# Background

## About DSDP

Ministry of Skill Development & Entrepreneurship (MSDE) developed District Skill Development Plan (DSDP) tool kit to develop DSDP at district level. Karnataka Skill Development Corporation (KSDC) is focusing on Improved Quality and Market Relevance of Skill Development Programmes across the districts of the state. KSDC, Project Management Team (PMT) is working on the District Skill Development Plan. PMT collected data for District Skill Development Plan.

On the 'SANKALP' Portal, captured the details on District Overview, As Is Schemes, As-Is Trainer Data, As-Is ITI Trade Data, As-Is TC Information, As-Is Agri and Trainee Analysis. It helped in developing District Skill Matrix. District skill matrix is the tool to measure the skill training capacity and process maturity of the district w.r.t Technical and Vocational Training (TVET). The district skill matrix has been designed to be in sync with the State Improvement Grant (SIG) Matrix and is structured around the three components listed below

Component 1 – Institutional Strengthening

Component 2 – Enhancing Market Relevance and QualityComponent 3 – Inclusion and Access

# District Skill Committees (DSCs)

Since the District Skill Committees (DSCs) are mandated to do planning and skill training they need assistance and guidance in the form of a standard framework. For example, most of the districts across the country have DSCs, but are called with different names such as District Skill Development Committee, District Skill Development Authority etc. The members of these committees are District administration officials from the various departments like Agriculture, Industrial Training & Employment, District Lead bank, District Industries Centre, Fisheries, Horticulture, Rural Development &Panchayat Raj, Textiles etc. Members from industry and civil society organizations can also be co-opted under DSC.

District Skill committee is formed in Raichur district and the committee is engaging in (i) Planning, (ii) Mobilisation and Counselling, (iii)Industry engagement & Entrepreneurship, (iv) Monitoring & Evaluation and MIS and (v) other Support Functions. There are 16 members from different line departments are the members of the DSC and the committee chairperson is Deputy Commissioner of the district.

All the eight committees have been formed in Raichur district with all the requisite members appointed as per the requirement of DSC Skill Book Sub-committees are formed which can take up specific set of activities and projects. Some of the sub committees that the DSC is given below.

**Objectives**:

The objectives of adoption and usage of DSDP are as follows

- To understand the Skill ecosystem of Raichur district
- To create Institutional Mechanism for designing, implementation, M&E of skill development programmes and assign roles and responsibilities to streamline the process for achievement of desirable outcomes.
- To create convergence of skill development programmes to avoid the duplicity in the implementation at the district level and better utilisation of the financial resources
- To understand the type, nature and coverage of the skill development activities implemented by the other departments apart from State Skill Development Mission (SSDM)
- To understand the capacity, competence and formal recognition of existing trainers in the district
- To understand the current capacity of training partners across the variety of sectors and job roles and examine the status of adoption of NSQF framework
- To understand the current role and capacity of primary sector in the economy of the district
- To understand the coverage of marginalised communities in the demand sector and job roles, placement of the candidates, average remuneration, etc.
- To understand the progress of the skill development activities within the district against the three major components

  (a) Institutional Strengthening at the District Levels for Planning, Delivering, and Monitoring of Skill Development Programmes

  (b) Improved Quality and Market Relevance of Skill Development Programs

  (c) Improved Access and Completion of Skill Training for Women and Other Disadvantaged Groups.

