Ministry of Skill Development & Entrepreneurship

GOVERNAMENT OF KARNATAKA
SKILL DEVELOPMENT, ENTREPRENEURSHIP & LIVELIHOOD DEPARTMENT

DISTRICT SKILL DEVELOPMENT PLAN

2024-25
Annual Work Plan

PREPARED BY
DISTRICT SKILL MISSION
Chitradurga, Karnataka, India

To Whom it may Concern

This Letter is two formally confirm that I have received the Documents Submitted by the District Personal. I hereby Attest that the Information Provided is accurate and complete to the Best of My knowledge. Additionally, I approve the Plan as outlined in the submitted Documents.

Thanking You,

Yours faithfully,

(Shri Venkatesh T)
Deputy Commissioner
Chitradurga

District Skill Mission, Chitradurga

DECLARATION

"This is to confirm that the plan has been prepared by the district and all data, information provided has been taken from the credible sources and referenced in the proposal",

Nirmala GT
District Coordinator
Chitradurga

(Shri Vemanna T)
District Skill Development Officer (Incharge)
Chitradurga, Karnataka

Preface

We extend Gratitude to Ministry of Skill and Development and Entrepreneurship, Go I to give us an opportunity to prepare District Skill Development Plan (2024-25). We would like to thank all the government department, Training Centers, & Educational Institutions for their support. Special thanks to Smt Kanagavalli (MD-KSDC), Shri Venkatesh T. IAS (District Commissioner Chitradurga) & Shri Vemanna T (District Skill Development Officer) for their constant support and guidance

As-is- Analysis.

1.1-Introduction:

Chitradurga is one of the 31 districts of Karnataka and a place with historical significance which is located to the Northwest 200 kms away from Bangalore. In 2006 the Ministry of Panchayati Raj named Chitradurga one of the country's 250 most backward districts. Chitradurga cities is well connected to Bangalore, Mysore, Mangalore, Davanagere, Hubballi, Hospet, Bellary, Tumakuru, by road and through railways. Both NH-4 & NH-13 meets at Chitradurga City. It Shares Border with the Andhra Pradesh to the northeast, to the north is Bellary Dist, to the west is Davanagere Dist, to the southwest is Chikkamangaluru Dist, & to the south is Tumakuru Dist. Chitradurga district is famous to produce oil seeds especially Groundnut & Sunflower. When it comes to plantation crops Coconut & Cereal is grown higher in number, and value-added product industries are associated with this plantation crop for the raw materials. Chitradurga district is a famous for its Molakalmuru silk sarees & it has GI Tag to it. Renewable energy has lots of scope in the district especially the Windmill, there are about 100 wind mills in the district & it has a capacity to generate more than 200 MW.

1.2-Demographic profile

As per Census 2011, Chitradurga district has a population of 16.59 Lakhs persons – 2.71 % of the State population. Majority of the population at 25.5% each is concentrated in Chitradurga taluk, followed by 20.3% in Challakere, 17.2 % in Hiriyur taluk, 14.2 % in Hosadurga taluk and remaining in other taluks.

Literacy Rate:

