DISTRICT SKILL DEVELOPMENT PLAN

2024-25

RAMANAGARA

Prepared By

District Skill Mission
Ramanagara

ಕರ್ನಾಟಕ ಸರ್ಕಾರ

To,

The Additional Secretary,
Ministry Of Skill Development and Entrepreneurship,
Government of India,
Room No.322, 3rd Floor, Shram Shakti Bhawan,
Rafi Marg, NEW DELHI - 110001

Dear Sir/Madam,

Subject: Submission of District Skill Development Plan (DSDP) Plan 2024-25 under SANKALP programme.

Ref: 1) No:76/Secy(MSDE)/2024 Dated 17.05.2024
2) No:KSDC/SANKALP/DSDP/CR-05/2024-25 Dated 13.06.2024.

With reference to the above, we are submitting here with **District Skill Development Plan 2024-25** under SANKALP programme which is enclosed here with for consideration and approval.

Thanking You,

Yours faithfully,

(Shri Yeshwanth V Gurukar, IAS)
Deputy Commissioner & District Magistrate
Ramanagara, Karnataka

DECLARATION

"This is to confirm that the plan has been prepared by the district and all data, information provided has been taken from the credible sources and referenced in the proposal".

(Pushpalatha M C)

District Skill Development Officer

1.Background

About DSDP Toolkit The Ministry of Skill Development & Entrepreneurship (MSDE) developed the DSDP tool kit to develop DSDP at the district level. Karnataka Skill Development Corporation (KSDC) is focusing on Improved Quality and Market Relevance of Skill Development Programs across the districts of the state. The District Skill Development plan is created at the District Skill Development office with support from KSDC, GT-PMT, District Counsellor.

The format is prepared based on the District Skill Development Plans (DSDP). There are in total 12 sheets across the 4A's: As-Is Scenario, Aggregate Demand, Analyze the Gap, & Annual Work Plan. In section I of as scenario, captured the details on District Overview, As Is Schemes, As-Is Trainer Data, As-Is ITI Trade Data, As-Is TC Information, As-Is Agri, Trainee Analysis, and Cost of Training. It helped in developing the District Skill Matrix. District skill matrix is the tool to measure the skill training capacity and process maturity of the district w.r.t Technical and Vocational Training (TVET). The district skill matrix has been designed to be in sync with the State Improvement Grant (SIG) Matrix and is structured around the three components listed below.

Component 1 – Institutional Strengthening
Component 2 – Enhancing Market Relevance and Quality
Component 3 – Inclusion and Access

District Skill Committees (DSCs) Since the District Skill Committees (DSCs) are mandated to do planning and skill training they need assistance and guidance in the form of a standard framework. For example, most of the districts across the country have DSCs, but are called with different names such as District Skill Development Committee, District Skill Development Authority etc. The members of these committees are District administration officials like District Employment officer, Fisheries officer, Agriculture officer, Panchayati Raj officer, Manager Lead bank, General Manager District Industries Centre etc. Members from industry and civil society organizations can also be co-opted under DSC. District Skill committee is formed in Ramanagara district, and the committee is engaging in (i) Planning, (ii) Mobilization and Counselling, (iii)Industry engagement & Entrepreneurship, (iv) Monitoring & Evaluation and MIS and (v) other Support Functions. There are 13 members from different line departments who are the members of the DSC, and the committee chairperson is Deputy Commissioner of the district.

