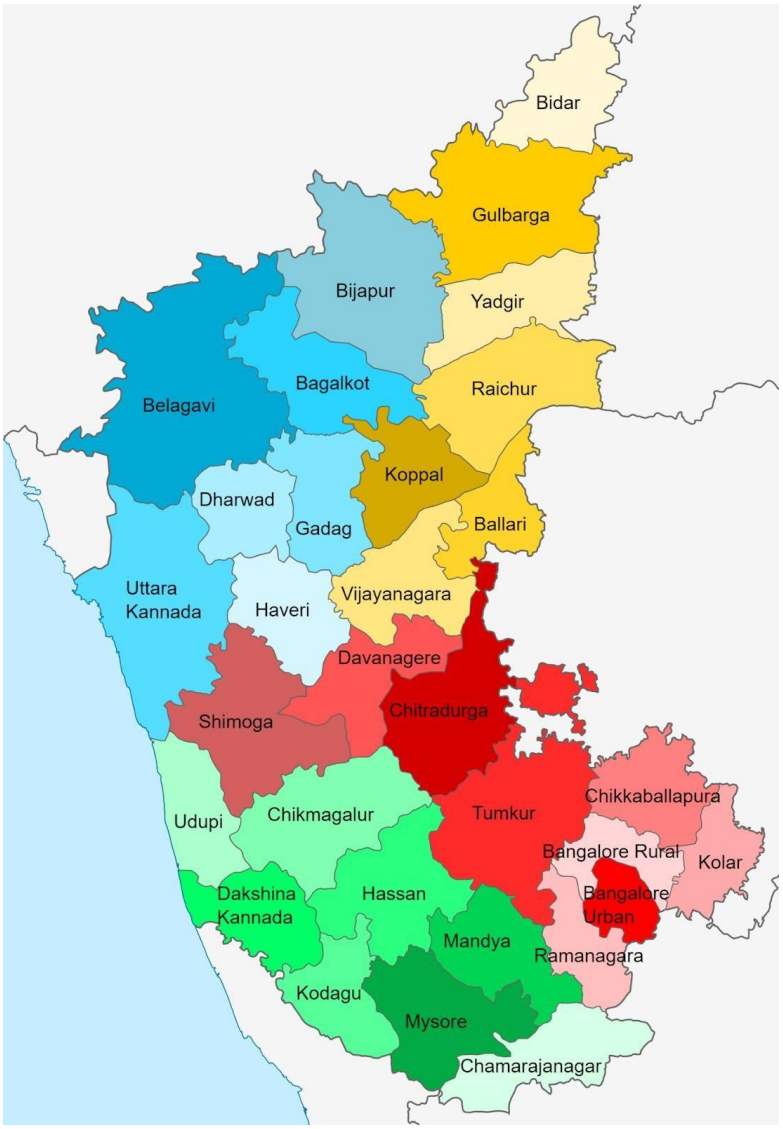

Chikkamagaluru, officially known as Chikkamagaluru, is a district in the state of Karnataka. The mountains/hills of the district are a part of the Western Ghats and are the source of several rivers like Tunga and Bhadra. Mullayanagiri, which is the highest peak in Karnataka is located in the district.

It is also a tourist paradise containing hill stations Kemmanagundi and Kudremukh and waterfalls Manikyadhara, Hebbe, and Kallathigiri. Chikmagalur district has a rich history as is seen in the Hoysala temple at Amrithapura. Keresanthe Sri Mahalakshmi Temple Keresanthe Kadur (tq) is a religious centre for devotees. The headquarters of the district is 251 kilometres (156 mi) from the state capital of Bangalore and is surrounded by the Chandra Drona hills and dense forests.

It consists of 9 taluks – Chikmagalur, Kadur, Koppa, Mudigere, N.R Pura, Sringeri, Kalasa, Ajjampura and Tarikere.

The land can be divided into two geographical regions: 'Malnad' (Hilly Regions) and 'Bayalu' (Plain Lands)

The district is famous for its coffee cultivation and is known as the coffee land of Karnataka. Coffee was first cultivated in India in Chikkamagaluru.

Supply Side Profile

Demography

The district is between 12° 54′ 42′′ and 13° 53′ 53′′ North latitude and between 75° 04′ 46′′ and 76° 21′ 50′′ east longitude.