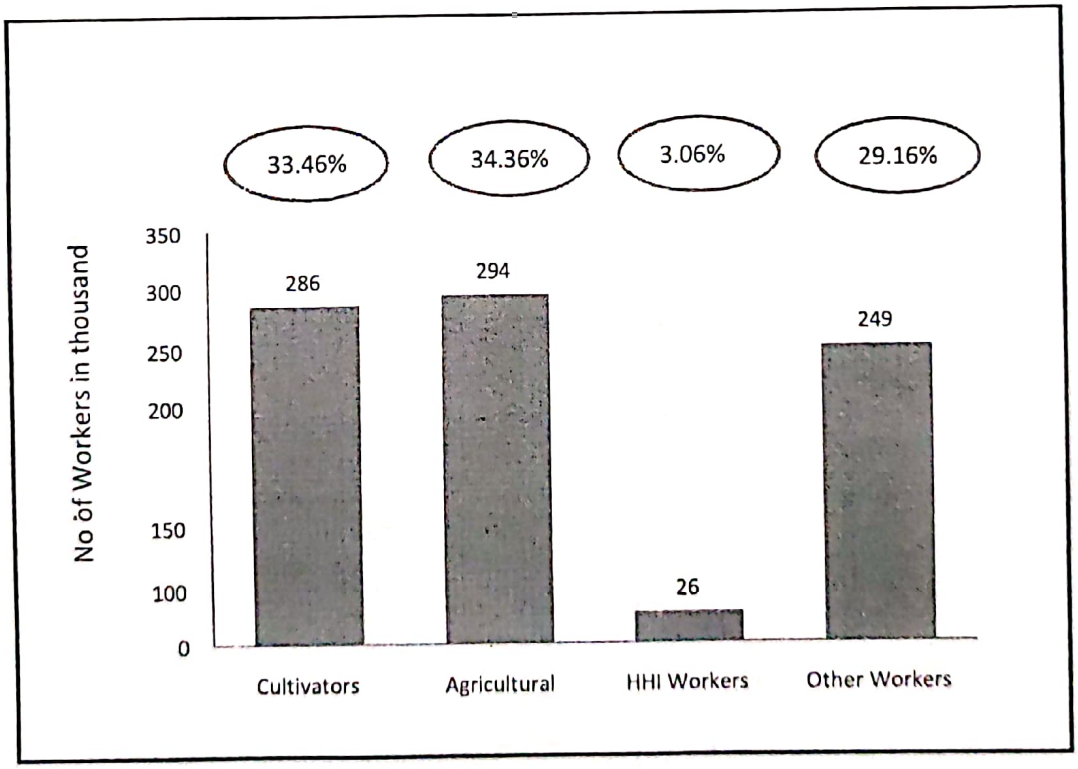

Chitradurga District the slow literacy rate when compared to the state average literacy rate. Molakalmuru Taluk has lowest literacy rate of 65.69% among all the Taluks in the Districts

able3: Literacy rate

Literacy rate	Rural	Urban	Total
Male	79.19	90.22	81.37
Female	61.91	81.55	65.88
Total	70.68	85.89	73.71

Work force:

The district has a total workforce of about 8.56 lakh persons. Of this, 33.46% are cultivators, 34.36% are agricultural laborers, 3.06% are workers in household industry and 29.16% are other workers.