- To understand the demand and perspective of the industry in terms of expected recruitment, job roles, skill gap, quality of training, incentivization of skill workforce etc.
- To understand the gap between supply side and demand side for design and improvement of current policies and procedures.
- To create a holistic annual action plan with the defined outcomes based on the gaps identified during the study

## Objective of Annual Work Plan

The objective of the annual work plan for skill development is to outline a structured and comprehensive approach to enhancing the skill levels of individuals in the district. This includes identifying and addressing the demand for skilled personnel, ensuring effective enrolment and counselling of trainees, and facilitating training and development initiatives. The specific objectivesare as follows:

- To conduct thorough assessments to identify the current and future skill requirements of thelocal job market.
- To align training programs with the needs of industries and employers in the district.
- To develop strategies to increase awareness and enrolment in skill development programs.
- To ensure equal access to training opportunities for all segments of the population, includingmarginalized groups.
- To implement high-quality training programs those are aligned with national and international standards.
- To provide continuous professional development for trainers and educators to ensure theyare equipped with the latest skills and knowledge.
- To Foster collaborations with local businesses, industries, and educational institutions tocreate training programs that meet industry standards and requirements.
- To facilitate apprenticeships, internships, and on-the-job training opportunities.
- To encourage and support entrepreneurship among trainees by providing relevant training,mentoring, and access to resources.
- To develop programs that foster innovation and the creation of new businesses.
- To offer comprehensive career counselling services to help trainees make informed careerchoices.
- To develop robust job placement services to connect trained individuals with suitable employment opportunities.
- To establish a system for monitoring and evaluating the effectiveness of skill developmentprograms.
- To Use data and feedback to continuously improve program offerings and delivery.
- To ensure efficient use of financial, human, and physical resources to maximize the impactof skill development initiatives.
- To develop a sustainable funding model to support ongoing and future skill developmentactivities.

By achieving these objectives, the annual work plan aims to create a skilled workforce that meets the needs of the local economy, enhances employability, and supports the overall socio-economic development of the district.

There is significant population in the SC and ST whose skill training also plays an important role in the overall development of the communities.

## Gap Analysis – Key Findings

As part of our commitment to enhancing skill development within the district, a comprehensive gap analysis was conducted by the District Skill Committee. The findings have been systematically inserted into the SANKALP portal. The key insights are as follows:

Key Findings & Recommendations

**1. Demand Supply Gap in Manufacturing & Service Sector**

- **Manufacturing:** The manufacturing sector is facing a gap in skilled labour, especially inprecision engineering, machine operation, and quality control.
- **Healthcare:** A critical need for trained healthcare professionals, including nurses, medicaltechnicians, and healthcare support staff, has been identified.
- **Construction:** There is a high demand for skilled workers in the construction

industry,including electricians, plumbers, and masons.

| S. No. | Sector | Trade | Incremental Capacity Needed |
|---|---|---|---|
| 1 | Automotive | Sale Executive | 300 |
| 2 | Automotive | Technician | |
| 2 | Logistic | Picker | 150 |
| 3 | Beauty & Goods | Beautician | 150 |
| 4 | Apparel Made Ups Home Furnishing | Sewing Machine Operator | 500 |
| 5 | Capital Goods | Officer Assistant | 300 |
| 6 | IT ITES | Domestic Data entry Operator | 400 |
| 8 | Capital Goods | Assistant Manual Metal Arc Welding/ Shielded Metal Arc Welding Welder | 250 |
| 9 | Healthcare | Medical Equipment Technician (Basic Clinical Equipment) | 250 |
| 10 | Healthcare | Front Line Health Worker | 500 |
| 11 | Construction | Assistant Electrician | 600 |
| 12 | Construction | Mason General | 500 |
| 13 | Construction | Plumber | 300 |
| 14 | BFSI | Marketing Executive | 300 |

**2. Skill Gaps – Primary Sector**

The primary sector, including agriculture, forestry, fishing, and mining, faces significant skill gaps due to limited access to modern training, rapid technological advancements, and insufficient infrastructure. These gaps lead to reduced productivity, economic losses, and environmental harm. Addressing these gaps through targeted training programs, supportive policies, and technology integration is essential for sustainable growth and efficiency.