As per Census 2011, the total population of Chikkamagaluru is 1,137,961 which accounts for 1.86 per cent of the total population of the State. The percentage of the urban population is 21 per cent, which is lower than the state average of 38.67 per cent. Out of the total population, there are 566,622 males and 571,339 females in the district. This gives a sex ratio of 1,008 females per 1000 males. The total area of the district is 7202 sq.km with a population density of 158 per sq. km

Out of the total population, 77.96% of the population live in rural areas and 22.04% lives in Urban area. There are 22.29% Scheduled Caste (SC) and 3.95% Scheduled Tribe (ST) of the total population in the Chikkamagaluru district. The literacy rate is 71.91% out of which 77.35% males are literate and 66.53% females are literate.

As per the Socio-Economic Caste Census 2011, 9.2% of the Total Households of the Districts come under Deprivation. 49.4% of the Scheduled Caste Population and 45.7% of the Scheduled Tribe Population and 45% of Women-Led households are Deprived.

The potential youth population in the district is 3.99 lakhs which is about 35% of the total population, out of which 77% of the youth population resides in the rural area. This emphasises that the rural youth have to be skilled in related to the requirements of the rural population.

Table 7: Dropout Analysis (Data from DiSPAK Toolkit 2022-23)

The Education Profile of the District determines to a large extent the vocational employment profile of the district. The availability/unavailability of access to higher education determines the nature of employment and the skill scenario for the district.
The potential candidates for Skill Training are the dropouts of educational institutions, and students stopping their education at PUC and Degree levels.

Under the Sarva Shikshana Abhiyan Scheme, the Education department has set up 1 Skill Hubs in Jawahar Navodaya Vidyalaya in the District to bring about relevant vocational training for students. Support and Expansion of Skill Tubes shall through the NEP 2020 scheme and other collaborations will help increase the access to vocational education in the district.

Migration

The Migration pattern of the district is determined by the socio-economic profile of the district.

1) **Outward Migration**: As per the 2011 Census, the majority of the Outward Migration is intra-district. I.e. More than half of the workforce of 6 odd lakh people have migrated from one taluka to another, for jobs and better livelihood opportunities. Only a minuscule section ie. 0.17% have migrated to other countries.

2) **Inward migration**: Clear data for inward migration is not present due to the unavailability of a robust mechanism to implement under the inter-state migrant workmen act. (District Labour Dept.). However, Inward Migration can be classified as inter-state and inter-district and is detrimental to agricultural production during the harvest seasons, especially of Coffee and other crops.

A common understanding is that migrant laborer are cheaper, and thus more suitable for employment.

SL No	Migration Parameter	Quantity
1	Total Outward Migration	527610
2	Intra District	349435
3	Inter District	161068
4	Intra State	161068
5	Inter-State	16134
6	Outside India	923

Table 8: Outward Migration Data Captured in Census 2011

Supply Side Analysis

The following observations can be made from the supply side data:

- The youth make up 35% of the Chikkamagaluru District and form a large base for potential skilling. 77% of that Youth come from Rural Areas, thus skilling in rural areas becomes crucial in the skill development of the district.
- The locals of the district who migrate from the district will have to be skilled appropriately to either increase their livelihood opportunities in or outside the district.
- Employment largely lies in the primary sector, while employment in the secondary sector is limited.
- The Land-Usage pattern can support eco-tourism and other nature-related activities.

Demand Side Profile

Economic Profile

The GDDP of Chikkamagaluru District is INR 52,893 Crore for the district in the year 2022-2023 (Constant Prices).

Per capita annual income in the district is INR 3,77,968 for the year 2022-2023 (Current Prices). The District Economy as per the latest Economic Survey contributes to 2.3 % of the GSDP and 2.2% of the State of Karnataka. The table below shows the sector-wise Contribution to the Economy. A comparison with the Sector Wise economic contribution to the district, the contribution to the economy by the secondary and tertiary industries has increased.

Sl. No.	Description	INR Crores	Contribution in District (%)	Contribution to state (%)
1	Total District GDDP	52893	100	2.3
2	Agriculture and Allied (Agriculture, animal, Husbandry, Forestry, Fishing)	12589	23.8	4.01
3	Industry (Manufacturing, Construction, Mining)	15286	28.9	3.2
4	Services (Real estate, Hotels and Restaurants, banking, and legal services)	25018	47.3	1.73

Table 9: Sector wise Contribution to the District Economy for FY 2022-23 (Source: Karnataka Economic Survey 23-24)