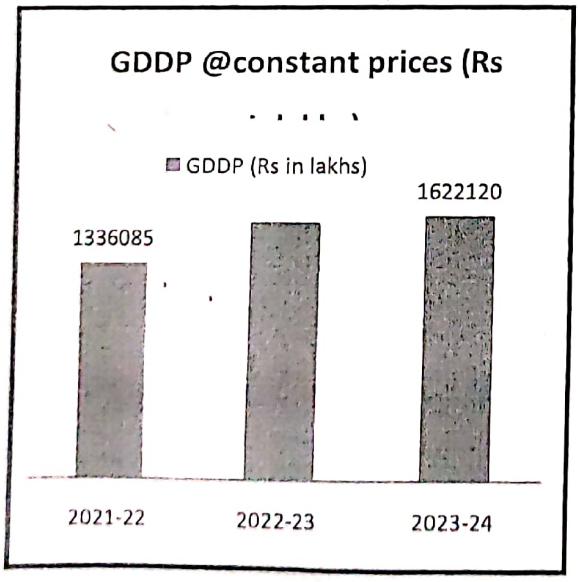

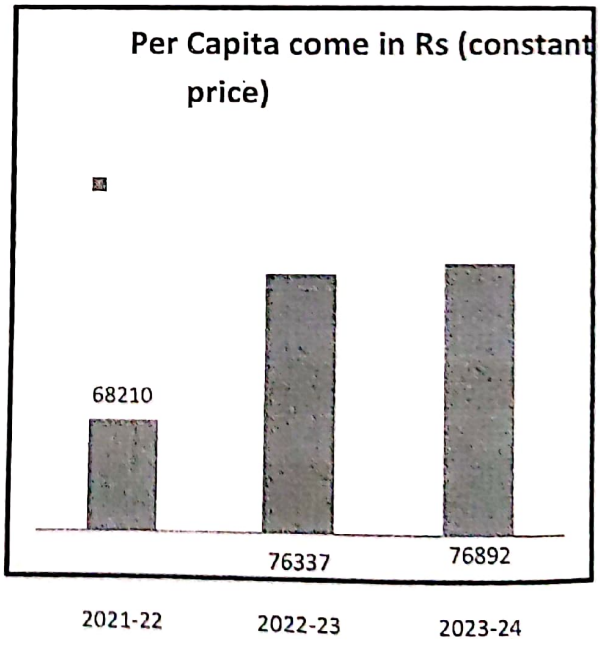

1.3-Economic Profile

District is agrarian in nature, most of the regions in the district are rain-fed, Areca-nut, Groundnut, Maize, Coconut, Pomegranate, cotton is some of the important grown in the district. Many Self-Help Groups in the district are involved in the value addition of food products. District is huge deposits of iron ore, manganese, limestone etc. Couple of industries are involved are involved in processing of the raw material into intermediate form. Two large scale textile industries provide an employment to more than 10,000 people in the district. District is very famous for the ancient monuments where more than 24 Lakhs people visit each year.

Table4:

District	Gross District Domestic product		Net District Domestic Product		Per Capita NDDP	
	Current Price in Lakhs	Constant Price	Current Price	Constant Price	Current Price	Constant Price
Chitradurga	2691928	1784384	2344447	1508450	1,66,985	76,892

Primary Sector:

Of the total area of 8,388 sq. km. in the district, over 56 per cent is the net sown area (cultivated land). Agriculture is mainly dominated by maize, ragi and jowar production. Oil seeds such as groundnut and sunflower production are also high in the district. Fruit crop production like pomegranate, sapota, mosambi, etc. is high in Hiriyur and Holalkere sub districts. However, percentage of horticulture crops to total cropped area is only 7.38 per cent. Hiriyur is famous for the Choir based industry and many foods processing Industries are dependent on the raw materials produced from the agriculture.

Table 5: Usage of land for Agriculture

S No	Description	Area(inHectares)
1	Geographical Area	7,70,702
2	Total Cultivable land	4,19,901
3	Net Cropped area	3,40,415

Industry:

Chitradurga district has seven large and medium scale industrial units with an investment of Rs.154.61 crore, employing 530 persons. Large and medium scale units include Madras Cement Limited, R.K. Power-gen Private Limited, V.S L. Steel Limited, Sunray Industries and Prakash Sponge Iron and Power Private Limited. End products manufactured by these companies are cement, sponge iron, perigone. Chitradurga district is also one of the known pockets for windmill farming in Karnataka. Chitradurga also has 1,850 Small Scale Industry units (SSIs) with an investmentofRs.55.50 crore, employing 14,800persons. Chitradurga sub district has largest number of SSIs at 560 units, employing around 4,480 persons, followed by Challakere sub district with 470 units, employing 3,760 persons. Lowest is Molakalmuru sub district with 120 SSIs, employing 960 persons. There is significant number of foods based, general engineering and textile-based SSI units in the district, employing around 54 per cent of the persons employed in SSI units. There are three Industrial Estates and one Industrial Area i.e. Kelakote in Chitradurga district.

Table7:Taluk wise Industrial Areas in Chitradurga District

1.9-Swot analysis

Strengths:

- District has good network of road connectivity two national highways passes through the district.
- Presence of Indian Institute of Science (IISc) second campus in Challakere taluk for research-based activity.
- Ground nut is grown abundantly in Chitradurga, leads to establishment of groundnut-based industries.
- RSETI, KVK (Krushi Vigyan Kendra), PMKVY, CMKKY, 64 ITIs, 8 polytechnic colleges,2 GTTC (Government Tool Room & Training Center)
- Molakalmuru Silk Sarees which has got GI-Tag & Chowluru Kambli (Blankets) are famous handlooms weaved in the district.
- More than 500 Windmills present in the district.

Weakness:

- Most of the Regions in the district are rain-fed and presence of irrigated areas.
- Reluctance shown by the training partners to diversify of Job-roles& placement of the trainees is low.
- Non-Willingness of the large-scale industries to enroll as training partners.
- Entrepreneurship is lacking in the people; Entrepreneurship Development process is to be planned through conducting of EDPs.
- Large scale industries are concentrated only in the region of Hiriyuru taluk.
- Even though the cultivation of cotton is high, but the spinning industries has decreased drastically from the past two decade.

Opportunities:

- There is potential for garments industry.
- Food processing industries has good prospects for employment.
- Huge potential for skilled/semi-skilled workers in the poultry feed industry and service sector.
- There is a great demand for Milk & Milk products. Proper training & marketing support will help dairy industry.
- Coir industry has
- There is lot of scope for Tourism hospitality sector.