2.District Profile

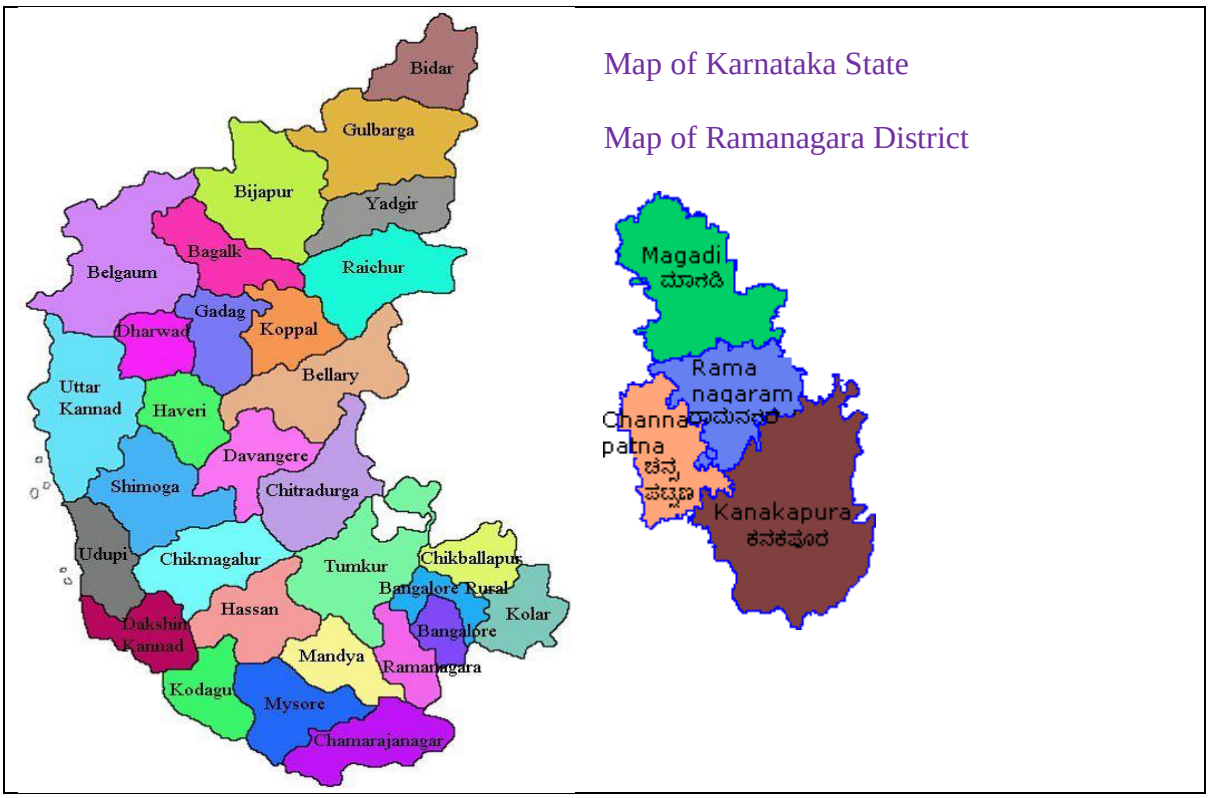

1.1 District Overview

Ramanagara district, is one of the 31 districts of Karnataka state in southern India. Ramanagara City is the administrative headquarters of this district. The district is part of Bengaluru Division. Ramanagara district was carved out of the erstwhile Bengaluru Rural district on 23 August 2007, comprising Ramanagara, Channa Patna, Kanakapura,Harohalli and Magadi taluks. Ramanagara district is positioned about 50 km from Bangalore on the Bangalore-Mysore National Highway 275. The average rainfall is 622.80 meters above sea level and 931.58 mm annually.

Ramanagara is well known for its sericulture and is nicknamed **Silk Town** and **Silk City**. The silk produced in this region forms the input for the famous Mysore Silk. Ramanagara is the largest market for silk cocoons in Asia. 50 tons of cocoon a day arrive at the town. Ramanagara has extensive granite sites.

Channapattna, in Ramanagara district is famous for traditional toys and cultural activities and is the largest market in Asia.

2.1 Human Resource

The Census has defined a worker as a person who has participated in any economically productive activity with or without compensation or profit. A reference period to define a person as the worker was one year preceding the enumeration date. Of the total population, 49.09% are workers. 62.84% of the workers are male, and 35.00% are females (work participation rate). Of the total workers, 86.34 percent are main workers, and 13.66 percent are marginal workers.