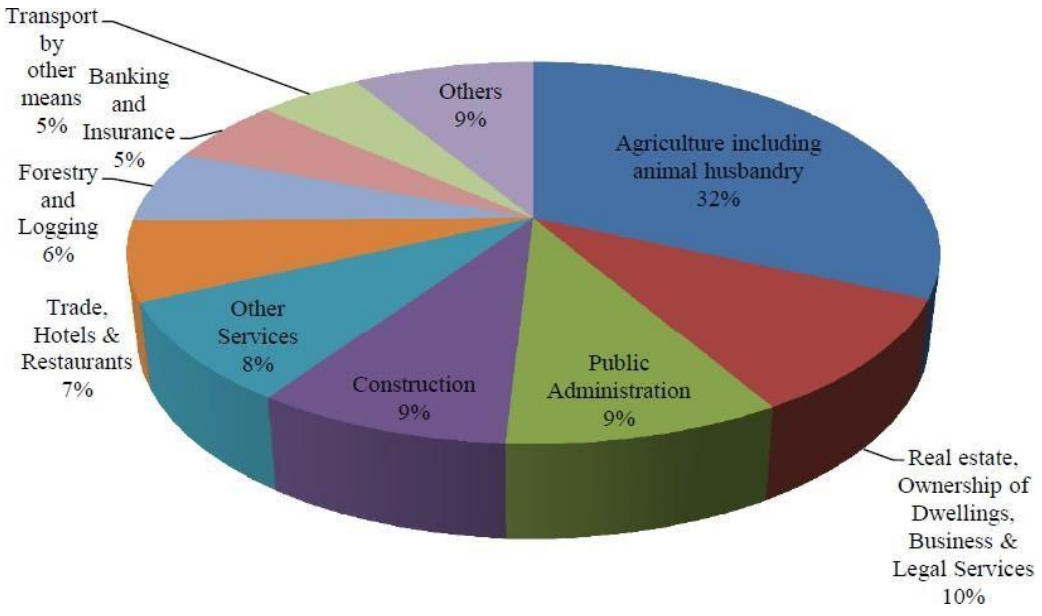

Figure 5: Sector wise Contribution to Economy 2008-09 (Source: NSDC Study)

Agriculture Production

Agriculture has been and is the source of employment for most people in the state.; In the district, almost half the workforce is engaged in agriculture. The dominant landscape of primary production in the district is that of the plantation, which covers the Malnad area of the district.

Key Enablers

- Varied agro-climatic zones due to the spread of Western Ghats.
- Krishi Vigyan Kendras/other technical institutions for farmer support
- There are More than 100 veterinary institutions.
- State Warehouse Corporation (APMC) of 6,000 MT capacity,
- More than 20% of the total units in the district are Agri and Food processing units.
- Multi Cropping in plantations.

Thrust Areas

- Expansion of area under fruit cultivation
- Expansion of area under medicinal and aromatic flowers
- Intercropping
- Organic horticulture
- Access to forest/unconventional fodder crops/forage crops
- Agroforestry

Agriculture Production forms the input supply for potential and existing secondary sector operations such as food processing, wood industries etc. A steady increase in production has been observed in several crops which can form a potential linkage for export and processing.

NTFP Production in the district is mainly of Shikakai, Garcinia, Honey etc. LAMPS Co-op Society is one of the major players in the NTFP Collection in the district. Table 11 Showcases the different Production and Market Value of the Agricultural Produce in the District.

The district economy is largely driven by Coffee cultivation and Trade which influences the production of complementary crops. Chikkamagaluru district produces the Majority of the Country's Arabica Production and is the second highest producer of Coffee in the country.

Industry Scenario

Industrial Development in Chikkamagaluru has remained nascent given the geo-agricultural profile of the district.

- As of 2020, 100 factories occupying the industrial estates and areas of Kadur and Chikkamagaluru employ 4206 people.
- Notable Industries of the District are Lifeline Industries (~300 employees) and Rushil Decor (~255 Employees)
- As per the directorate of MSME The district offers opportunities in the sector for Corporate Hospitality Centers and is earmarked with a 2 billion project in the current edition of GIM.