Threats:

- The existing traditional industries are in problems due to technology obsolescence.
- Aspirant not interested in migrating to other districts.
- Increased competition for all goods & service from adjacent district.
- Change in the cropping cultivation due to the implementation of Upper Bhadra project in turn there is decrease in the ground nut cultivation.

1-Aggregate Demand

2.1-Employment Profile:

Chitradurga	712	169	4249	5130	379	73	1603	2055

2.2-EmergingSectors:

Energy:

- 4th largest producer of wind energy with a capacity of 1472.75 MW, District has one of the high wind sites in the country with over 20,000 wind turbines.
- Best performance in the country by district wind farms recording a capacity factor of 38.5% opposed 21 MW EWKL Wind Farm

Textile and Handloom Industries:

- Textile constitutes second-highest number of Large & Medium Industries in the district and around 12% of SSI units in the district. Among the highest investment attracting sectors.
- 3artisanclustersinTextileHandloomsandHandPrinting
-

Food Processing:

- A Large number of SSI units are engaged in Food Processing sector creating an eco-system and supply of skilled labour
- More than 20% of the SSI units in the district are engaged in Agro and food processing activities.

Mining:

- Rich in resources like Iron & Manganese Ore ,Copper and Green Quartz
- Limestone reserves estimated to the tune of 93.05 million tones

2.3-Self Employment

2.4-Incremental Demand Estimation: From NSDC & iMacs

There is an incremental demand for 1.54 lakh persons are likely to be generated in Chitradurga district. Agriculture and allied has the maximum potential in the district and are likely to provide employment opportunities to many. This will be followed by building, construction industry and real estate. Food processing is also a potential growth sector in the district, presence of Food Park in Chitradurga and availability of fruits, cereals and pulses in the district makes food processing industry as an attractive business. In addition, as the economy grows, demand for supporting infrastructure such as health and education is also expected to increase. The incremental supply of workforce between 2012 and 2022 is estimated at 2.07 lakh persons. Excess supply in Chitradurga district tends to move to Bangalore for employment. Tourism, & Hospitality sector has huge potential in the district but investment& growth in this sector is average in turn the employment in the said sector is low, appropriate incentives should be provided to private players.

Table21: Incremental Demand

SECTOR	Incremental Demand-2012 To 2022				
	Total	Minimally Skilled	Semi-Skilled	Skilled	Highly Skilled

		With in the district	Within the state	Within India	Internatio nal
Inward: Coming into District/ Tehsil	**From**	All Taluks to District Head quarters	Bangalore to Challakere	Tamil Nadu, Bihar, West Bengal, &Orissa to Chitradurga & Hiriyur	NA
	Reason	Education Purpose, employment in Garments industry	Due to the presence of IISc campus where research activities are done	for installation Windmills & Employment opportunities in Iron ore industry	NA
Outward: Going out from the District	**From**	-	Chitradurga to Bangalore Chitradurga to Chikkamagaluru	Chitradurga to Neighboring states	Chitradurg at abroad
	Reason	-	Employment in IT Sector, Education purpose	Employment &Education	Education &Employ ment

Table23:Migrationdata-(2011census)

Sl. No	Migration Parameter	No of persons Migrated	Reason
1	**Total Outward Migration**	6,09,033	Livelihood
2	**Intra District**	4,40,051	
3	**Inter District**	1,37,898	
4	**Intrastate**	1,42,856	
5	**Interstate**	30,648	
6	**Outside India**	436	Education& Employment

Most of the graduate students migrate to Bengaluru for employment & education purpose. Most of the villagers in Molakalmuru migrate to Chikkamagaluru for period of 5 months to work as coffee plantation worker.