	Agricultural Labourers	Workers in household	Industry	Other Workers
Ramanagara (%)	39.16	19.2	3.33	38.2
karnataka (%)	23.61	25.67	3.28	47.44

2.2.Population

The majority of the population of Ramanagara district (71 percent) lives in rural areas. Out of the total population, 31.56 percent of the population was in the working-age group (15 to 64 years), and 24.5% population was working (64.8 percent male and 35.2 percent female). The average literacy rate of the Ramanagara district stands 69.2 percent, with Male: 76.92 percent, and Female: 61.30 percent.

Attributes	Census-2011
Total Households	2,59,837
Total Deprived HH	104517
Total Population	10,85,275
Total Male Population	5,48,008
Total Female Population	5,34,628
Total Population - Scheduled Castes	2,03,819
Male - Scheduled Castes	1,02,612
Female - Scheduled Castes	1,01,207
Total Scheduled Tribes	22,946

2.3.Literacy

The overall literacy rate of Ramanagara district is 69.22 percent while the male & female literacy rate is 76.76 and 61.5 percent respectively. Ramanagara district stands at 22nd position in the literacy ratio in the Karnataka state according to the 2011 census.

Attributes (Acc. Census 2011)	Total	Male	Female
Literate population – All	6,74,758	3,78,461	2,96,297
Literacy rate - All	69.22	76.76	61.50
Literacy rate - SC	18.83	18.72	18.93
Literacy rate - ST	2.12	2.12	2.12

Source: Census 2011

4.Economic Profile

The economy is mainly agrarian, and the district is known for silk, milk, fruits and vegetables. Ramanagara town is popularly known as silk city. Nearly 75% of the population lives in rural areas, which is higher than the State average of 61%. Sericulture and dairy are the main economic activities. Being close to Bengaluru, the district is attracting a good number of investments in the industrial sector, especially auto, auto components and garments sector.

The Gross District Domestic Product (GDDP) of the district for the year 2022-23is 33799 crs, and has ranked 22nd position and the Per capita Income of the district is ₹249998 that gives district the 7th position in the state.

Contribution(%)	Primary	Secondary	Tertiary
Ramanagara	14.4	34.1	51.4
To the State GDP	2.5%	2.4%	1.2%

Gross District Domestic Product (GDDP) of the district for the year 2022-23

3.1 Agriculture Profile:

Agriculture: Of the total area of 3,559 sq. km. in the district, about 47.5 per cent is the net sown area (cultivated land). Agriculture is mainly dominated by cultivation of ragi, which occupies 44 per cent of the total cropped area.

Crop	Crop Area District (Hectare)	District Crop Production (Tons)	District Yield
Ragi	50308	84621	1.790849673

Ramanagara devotes over 40% of its land for cultivation. Major Crops includes Mango, Banana, Sapota, Guava, Grapes, Tomato, Potato, Beans, Chilies, Brinjal, Cabbage, Cauliflower, Gourds. Floriculture: Rose, Jasmine, Marigold, Chrysanthemum. Major production of mangoes and bananas and the availability of medicinal plants at Savana Durga, Magadi administrative division forms an important part of the district's agriculture profile.

Critical Intervention: Ramanagara is famous for its silk markets. However, uncertainty in cocoon prices has created hardships for farmers. Price stabilisation and better price realisation in the cocoon market by encouraging complete online trading etc. needs to be done on priority.

Being closer to Bengaluru, Ramanagara has huge opportunities in agriculture especially fruits and vegetables, and millets. Farming needs to be made an attractive proposition through strengthening of Farmer Producer Organisations. Setting up vegetable and fruit processing units at micro level can enhance farmers income.

The **Krishi Vigyan Kendra (KVK) at Chandurayanahalli,** Magadi taluk provides extension support to the farmers, which helps them in improving productivity and realizing better yield through research, training and field demonstrations. Agriculture Department provides extension support through 12 Raitha Samparka Kendras. 4 Custom Hire Centres (CHCs) on PPP model are there in the district. Ramanagara being close to Bengaluru has a huge opportunity in production and value addition of

millets and minor millets to meet the growing needs of health-conscious city folk. There are 8 FPOs promoted by NABARD, 5 by Agriculture Department, 7 by Horticulture Department and 1 by Sericulture Department in the district.