INDUSTRIAL ESTATES			
Taluks	**Estates**	**Sheds**	**Plots**
Chikkamagaluru	2	28	115
Kadur	1	14	41
Total	**3**	**42**	**156**

Table 15: Number of industrial Estates, Sheds and Plots as on 31-03-2023 (Source: District Statistics 2022-23)

- Agro-Based and Wood industries make up for almost half the employment of Major Industries, 44% of the investment, and a third of all industrial units. Thus, rendering them the potential thrust areas for development.
- The climatic condition here coupled with fertile soil are potent to augment the already strengthened sector with 35% MSME engaged in various food processing industries. 611 Food processing industries and 2 food processing clusters in Sakrepatna make it a conducive space for food-processing development.
- The coffee-curing Cluster in Chikkamagaluru Taluk is one of the two coffee-curing clusters of Karnataka making it an influential linkage for coffee export and development.
- With 3 industrial estates and one industrial area the district is well set to steer new developments with proposed 3 industrial areas, One Industrial Park, one industrial Area and one Industrial estate proposed in Chikkamagaluru, Kadur and Koppa Taluks respectively. KIADB has recently announced the setting up of a spice park to boost spice production in the district (Source: The Hindu 28th Aug 2021)

Service / Tertiary Scenario

The tourism industry in Chikmagalur is one of the major thrust areas recommended by NSDC in their Skill Gap Study. The district is blessed with beautiful vistas. Starting with the Kudremukh hills, the Mullyanagiri peak, the Baba Budan ranges, Hornadu, Kalsa, Sringeri and Kemmanugundi – Chikmagalur has innumerable spots that promise a good holiday. The number of tourists who are visiting the district has been on an increase in the last few years. 2011 recorded almost 93 Lakh tourists, with large numbers visiting Horanadu and Sringeri as a pilgrimage.

TOURISM PLACES

KUDREMUKHA HILLS

The Kudremukha Range has got its name from the unique shape of its main peak. The broad hills overlook the Arabian Sea and are chained to one another by deep valleys and steep precipices. Kudremukha is a trekker's paradise, it allows trekkers to go through the wonderland of lush green forests interspersed with rivers, and grassy slopes.

MULLAYYANAGIRI

Mullayyanagiri peak is the highest peak in Karnataka with a height of 6317 ft and is regarded as the highest peak between Himalayas and Nilgiris. It is one of the best treks in Karnataka and popular among the trekkers.

BABABUDAN RANGES

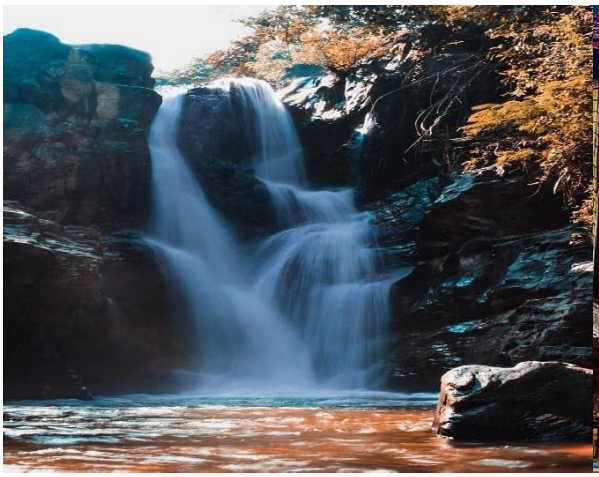

Imam Dattatreya Peetha Situated on the Baba Budan Giri Range is the Imam Dattatreya Peetha, a shrine venerated by Hindus and Muslims alike. The range is also called Chandra Drona Parvatha, as it resembles a crescent. Baba Budan Giri (1895 m) takes its name from the Muslim saint Baba Budan who resided here, and is credited to have brought the first coffee seeds into the region, after a visit to Arabia. A laterite cave here is believed to have been sanctified by being the residence of Dattatreya Swami as well as Hazrath Dada Hayath Mir Kalandar. Worship here is conducted by a fakir, and the annual jatra or urus is attended by both Hindus and Muslims with great fervour.

HORANADU

Horanadu is situated in the midst of thick forests and is a centre of Devi worship. It has nature in all her resplendent glory. Horanadu is home to Sri Annapurneshwari Temple, dedicated to Goddess Annapurna (meaning feeding one and all). It is believed that devotees who seek Her blessings would never have scarcity of food. Horanadu Annapurneshwari temple is believed to be constructed 400 years ago by Saint Agasthya Maharishi. Annapurneshwari translates to Goddess who provides food and fulfils hunger. Since its inception, Annapurneshwari temple has been known to provide free meals to all devotees visiting the temple. Main deity Goddess Annapurneshwari, made of gold, is seen standing with 4 hands, holding Shankha (Conch Shell), Chakra (wheel), Sri Chakra and Devi Gayatri in her hands. With silver coloured Adishesha (snake god) over the head, fully decorated Adishakti Annapurneshwari is a divine sight not to miss. Horanadu temple also has shrines dedicated to Udbhava Maha Ganapathi, Anjaneya Swamy and Sri Navagraha.