2-Gap Analysis

3.1-Skill gap analysis

Table24: Skill Gap analysis is of the Prominent Sector

Role, educational qualification	Expected competency	Skill gaps
Supervisor (Any Graduate and/or experienced)	▪ Managing all the facilities and the functioning of the work-force. ▪ Supervising of the work conducted by operators / tailors. ▪ Knowledge of stitching process ▪ Quality check ▪ People management ▪ Leadership skills ▪ Soft skills	▪ People with supervisory skills are in scarcity in Chitradurga district. Those who are educated with these skills in the district prefer to move to Bengaluru in search of better jobs and higher salary.
Operators / tailors (illiterate to 10th pass)	▪ Proficiency in tailoring / knowledge is required for stitching garments with different specifications. ▪ Good machine control – knowledge of threading of sewing machine, stitching on different shapes, seaming garment components together in various fabrics to specified quality standard	▪ In adequate knowledge to maintain the machines
Quality control executive (Graduate and/or with some experience in garment industry)	▪ Ability to inspect if the garments have been stitched as per given specifications and instructions. ▪ Ability to check for quality adherence. ▪ Ability to understand and prevent defects like size variations, loose threads, stains etc.	▪ On-the job training provided as such skills usually come from experience.
Helpers (illiterate to10th pass)	▪ Ability to cut the cloth based on specifications. ▪ Ability to button the stitched garments. ▪ Ability to put labels on the stitched garments. ▪ Ability to iron the ready garments properly. ▪ Ability to iron the garments. ▪ Ability to pack the garments in bundles	▪ Basic skills required for this profile, for which no / minimal training required. Mostly provided easily on the job.

Handloom operator –Kambili (Blanket)	▪ Operating of looms ▪ Maintenance of loom ▪ Deducting weaving defects	▪ Process oriented skill up gradation training is required.
Silk weavers	▪ Operating of looms ▪ Maintenance of loom ▪ Deducting weaving defects ▪ Ability to find out the reason for looms top page and rectifying. ▪ Knowledge to offer different/diversified products. ▪ Embroidery skills ▪ Computer designing ▪ Marketing skills (including export) ▪ Dyeing techniques	▪ Currently they are using jacquard design. ▪ Training is required on usage of computers in designing. ▪ Ability to create diversified products – new varieties, silk by jute / silk by cotton products. ▪ Export market awareness ▪ Dyeing techniques ▪ Processing techniques in terms of finishing and packaging ▪ Embroidery training
Plant manager (B.Tech/B.E /Diploma with experience)	▪ Raw materials tock management ▪ Monitoring quality of raw material purchased. ▪ People management ▪ Plan to Minimize feed loss. ▪ Monitoring the production process ▪ Preparation of shift schedules ▪ Controlling operations through shift in-charge ▪ Addressing problems arising at field level	▪ Process industry related training for B.E and Diploma holders is required. ▪ Technology opportunities in sponge iron industries ▪ People management
Trainee (Diploma/ITI with 0-2 years of experience –, Mechanical, Electrical and Fitter)	▪ Candidates start their carrier as trainee and then move up in their organizational ladder. E.g., Trainee Fitter – Junior Fitter –Fitter – Senior Fitter - Foremen ▪ Raw material screening ▪ Using weigh men systemin stock house ▪ Handling furnace related activities ▪ Working in waste gas section	▪ ITI Mechanical /Diploma engineers are employed for stock house activities though the industry needs Engineering Graduates. ▪ Material science and metallurgy ▪ Power distribution system ▪ Industrial automation ▪ Adapt ability to heat environment

3.2-Sector wise Job role Requirement in Chitradurga District

Table25: Sector wise job role requirement

Sector	Job Role	People Working Approximate	People Needed Skilling
Agriculture	Seri culturist	65	360
	Beekeeper	120	4
	Chilling Plant Technician	6	60
	Dairy Farmer/Entrepreneur	800	600
	Green House Operator	30to40	170
	Micro Irrigation Technician	18	350
	Mushroom Grower	60	550
	Soil & Water Testing Lab analyst	5	50
	Solar Pump Technician	27	100
Apparel	Embroidery Machine Operator	50	300
	Fashion Designer	0	30
	Sewing Machine Operator	8000	3000
	Storekeeper	20	100
Automotive	Accessory Fitter	100	400
	Area Technician Lead	200	200
	Ericks haw Driver Service Technician	5	50
	Driver Trainer	5	10
	Highway Tool Collector	50	50
Banking Financial Service &Insurance	Accounts Executive (recording, Reporting)	66	30
	Life Insurance agent	60	30
	Goods &Service Tax Assistant	55	30
Electronics	CCTV Installation Technician	20	30
	DTH Set Top Box Installation& Service Technician	50	30
	Solar Panel Installation Technician	45	100
	Solar & LED Technician	15	50
ood Processing	Assistant Lab-Technician-Food& Agricultural Commodities	2	45