Krishi Vignan Kendra, Magadi

3.2.Industry Profile:

Ramanagara district is mainly agrarian. However, many industries have also come up, mainly due to district's proximity to Bengaluru.

The region has presence of 22 large industries with an investment of Rs. 5,474.79 crore. The district has 7 industrial areas and 5 industrial estates catering to the needs of the region. It forms a peri-urban area contributing to Bangalore urban' s industrial and service sectors. The state government has proposed an integrated textile park in the city. Two new industrial parks along with an industrial area for printing and textiles have been proposed to augment the sector. Ramanagara district has already identified land bank of 13,820 acres and 12,200 acres for the growth of industrial sector.

• Textiles, handicrafts, and toys sector - The district is an emerging hub for the garment industry. The state government has proposed a Textile Park and allotted 125 acres of land in Harisandra village. Stone-carving and Pottery clusters are present in Ramanagara. Wood carving and toy clusters of Channapatna are unique in the country.

• Sericulture - Ramanagara houses Asia's second-largest cocoon market. It is a traditional district for sericulture. Ramanagara district is earmarked to be a textile hub with Asia's largest cocoon market housed here.

• Auto sector -Automotive Multinational Companies like Toyota Kirloskar , Robert Bosch Tata Autocomp , NxtGenDatacenter systems have setup operations in the district. Toyota has set up a automobiles manufacturing plant that serves as a source of employment for many people in the region. The district is also proposed as an automotive zone under the government's development plan.

Industrial Area	Area in acres
Bidadi	1498
Harohalli I & II/III	1169/1366
Industrial Estate	**Numbers**
Total Industrial Estate	6

Source: KSSIDC and District Industrial Profile, Ramanagara

Handicrafts:

ChannapatnaToys (wooden)

- Channapatna known as "Gombegala Ooru" is famous for lacquerware and wooden toys.
- Workforce: - 1200 families with 5600 artisans with the 254 home units
- Registered as Geographical Indication product in 2005-06

- The range of products include vintage cars, trains, dolls, pen stands, key chains to mention a few.

3.3.Supporting Infrastructure

Railways:

Railways Infrastructure in the district has great coverage and connectivity to Bengaluru and Mysuru cities, and other locations across the state. Electrification has been completed and operates in double line from Mysore Junction to Bangalore city.

Roadways:

1. NH 275 (Bengaluru- Mangaluru)- also commonly referred as Bengaluru - Mysuru 6 lane expressway, a national highway of 119 kms and NH 209 (connecting Dindigul in Tamil Nadu) passes through the district.
2. Bengaluru Ring Road (STRR) The Bengaluru Ring Road is being developed at a tentative cost of Rs. 15,000 Cr. The project has 240 km in Karnataka and 45 km in Tamil Nadu. Under this project, which is a part of the Bharatmala Pariyojana, NHAI will implement the entire STRR around Bengaluru. This Ring Road stretch will connect Hosur, Anekal, Kanakapura, Ramanagara, Magadi, Dabaspet, Doddaballapura, Devanahalli and Hoskote.

Airport:

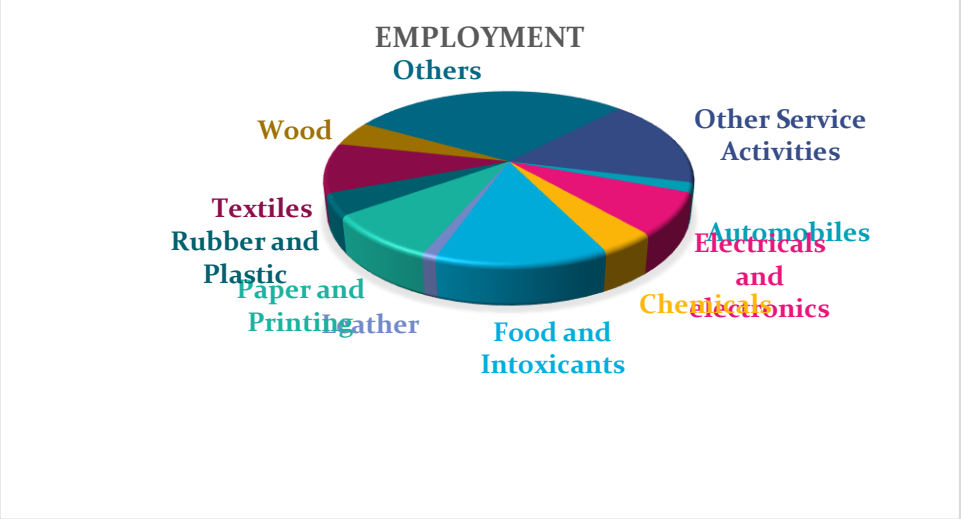

Bengaluru airport is located 89 km away from Ramanagara. Other airports located nearby to the district are Mysuru and Mangalore.

Medical Resources:

The district has around 68 Allopathic hospitals, 62 Primary health centers and 4 community health centers and 1 District Hospital at Ramanagara.

New District Hospital inaugurated on March 2, 2023

5.Employment Scenario

Sector-wise number of units and employees

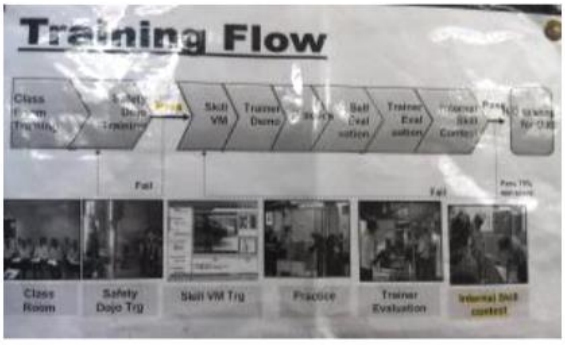

Sectors	male	female
Automobiles	869	371
Electricals and electronics	3892	1212
Chemicals	2035	782
Food and Intoxicants	6310	2658
Leather	525	218
Paper and Printing	4285	1372
Rubber and Plastic	1997	389
Wood	2323	525
Others	14367	5276
Other Service Activities	8236	3557
Total	49423	18366

Source : District Statistical Report 2022-23

Employment Potential in the district:

The district industrial profile identifies the following sectors of the economy, which are expected to grow at a good rate, and provide ample employment opportunities (Ministry of MSME, 2016). There is good potential for Sericulture (silkworm rearing), and the textile sector (particularly silk-based due to the presence of local silkworm rearing), and a market for other silk products. The auto sector is also growing at a good rate, employing many individuals in the district (with many automotive companies and a manufacturing plant set up by Toyota).

Toyota Gurukul in Ramanagara district

Toyota Kirloskar has an in-house training center for its employees – called the 'Gurukul', where training is provided to all those who join the company. Module based training is provided for the entire assembly line. The Gurukul is one of its kind training centre. Since, the training needs are met internally, new training institutes are not required in the district. However, there is much to be desired from the ITI pass outs and the engineering graduates which the company hires. The quality of these has scope for improvement.

6.Migration

Bengaluru, a metropolitan city in such proximity to Ramanagara (only 50 km away), means that inter-district commute happens on a daily basis. As of 2013, as per NSDC report, around 6000 commuters travel from Ramanagara to Bengaluru for work. Apart from the inter-district movement, the presence of many industries (such

as those of the automobile sector) in the district means that there will also be intra-district movement both rural-urban and urban-rural. This is because of the different industrial areas within the district.

A report by Ganaraja (2021) in the Indian Journal of Economics and Development highlights, using the 2011 census data, that around 38,536 and 32,226 people were rural-urban and urban-rural migrants, respectively. However, these numbers include those who commute daily and those who might have migrated permanently.