KALASA

Kalasa is located on the banks of Bhadra River and is home to Pancha Teerthas (five Sacred Ponds) namely Rudra Teertha, Amba Teertha, Naga Teertha, Varaha Teertha and Vasishtha Teertha. You can also find temples dedicated to Lord Shiva called Kalaseshvara Temple and Agastyeshvara Temple. Kalasa is one of the five sacred religious places in the region: Kalasa is one of the 'Pancha-kshetras'- other four being Khandya, Hebbe, Somapura and Kudli.

SRINGERI

One of the holiest and most important Hindu pilgrim centres, Sringeri was the site of the first of the four Peethas (centres) established by the great sage Adi Shankaracharya, the founder of the Advaita philosophy. Sringeri has the Sharadamba Temple dedicated to Sharadamba, Goddess of Learning and Wisdom. The temple is famed for the matchless beauty of the idol. Nearby is the Vidyashankara Temple which is an architectural marvel – its 12 sculpted pillars, each representing a sign of the zodiac, are placed so that the sun's rays fall on each successively, in the order of the solar months.

KEMMANGUNDI

Kemmangundi is located at a height of 1434m above sea level and is famous for its beautifully laid-out ornamental gardens, enchanting mountains and valleys views. The picturesque sunset view from the Raj Bhavan is every photographer's delight. For those who are adventurous, the place offers many peaks to scale and intricate jungle paths to explore.

BHADRA WILDLIFE

Popularly known as Muthodi Wildlife Sanctuary, the sanctuary takes its name from the Bhadra River. Famous for tigers, it is a great place to sight and observe other mammals, reptiles and more than 250 species of birds as well. The state-run Jungle Lodges & Resorts runs the River Tern Lodge located on a hillock on the edge of the Bhadra reservoir, which is near Lakkavali.

Demand Survey

A sample demand survey was conducted through the district skill office of Chikkamagaluru to ascertain skill demand trends in the district for the year 2024-25. The survey was conducted through two different methods: Direct and Telephonic.

In the Direct Survey, Industrial Areas have been Visited and industries were surveyed in which 3 were Large Scale Industries, 2 were Medium Scale Industries and the remaining were Small Scale Industries. It was found that the major requirement is in the agriculture sector that too in Timber Industries. And in other Sector There is a demand for Food Processing and Fitter and Wage Worker job role. From the Survey it was found that There are high requirements in Construction and Life Science sectors for which skill training is not available through government schemes.

The Telephonic survey surveyed 50 industries from the UAM data and found less demand for skilled workforce. The survey recorded a demand for unskilled and semi-skilled workforce in various industries.

Table 16: Industry Demand (Source: Industry Survey-2024)

Demand surveys help determine the skilling demand in the district and make for better policy decisions. Further, for effective skill demand matching, surveys will have to be carried out at a more intensive scale. A Survey of the Employer can be carried out in tandem with the Employment Office, Industrial Interface committee and the Mobilization committee. Rather than conducting surveys at the district level, the survey can be conducted at the Taluk level with sufficient personnel from the taluk for accurate results.

Incremental Demand

NSDC has estimated an incremental demand of up to 2.46Lakhs from 2012-20211 with majority concentrations in the Tourism and Hospitality Sector, followed by the Agriculture and Allied Sector. Below is a table breaking down the demand estimate with requirements for different Skilled Personnel.

SECTOR	Incremental Demand - 2012 To 2022				
	Total	Minimally Skilled	Semi-Skilled	Skilled	Highly Skilled
Agriculture and allied	46,568	38,785	5,797	1,055	931
BFSI	6,729	-	4,037	2,019	673
Building, Construction industry and Real Estate	21,149	6,345	10,575	3,172	1,057
Chemicals & Pharmaceuticals	207	41	62	62	41

Total	**246,472**	**74,616**	**120,361**	**41,393**	**10,102**

Table 17: Incremental Demand (Source: NSDC Study, 2013)

Demand Side Analysis

The following observations can be made about the Demand Side of the District:

- The district's demand for workers is the highest in the Agricultural Sector
- There is a high potential in Agro based industries given the rising production levels of Bengal Gram, Arecanut, Coffee, Banana etc.
- The Tertiary Sector has the highest demand and has the highest Gross Domestic State Product. Tourism, Trade, and other services are thrust areas.