	Food Products Packaging Technician	0	25
	Milling Technician	20	30
	Traditional Snack & Savory maker	30	400
Furniture's Fittings	Installer–Framed Doors/Windows	500	250
	Lead Interior Designer	50	140
	Assistant-Fitter	2000	1000
Handicrafts	Hand rolled Aarati maker	80	2000
	Handloom Weaver(carpets)	30	500
HealthCare	Blood Bank Technician	25	80
	Dental assistant	30	60
	Emergency Medical Technician-Basic	25	50
Mining	Ore Process Operator	45	50
Textiles &Handlooms	Power Loom Operator	379	750
Tourism Hospitality	Office Manager	25	20
	Housekeeper	40	80
	Receptionist	100	200
	Cook	120	100

3-Proposed Action Plan:

4.1-Objectives: The major objectives of the District Skill Development Plan are

- To provide convergence platform among skilling stakeholders to standardize skilling, promote maximum utilization of resource under common skilling norms in the state.
- To conduct workshops, capacity building and awareness programmes to promote the skill development programmers in the district.
- To Study the demand and supply in district and implementing and monitoring such job roles quality training
- Develop robust skill plans, monitoring and evaluation enable MIS system covering all skilling activates align with requirement of the district.
- Support to Placement providing to Trainees.
- To promoting self-employment activates in the district.
- To enrollment and counseling of trainer

4.2-Activity-1: Institutional Strengthening

- District skill committee (DSC) meeting will be conducted once in three months to review about the skill development programmes & livelihood opportunities. All the 8 sub-committees should be assigned with various tasks & it should be completed before next meeting.
- All the sub- committees will be working in tandem and will be sharing the information regarding their respective departments in a common portal.
- Mobilization Sone of the important component sin reaching the programme awareness to the grass-root level. District urban development cell (dudc) & zilla panchayath should assign their human resources in mobilizing the candidates.
- Self-help groups in the district should be provided with the mobile van to market their products in the desired location.
- Involving private skill institutes, NGOs, industries, college principals while preparing district skill development plan.
- The process of collecting the employment details from the industries and skill requirement details from the industries should be collected on quarterly basis. It helps in analyzing on which sector the training should be focused.

Activity-2: Improved Quality and Market Relevance of Skill Development Programs

- **Performance Review:** The MIS, Monitoring and Convergence Sub-Committee will conduct quarterly performance review meetings based on the performance and compliance review activities undertaken by the skilling departments in the districts with the participation from all the existing TC sin the district. The MIS, Monitoring and Convergence Sub-Committee will also act as the single point of contact to address the concerns or suggestions of the TCs.
- **Strengthening the Institute- Industry Eco-system (Institute-Industry Connect):** The Industry Interface Sub-Committee will drive the Quarterly apprenticeship awareness workshops with District Employment Officer, Directorate of Employment and Training, Govt. of Karnataka with the participation from youth, TCs and Industry. Also Organizing quarterly job fairs cum mobilization campaign with the participation from TCs, Placement agencies and Industry Partners in coordination with District Employment Officer, Directorate of Employment and Training, Govt. of Karnataka and District Industries Centre provided with wage, self-employment, or training opportunity to the youth.
- **Placement Drive:** The Industry Interface Sub-Committee will focus on the placement drive across all sectors and job roles in connection with TCs and industry people where they will be brought under equal platform.
- **Interaction for the Professionals and regular Aptitude test:** The Training Quality Sub-Committee will focus on the periodic interaction (quarterly once) of the professionals of industry and faculty from TCs across all sectors and job roles. The Training Quality Sub- Committee will conduct an aptitude test for the trainees to review their level of the training across all sectors and job roleş.
- **Organizing Entrepreneurship Development Programs (EDPs):** The Capacity Building Sub-Committee will conduct one Entrepreneurship Development Program with coordination from Centre for Entrepreneurship Development of Karnataka (CEDOK) on monthly basis for aspiring and existing entrepreneurs to start or improve their business. The Capacity Building

  Sub-Committee will organize the program to educate the participants on banking, taxation, and start-up.