A report by the NSDC (2013) also pointed out that individuals in Ramanagara wished to migrate to Bangalore hoping for better 'white-collar' jobs as well as better living standards, as most of the work available in local industries are considered to be 'blue-collar' and did not seem as attractive as the former option. Because of this, to fill in the gap between demand and supply, migrant labourers (from other states) work "blue-collar" jobs which require manual labour.

Migration Details of the district

SL No	Migration Parameter	Quantity	Reason
1	Total Outward Migration	415117	Better livelihood and Education
2	Intra District	2,78,109	
3	Inter District	1,23,001	
4	Intra State	4,01,110	
5	Inter State	13,588	
6	Outside India	416	

Source: Census 2011

7.Education and the Training Infrastructure

The district has 84 PU colleges, 12 Degree colleges, 26 ITI colleges, 6 polytechnic colleges and 6 engineering colleges. Some notable institutions included in the numbers mentioned above are Dr HLT College of Pharmacy, M.H College of Law, M.H school of Nursing, Jain Engineering Institute and Ghousia Engineering College and Govt Engg College and 2 GTTC s are operational in the district.

Education Institution	Value
Primary Schools	1384
Secondary Schools	301
High Schools	89
Intermediate Colleges	84
Graduation & Post Graduation	14
Polytechnics/ITI Colleges	32

Source: District At a Glance -2022-23 Ramanagara

Vocational Education in the districts: For vocational education/training, the district has 26 ITIs, of which four are government ITIs, four are government-aided private ITIs, and the rest are private ITIs. According to an NSDC report (2013), the ITIs had a student drop-out rate of around 20%, which is not a very pleasant figure and has to be addressed. However, the silver lining is that due to many companies such as Coca-Cola and Toyota in Ramanagara and companies close by in Bangalore, around 40% of the ITI pass-outs were employed in Ramanagara, and around 50% of the remaining were able to find jobs in Bangalore.

Training Infrastructure Profile:

CMKKY: Chief Minister's Kaushalya Karnataka Yojane is the flagship training scheme of SDEL. It provides a mechanism for trainings to be provided by Vocational Training Providers (TP) through the Training Centres (TC) under the Government, Private Sector and Industrial establishments. The Training Providers (TP) and the Training Centres (TC and/or MTC) should be registered online with the Department and should be accredited by prescribed Agency/ Body/ Committee.

Total Training Centres CMKKY: 09

Trades offered in Accredited Training centres under CMKKY
Data Entry Operator
Field Technician
Sewing Machine Operator
Self-Employment Tailor
CNC Operator
Beauty Therapy
Junior Software Developer

8.SWOT Analysis

Based on the diagnostics of Ramanagara district, we have prepared a SWOT (Strengths, Weaknesses, Opportunities and Threats) analysis.

Strengths		Weaknesses	
1	Apparel Industry	1	Very few certified trainers in skill training
2	Sericulture Base	2	Low awareness among the youth about skill training
3	World famous toys and handicrafts market in Channapatna	3	Lack of coordination between institutional setup
4	Well connected to Bangalore and Mysore by rail and road	4	Traditional institutions not providing up-skilling trainings
5	Developed Industrial Hub	5	No developments in silk reeling technology till date
Opportunities		**Threats**	
1	Can be developed as major commercial center and a center of silk industry	1	Youth attracted to Bengaluru
2	Proposed SEZ Textile coming up	2	Lack of skilled manpower for the existing industries
3	Large number of SSI in Manufacturing	3	Fertile land used for Industrial development
4	Week-end tourism development potential	4	Preference for white collar jobs as compared to blue collar jobs
5	Bengaluru Mysore 10 lane express highway	5	Competition from Chineese silk.

Source: DSDP Tool kit Ramanagara 2022-23, Ramanagara

Action Plan and Recommendations by the DSC with respect to SWOT Analysis:

- Long term Technical Training Institutions can be explored to be part of Short-Term Training Centres. Many of the private ITI's, Polytechnics, Degree colleges can be encouraged to take up Employment oriented short-term programs.
- District is having well irrigated land but the yield is less than State and national average. Youths need to be motivated towards more of Agricultural related skills like Dairy farming, Organic Farming, etc.