Skill & Vocational Training

Current Skilling Scenario in the District

Skill Development programmes in the district can be classified as privately funded and government-funded:

1. Privately Funded:

   Happens through NGOs and Private Players in the district. Skilling here is concentrated on Soft Skills, Computer literacy and tailoring etc. The fees for the same range from 2,000 to 14,000 depending on the course and the kind of training given. The Skilling is not NSQF Aligned.

2. Government Funded:

   The government funds different centers and runs a few centers for skill training. DTI, RSETI, and CEDOK are some of the institutes which run skill training and entrepreneurship programmes.
   The CMKKY scheme of the Skill Development Department is the flagship skilling programme which caters to skill development and in the last year ITI Colleges have been Provided CMKKY Training to their Students in the District.

PMKVY Covid Crash Course Programme was initiated as a response to the COVID Pandemic and trained candidates.
Skilling programmes carried out by the departments may or may not be NSQF Aligned, with skill training varying from a few days to three months.

Equal Participation from all social categories is promoted in the scheme. It is made sure that the social composition of the batch matches the social composition percentage of the district.

Category	Male		Female		Total	
	Trained	Placed/Self Employed	Trained	Placed/Self Employed	Trained	Placed/Self Employed
SC	38	20	264	187	302	207
ST	2	1	38	32	40	33

Table 19: Sector wise Trainee analysis under various Trainings in District

Skill Training Programs across different and In Line Departments

Sl no	Scheme / Institution	Implementing Department / Institution	Summary
1	Pradhan Mantri Van Dhan Vikas Yojane	ITDA, GoK	Training Carried out in collaboration with LAMPS Co-operative Society in Koppa. Second Center being planned in Mudigere Taluk
2	KSRTC Regional Training Centre	KSRTC, GoK	Carries out Training for Heavy Passenger Driving and Light Motor Vehicles in Teguru, Chikkamagaluru TQ

S no	Scheme / Institution	Implementing Department / Institution	Summary
3	Government Tool Room and Training Center	SDEL, GoK	Autonomous body setup by GoK and DANIDA (Government of Denmark) for Diploma and Short-Term Skill Training. GTTC in Kadur provides training in CNC Milling Operation, Desing and Programming and Production Engineering. It offers a diploma course in Tool and Die making
4	Industrial Training Institutes	SDEL, GoK	Around 21 ITIs cater to the increasing Industrial Operations of the country through different NSQF Aligned Job Roles such as Electrician, Fitter, Welder, COPA. Through a PPP with TATA, 4 ITIs in Chikkamagaluru have been upgraded for providing training in EV Battery and Robotics
2	RSETI	Lead Bank (Union Bank of India)	Conducts NSQF Aligned Job Role Skill Trainings, EDP Programmes. Close to 50 different courses are available. MoRD has signed an MoU with RSETI at district level
3	Krishi Vigyan Kendra	ICAR, GoI	Givens Training pertaining to Soil Testing, Animal Husbandry, Mushroom Culture, Farming etc in Campus and off-campus.
4	CEDOK	SDEL, GoK	Conducts EAP, EMP, EDP Programmes across district
5	District Agricultural Training Center	Agriculture Department, GoK	Carries out extension training for farmers in agricultural, horticultural, and animal husbandry technologies. The training is given on an on-need basis and used by the horticulture, agriculture and animal husbandry department. The training period varies from 3 to 6 days. The off-campus trainings through farm visits are also given, which are 1 day district farm visits as well as 4-day state tours. There is also an option for online classes.
6	Horticulture Training Center, Beejuvalli	Horticulture Department, GoK	Carries out short training workshops through Farmer Contact Centers. Has a 10-month-long training course on Horticulture for govt. aspirants for Horticulture Dept