Activity-3: Incubation Center for SHGs under PMEGP Scheme

District is very famous for the cultivation of groundnut about an area of 1,19,091-Hectares is cultivated with an annual production of30,410 Metric Ton. Groundnut happens to be One District One Product of the district SHGs in the district are involved in the value addition of the Ground nut, products like groundnut oil, Pea-nut butter, Challakere Chikki (NABARD Officialities district are involved in branding the particular product). About 10 SHGs are involved in making Challakere chikki but they require training on making different type of chikki Below point mentions about the challenges faced by the SHGs

- Proper food packaging Technology training needs to be imparted to the SHGs.
- SHG shouldn't manufacture large quantities in a single day
- Lack of master trainers to impart the training to the to her SHGs.

There is a need for the incubation center where oil extraction unit, chikki making unit, are to be installed. The FPOs (Farmer Producing Organization) and SHGs can avail this facility to the value addition of the ground nut products. And proposal for this project will be submitted in coming days to the Ministry of Skill Development Entrepreneurship New Delhi.

Activity-4: Vocational training programmes to the College students.

Karnataka Skill Development Corporation & Nandi foundation collaborating to provide short term training programmes to the ITI, Polytechnic, Undergraduate and Postgraduate students on various sector. This training is provided only to the girl students, free of cost. District Skill Development office has mobilized various colleges to conduct the training. The below table show the number of students availed the course.

Table26: Number of students undertook training done under Nandi Foundation programme.

Sl. No	Course	No of students trained	No of colleges covered
1	Digital Marketing	79	1
2	Python	119	1
3	Soft Skills	435	4
4	Agriculture	88	1

Fig: Short term training programme conducted @Vedavathi First Grade degree college

Activity-5: Digital Marketing Training programmer to the Self-Help Groups

Under the SANKALP project, Digital Marketing Training has been proposed to the Karnataka Skill Development Corporation. SHGs (Self Help Group) in the district are involved in value addition of food products, manufacturing of Incense sticks, papas making etc., the products made by these SHGs are of high quality but the demand for these products are minimal and intermittent. SHGs usually market their products only to the known people, market their products to nearby shops but they don't market beyond their geographical region, one of the reasons is lack of knowledge one-marketing even though the Zilla Panchayath office has set up various stall across the district, but the sales are not up to the mark. There is need for the SHGs to market their products digitally, this project helps the SHG to adapt to the new way of marketing in turn which enhances their profitability. Initially training programme is given to 40 members from different SHGs for the period of 2 months.

Activity-6: Collecting the Data Base of the Candidates for Job-Fair

District Skill development office plans to conduct job fair once in 2 months based on the demand from the industries. It has decided to conduct the job fairs in all the blocks of the district. One of the main problems while conducting the job fair is low turn-out ratio of the candidate despite advertising, mobilization through various medium. Potential candidates are not aware of job fair conducted in district. To mitigate this issue DSC committee has come up with a new initiative to collect the data base of the students from Degree colleges, Polytechnic, ITI & Nursing Institutions, so that skill trainings.

Activity-7: Recognition of Prior Learning (RPL)

Recognition of Prior Learning (RPL)is as kill certification component to enable Indian youth to take on industry relevant skill certification which will help them to secure a better livelihood. Individual switch prior learning experience or skills can register themselves and get Assessed and certified under the RPL component of PMKVY.Main objective of the programme is, it focuses mainly on individuals engaged in unregulated sectors. To actively contribute to existing skill development in India by establishing an outcome-driven implementation framework which evaluates and recognizes skills and knowledge acquired outside the classroom (informal learning or learning through work), helps people acquire formal qualification that matches their knowledge and skills. Chitradurga District has huge potential for Solar power plant, last year training was provided on Solar Panel Installation Technician. Details of the course is mentioned below.

Table 28: Details on RPL

District	Job Role	Sector	Enrolled	Certified
Chitradurga	Solar Panel Installation technician	Electronics	100	71

For the current year district skill development office has planned to conduct RPL forth members of weaving community, Carpenter, & Self-Help Group, who are working on food products.