- With the Tourist places being abundant in the district more youths to be trained in Tourism and Hospitality sector as there are no related skill training centres at present
- Training of trainers in all the sectors and trades have to be organised and qualified Trainer for Skill Development Institutions should be mandatory.
- Counselling and Mobilisation has to be strengthened to include more of SC, ST, Women and minorities population of the district.
- Many of the native skills like handloom are on the verge of extinct and should be encouraged by opening more and more native skill related training centres near the vicinity of the native skill industry.
- Reach out campaign should be arranged to industry and expose them to the process of Skill Training to appreciate the competency gained by the skilled manpower and to make them understand that the skilled manpower should be paid higher wages than the minimum wage.
- Increase the number of Primary Sector Training institutions to maximise the yield of the agriculture produce. Post Harvesting and Food Preservation is also other skills which the youths have to be trained.
- Well trained youths in different sectors like Hospitality, Retail, Banking and automotive sector helps in making the district grow as a commercial hub as it is in the Bengaluru – Mysore highway.
- Trained manpower tends to migrate either to Mysore or Bengaluru or elsewhere as the employment opportunities are less. So, to overcome this, more Primary sector training institutions could be setup with technology orientation to attract the youth back to their own irrigated land.

9.Skill Hub Project

The Skill Hub administrative Project established by the Karnataka Skill Development Corporation (SSDM) at Ramanagara district in the Karnataka State to act as one stop solution with regard to various components such as: Skill Development, Entrepreneurship guidance and Employment information so as to create a conducive atmosphere for aspiring entrepreneurs, strengthening the existing entrepreneurs and to spread the awareness of the various government schemes available for setting up of one's own enterprises.

DEPARTMENTS CONVERGED UNDER SKILL-HUB PROJECT

1. Department for Skill Development and Entrepreneurship
2. Center for Entrepreneurship Development of Karnataka (CEDOK)
3. National Urban Livelihoods Mission (Day-NULM)

4. District Employment Exchange Office (EEO)

Spoken English classes conducted at Skill Hub

"A clear understanding of the GAP between the Aspirations and Demand of industry and a strong desire to bridge this gap is what gave birth to the SKILL-HUB learning"

1. Skill Development: Identification of Training partners and contact details, identification of in-demand job roles, Connect with TPs for skills and language training, Training of Trainers (ToT)

2. For Entrepreneurship: Promotion and Development of micro entrepreneurs, Idea generation, Business management coaching, Entrepreneur round tables are under taken by CEDOK.

3. SHGs creation and Institutional development: NULM along with the SHGs mobilization, looks after the schemes for the welfare of the small and marginal street vendors and building and maintaining the shelter homes for homeless people in the district.

4. For a Job Seeker: they will be provided with the information at the employment office where the demand for different jobs from different companies is given.

10.District Skill Committee

Sl. No.	Designation
1	District Commissioner: Chairman
2	Chief Executive Officer ZP
3	Skill Development Officer
4	Joint Director, DIC
5	Joint Director, Agriculture Dept
6	Executive Engineer, Rural drinking water and sanitation
7	Deputy Director, SWD
8	Deputy Director, Horticulture Dept
9	Deputy Director, Department of Animal Husbandry & Veterinary Services
10	District Officer, OBC
11	District Officer, Minority Affairs
12	Deputy Director, DDPI
13	Deputy Director, PU Ed
14	District Officer, Labor Dept
15	Project Director, DUDC
16	Senior Assistant Director, Fisheries Department
17	Lead bank Manager
18	Commissioner, Ramanagara CMC
19	Commissioner, Channapatna CMC
20	Commissioner, Kanakapura CMC
21	Chief Officer, Magadi TMC
22	Chief Officer, Bidadi TMC
23	Executive Officer, Ramanagara TP
24	Executive Officer, Channaptna TP
25	Executive Officer, Kanakapura TP
26	Executive Officer, Magadi TP
27	President HIA
28	President BIA
29	Director, Canara Bank-RSETI, Harohalli
30	Employment Exchange Officer
31	Chairman, KVK
32	Director, Artisan Training Institute

The district skill committee is formed to impart skill training that is demand-oriented than supply-centric. The District Skill Committees (DSCs) work on job fairs, skill mapping, apprenticeship promotion, monitoring and reviewing of all skilling schemes in the district. The District Skill Committee composition with District Commissioner as Chairman and the rest in the table are as members.