Gap Analysis

SWOT Analysis

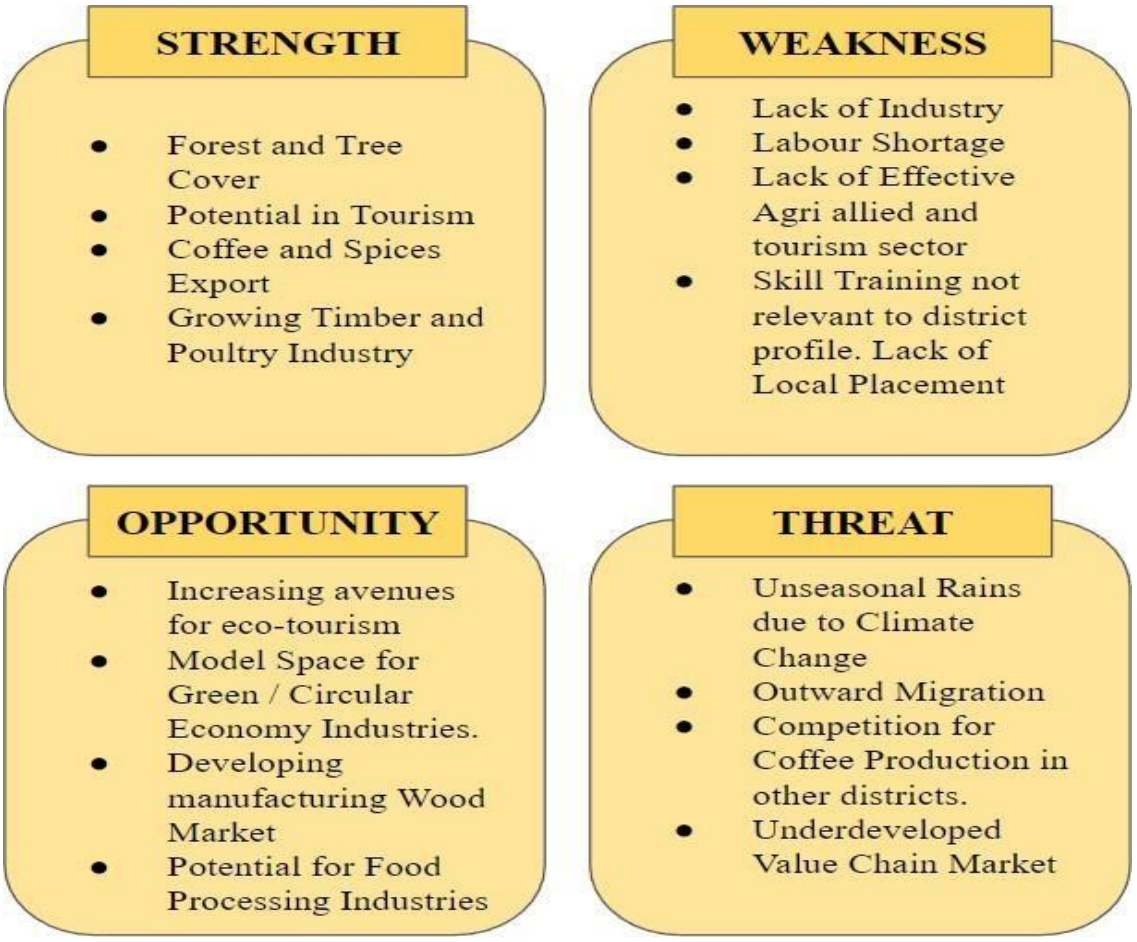

Figure 6: SWOT Analysis of the District of Chikkamagaluru

Strategies and Priorities based on SWOT and other inputs.

- Emphasis on Tourism (Eco-Tourism and Agro Tourism) and Hospitality Sector Skill training, Agri-Based Skill Training and Agro-Forestry.
- Training of Trainers
- Counselling and Mobilization to be emphasized.
- Training of trainers in all the sectors and trades must be organized and qualified Trainer for Skill Development Institutions should be mandatory.
- Counselling and Mobilization must be strengthened to include more of SC, ST, Women, and minorities population of the district.
- Industry connects to be increased to bring in awareness in Job roles in which training is imparted.
- Skill training in Furniture and Fittings to be given more importance.
- Food processing skill training to be strengthened.
- ITI's and Polytechnic can start short term training program to make their students employable.

Gaps in Demand and Supply of Skills

There is a gap between the required skill for the district and the Supply of Skill Training in the districts. The current skill training caters and is in response to a larger macro-economic scenario of the state and country in general. Below is an analysis of the supply and demand for Skilled Personnel in the district articulated through the DSDP toolkit and interactions with different stakeholders in the district.

Skills which are low in Demand but high in supply	Skills which are low in supply but high in demand
Self Employed Tailor	F & B Service (Hospitality)
Industrial Production Worker	Tour Vehicle Guide
	Tour Guide
	Coffee Grower and Processor

Skills which are in High Supply but high in Demand	Skills which are low in supply and low in demand
Taxi Driver	Accounts Executive
Beauty Therapist	Hand Embroidery
Nursery Grower	Animator
Fruit Cultivator	

Being a largely agrarian district there is a demand for unskilled labour in the district compared to the demand for skilled labour. Skill Training must cater to retention and upgradation of existing labour forces for better economic efficiency and activity.