Activity-8: Industry Linkage Cell

Karnataka Skill Development Corporation has launched a new programme Called Industry Linkage Cell, where the industries will be enrolled as training partners & in turn industry will be providing training to the trainees. These industry linkages are aimed at facilitating better job opportunities to the trainees, and provide demand driven industry relevant training opportunities to the trainees. The Objectives of ILC are:

- To determine the Skill gap between what the industry demands and what the skilling requirements ought to be & design optimal mechanisms to bridge the same.
- To understand the gap between supply side and demand side for design and improvement of current policies and procedures.
- Helping them meet their long-term workforce requirement by creating a pool of skilled manpower across different sectors.
- Catalyze the creation of sustainable and "Quality Skills Training Intuitions" across the State by organically collaborating with respective industries.
- Prioritize initiatives that can have multiplier or catalytic effect on capacity and quality of skilling in India

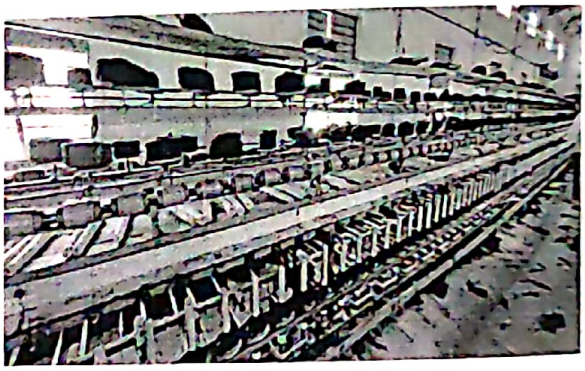

This programme is being implemented in phase wise, in the first phase the large industries are to be enrolled in the district. And in the second phase the medium and small-scale industries are to be enrolled. Currently two industries (Textile & Poultry Feed Industry) have agreed to enroll in the scheme.

Activity-9: One District One Skill

Karnataka Skill Development Corporation (KSDC) has come up with a new initiative called One District One Skill (ODOS) which is aimed at rejuvenating the traditional skills practiced in Karnataka. KSDC has identified various traditional arts and skills of every district in the State and this programme is designed for technological up gradation and design intervention of these special skills. As part of this programme, around 100 skilled persons will be trained in each district for entrepreneurship, market linkages and technological up-gradation. Under this initiative **"ChowluruKambli"** is selected from the chitradurga district. Kambli (wool blanket) is weaved largely in the village of Chowluru (Challakere Taluk) and other parts of the district. More than 200 weavers work under this sector, but they need.

Technology up-gradation and design intervention. Under this initiative District Skill Development Office is involved in preparing the proposal for upgrading the skills to the 100 weavers in the district.

Activity-10: Nanhi Kali Project

Molakalmuru taluk in chitradurga district, where huge people migrate to other cities for livelihood purpose because of drought in the region. Maximum people migrate to the Chikkamagaluru for the coffee plantation work, due to which the girl Childs are forced to discontinue their basic education. District Skill Development Office, Zilla panchayath office are collaborating with Naandi Foundation to implement Nanhi Kali Project. In this project the school children are provided with the tablets & school kit (school bag, & stationery). Every girl in the Nanhi Kali project receives holistic support including:.

- Academic support and access to an adaptive learning software via digital tablets:
- Trained Women Tutors: Nanhi Kali tutors (called Community Associates) are women from local communities who facilitate learning and mentor the Nanhi Kalis through the I sup-committees; each of the committee has their assigned roles and responsibilities. Currently District Skill Development office is monitoring and evaluating the various training partners who had enrolled in the Chief Minister's Kaushalya Karnataka Yojana (CMKKY). But there is need to evaluate the performance of various sub- committees, DSC has come up with an initiative to assign the targets to each committee and it should be achieved by the next review meeting. DSC meeting is going to be conducted once in two months. DSC is in consultation with field experts to chart out a proper mechanism for monitoring & evaluation.

4-Resource and Budget

Sl No	Activity	Addition resources required (YES/NO)	Type of resources required (individual consultant or agency)	Number of resources required	Annual Tentative Budget Required (in INR)
1	Orientation Program	Yes	Consultant	1	5,00,000
2	Creation of DSDP 2022-23	Yes			
3	Placement Drive	Yes			
4	Performance Review	Yes			
5	Strengthening the Institute-Industry Eco-system	Yes	Conducting workshops, meetings, programs etc., Branding and Logistics cost		15,00,000
6	Organizing Entrepreneurship Development Programs (EDPs)	Yes	CEDOK	CEDOK Trainer	5,00,000
7	Awareness on the various Schemes	No	DSC will be planning accordingly coordination of consultant		2,00,0 00
8	Interaction for the Professionals and regular Aptitude test	No	DSC will be planning accordingly coordination of consultant		2,00,0 00
9	Creating a well-balanced social category pool:	No	DSC will be planning accordingly coordination of consultant		2,00,0 00
	Total				**31,00,000**