Grand Total	**74626**	**84557**	**98416**	**119799**

Source: GRAAM's Skill gap Report

As per the data in the GRAAM's district's skill gap study report for the year 2021-22, based on the factories and boilers department data, the number of employees were projected up to 2025 and it was found that industries have the absorption capacity of 79 % of the estimated youths available for training. Indicating the better industrialization in the district and a significant employing sector in the district.

Further, a 13-21% year on year incremental change in the industry requirement of employees based on the projection, indicating the potential employment and need of training of youths in the districts during 2022 to 2025. It was also identified that **Auto and auto components, Textiles, Food processing, Electronics and IT hardware and Construction Materials and Building Hardware** comes out to be the top five employing sectors in the districts. These sectors account for nearly 72% of the total industrial employment of the district and remaining 28% of the industry employment is shared by the other remaining sectors in the district.

As per the GRAAM's (Grass Roots Advocacy and Research Movement) district's skill gap study report .

13.Action Plan

Objectives:

The major objectives of the District Skill Development Plan are:

- To provide convergence platform among skilling stakeholders to standardize skilling, promote maximum utilization of resources under common skilling norms in the district.
- To conduct workshops, capacity building and awareness programs in the district.
- To Study the skill demand and supply in the district and to implement and monitor such job roles with quality training.

Activities:

- **Component – 1:** Institutional Strengthening at the District Levels for Planning, Delivering, and Monitoring of Skill Development Programs.

Strengthening, Planning and Monitoring: The Mobilization & Counselling Sub-Committee will be responsible for the proper planning and monitoring at the district level by initiating awareness of the skill development activities.

Feedback Mechanism: The Training Quality Sub-Committee will drive the mechanism for the feedback system across all the on-going trainings at the TCs level in the district on a regular basis. It will be reviewed during the performance review meeting along with the other indicators identified by the District Skill Committee.

- **Component – 2:** Improved Quality and Market Relevance of Skill Development Programs.

Performance Evaluation: The Training Quality Sub-Committee will develop plan and mechanism for capture of students and employer feedback. This committee will be responsible for the assessment of the students and faculty or trainer members to achieve the goal of the mission.

Strengthening the Institute-Industry Eco-system: The Industry Interface Sub-Committee will prepare demand estimation reports for the district by reconcelling macro level estimation and employer survey estimation. Drive the apprenticeship awareness workshops with District Employment Officer, Directorate of Employment and Training, Govt. of Karnataka with the participation from youths, TCs and Industry. Also Organizing job fairs cum mobilization campaign with the participation from TCs, Placement agencies and Industry Partners in coordination with District Employment Officer.

Organizing Entrepreneurship Development Programs (EDPs): The Capacity Building Sub-Committee will conduct Entrepreneurship Development Program with coordination from Centre for Entrepreneurship Development of Karnataka (CEDOK) on monthly basis for aspiring and existing entrepreneurs to start or improve their business.

- **Component – 3:** Inclusion Access and Skill Training for Women and Other Disadvantaged Groups

Women Empowerment: The Capacity Building Sub-Committee will focus on the gender equality in the training profile across all sectors and job roles by meetings or grievance meet at the block level. Taking up the best guidance for the suitable job roles of the various sectors with the proper counseling of the women candidates, the goal can be achieved.

Creating a well-balanced social category pool: The District Skill Development Committee will plan accordingly to maintain the social category balance across all the sectors available at the district. This Committee will direct the TCs to encourage for the training of persons with disabilities (PwD) and Minorities.

Annual Workplan and Budget Requirement:

District Skill Development Plan-2024-25

Generated on: 2024-7-30 15:9:6

State: Karnataka

District: RAMANAGARA