Potential Trades that can be introduced in the district:

1. Organic Grower	7. F & B Manager
2. Vermicompost Producer	8. Tour Guide
3. Poultry Factory Worker	9. Tour Consultant
4. Coffee Grower & Processor	10. Tourist Driver
5. Construction Worker	11. Food Processor
6. Engineering Works	12. Domestic Worker

The Key Employers in the District considered are:

- Coffee Plantations (Plantation Worker, Trained supervisor, Accounts, Processor, Coffee Assayer)
- Hospitality Industries (F&B Service, Housekeeping, Receptionist, Chef, Driver)
- Agriculture (Labour, Dairy Farmer, Vermicompost Producer, Organic Grower, Motor Technician, Equipment Mechanic)
- Lifeline Industries and other Poultry Industries (Hatchery Manager, Poultry Farm Worker, Chic Sexing and Grading Technician)
- Rushil Decor and other Timber based Industries (Sawmill Operator, Factory Worker, Timberman)
- Self-Employment (For Beauty Therapist, Tailoring, Tourist Guide, Electrician, Plumber)

The Key Employers outside the District considered are:

- Multi-National and Large Private Companies such as Reliance
- Logistical Operations such as Flipkart, Amazon, VRL etc.

For development of disadvantaged or marginal sections of society, the following skill training can be given for their inclusion:

Trades for SC Inclusion:

- Dairy Farming
- Animal Farming
- Mushroom Grower

Trades for ST Inclusion:

- Poultry
- Dairy Farming
- Collection and Marketing of NTFP
- Honey Collection and Processing
- Areca Leaf Plate and Utensils
- Spices Food Processing

Trades for Women Inclusion:

- Home Aid
- Mushroom Grower
- Food Processing and Value-Added Products
- Dairy Farming
- Making of Wooden Toys
- Home making and Interior Decoration
- Tailoring

Annual Work Plan

Based on the Data Collected for the District Skill Development Plan Kit / DiSPAK, considerations for convergence with other schemes, State Skill Development Mission, and other inputs. The following list of Indicative Actions can be developed for the District Skill Mission for the FY 2024-2025 under the three components as mentioned below:

Component 1: Strengthening Institutions

Component 1 deals with the Institutional Strengthening at the District Levels for Planning, Delivering, and Monitoring of Skill Development Programs. The following actions shall be taken:

- Reactivation of the Sub-Committees: Respective Sub-committees shall be ratified by the District Skill Committee to provide reports and recommendations as per the need for effective Skill Training.
- Involvement of the Industry Interface sub-committee in providing reports/actions for available placement of students post training within the district and identifying QP-NOS relevant to the district for enhancing employment.
- Participation in Demand Aggregation of Sector Skill Councils: The district skill office shall participate in the demand aggregation survey with the sector skill councils.
- Identification and collection of data of different skill trainings conducted by different departments as per the DSDP norms to be included in the District Skill Development Plan for 2025-26.
- Identification of Skill Hubs and Support for NEP 2020 implementation

Component 2: Increasing Skill Quality and Market Relevance

- Implementation of KSDC's Industry Linkage Cell Programme for increasing market relevant training in tandem with the Industry Interface Sub-committee and District Skill Office.
- Support the IMC-K initiative of KSDC (Karnataka Skill Development Corporation being the State Skill Development Mission) to increase skill quality and meet the demand for skills in foreign countries in line with the outward migration of the district.
- Implement Special Projects for better market relevance and improved livelihood opportunities.
- Identification of relevant job-roles to support the 'One District One Product' /PMFME Scheme in the district.
- Ratify the Self-Employment Sub-committee to provide reports for enhancing self-employment through Eco-tourism or Agro-tourism.

Component 3: Inclusion of Marginalized Groups

- Identification and Implementation of 'One District One Skill' programme of State Skill Development Mission to support Native/Traditional Skills of the Districts.
- Establishing or supporting the monitoring mechanism for Skill Programmes of the ITDA, WCD etc.
- Identification of NGOs/Organizations for implementation of Skilling Programmes.
- Activation of the Capacity Building Sub-committee to ensure better participation from SC/ST, Women, and other Disadvantaged Groups in Skill Training Programmes.
- Implementing Recommendations from the Training Quality Sub-committee to maintain a balanced pool of candidates in training job roles.