**3. Geographical Coverage Gaps**

Limited digital connectivity in rural areas restricts access to online training resources and E-learning platforms. Language barriers can prevent effective learning, especially in regions where training materials are not available in the local language. Socioeconomic factors such as poverty and lack of awareness about available training programs further exacerbate the geographical skill gap. Moreover, migration trends often see skilled individuals moving to urban centres, leaving rural areas with a diminished skilled workforce

- **Blocks where Training Centres Needed**: Raichur, Manvi, Sirwar, Devadurga, Maski, Lingasuguru and Sindhanur.

- **New Trades Needed:**

| S. No | Sector | Trade | S. No | Sector | Trade |
|---|---|---|---|---|---|
| 1 | Agriculture | Mango Grower | 11 | Capital Goods | Tool & Die Maker |
| 2 | | Medicinal Plant Grower | 12 | Electronics & Hardware | Multi Tasking Technician-Electrical |

| 9 | | Microfinance Executive | 20 | Textile & Handlooms | Power Loom Operator |
| 10 | | Mutual Fund Agent | 21 | | Hand Spinning Operator |

## 4. Inclusion Gaps

Certain demographics, including women, people with disabilities, and marginalized communities, often face barriers to accessing skill development programs. These groups may encounter cultural and social biases that limit their participation. Additionally, training programs may be tailored to accommodate their specific needs, according to enrolment and completion rates.

### Strategies and Priorities based on SWOT and other inputs

- Long term Technical Training Institutions can be explored to be part of Short-Term Training Centres. Many of the private ITI's, Polytechnics, Degree colleges can be encouraged to take up Employment oriented short-term programs
- District having a well irrigated land has the yield less than State and national average youth need to be motivated towards more of Agricultural related skills like Dairy farming, Organic Farming, etc related skills.
- With the Tourist places being abundant in the district more youth to be trained in Tourism and Hospitality sector as there are no related skill training centres at present
- Only 4 Blocks/Taluks have small number of Short-Term Training Centres for the youth population in the district. More Training Centres to be opened based on the demand of requirements of the local and state level employment. As a start at least three training centres in each of the blocks have to be started in priority sectors like Banking, retail, logistics and Hospitality
- Training of trainers in all the sectors and trades have to be organised and qualified Trainer for Skill Development Institutions should be mandatory

- Counselling and Mobilisation has to be strengthened to include more of SC, ST, Women and minorities population of the district
- Many of the native skills like handloom are on the verge of extinct and should be encourage by opening up more and more Native skills related training centre near the vicinity of the native skill industry
- Reach out campaign should be arranged to industry and expose them to the process of Skill Training to appreciate the competency gained by the skilled manpower to make them understand that the skilled manpower should be paid higher wages than the minimum wage.
- Increase the number of the Primary Sector Training institutions to maximise the yield of the agriculture produce. Post Harvesting and Food Preservation is also other skills which the youth have to be trained.
- Well trained youth in different sectors like Hospitality, Retail, Banking and automotive sector helps in making the district grow as a commercial hub as its in the Bengaluru – Mysore highway
- Trained manpower tends to migrate either to Mysore or Bengaluru or elsewhere as the employment opportunities are less. So, to overcome this and more Primary sector training institutions could be setup with technology orientation to attract the youth back to their own irrigated land.

# Annual Work Plan

## Objective

The major objectives of the District Skill Development Plan are

To provide convergence platform among skilling stakeholders to standardize skilling, promote maximum utilization of resource under common skilling norms in the state

To conduct workshops, capacity building and awareness programmes to promote the skill development programmes in the district

To Study the demand and supply in district and implementing and monitoring such job roles quality training

- Develop robust skill plans, monitoring and evaluation enable MIS system covering all skilling activates align with requirement of the district

## Key Activities

### 1. Conduct a District-Wide Skill Demand Assessment

❖ Objective:

Identify the current and future demand for skilled personnel in various sectors within

the district

❖ Activities:

- ❖ Survey local businesses and industries.
- ❖ Analyze employment trends and labour market data.
- ❖ Conduct focus group discussions with industry leaders and stakeholders.
