DISTRICT SKILL DEVELOPMENT PLAN

2024-25

Prepared by

District Skill Mission, Udupi, Karnataka, India

To,
The Chief Secretary,
Ministry of Skill Development and Entrepreneurship,
Government of India
Room No 322, 3rd Floor, Shram Shakthi Bhawan
Rafi Marg, New Delhi- 110001

Dear Sir/Madam,

Subject: Submission of District Skill Development Plan 2024-25 (DSDP)

Reference: 1) D .O No 76/Secy/(MSDE)/2024,dated 17th May 2024
2)KSDC/SANKALP/DSDP/CR_05/2024-25, dated 13th June and 29th July 2024

With Reference to the above, We are submitting herewith "District Skill Development Plan 2024-25 under Sankalp Programme" for consideration please.

Thanking You,

Your faithfully,

Dr Vidya Kumari K, IAS
(Deputy Commissioner, Udupi District)
DEPUTY COMMISIONER
UDUPI DIST.

This is to confirm that plan has been prepared by the district and all data, information provided has been taken from the credible sources and referenced in the proposal

(Sri Pradeep D'Souza)
Secretary,
District Skill Mission,
Udupi, Karnataka

Methodology

This report is prepared in consultation with various stakeholders such as the District Skill Development Department, District Industries Centre, National Rural Livelihood Mission, National Urban Livelihood Mission, Centre for Entrepreneurship Development of Karnataka, District Employment Exchange, Industrial Training Institutes, Polytechnics, Youth Employability Services - Kendra, Government Tool Room and Training Centre, Rural Self Employment Training Institute, Chamber of Commerce and Industries, Factories Owners Association and others too. With support from Officers of district administration, this report was developed.

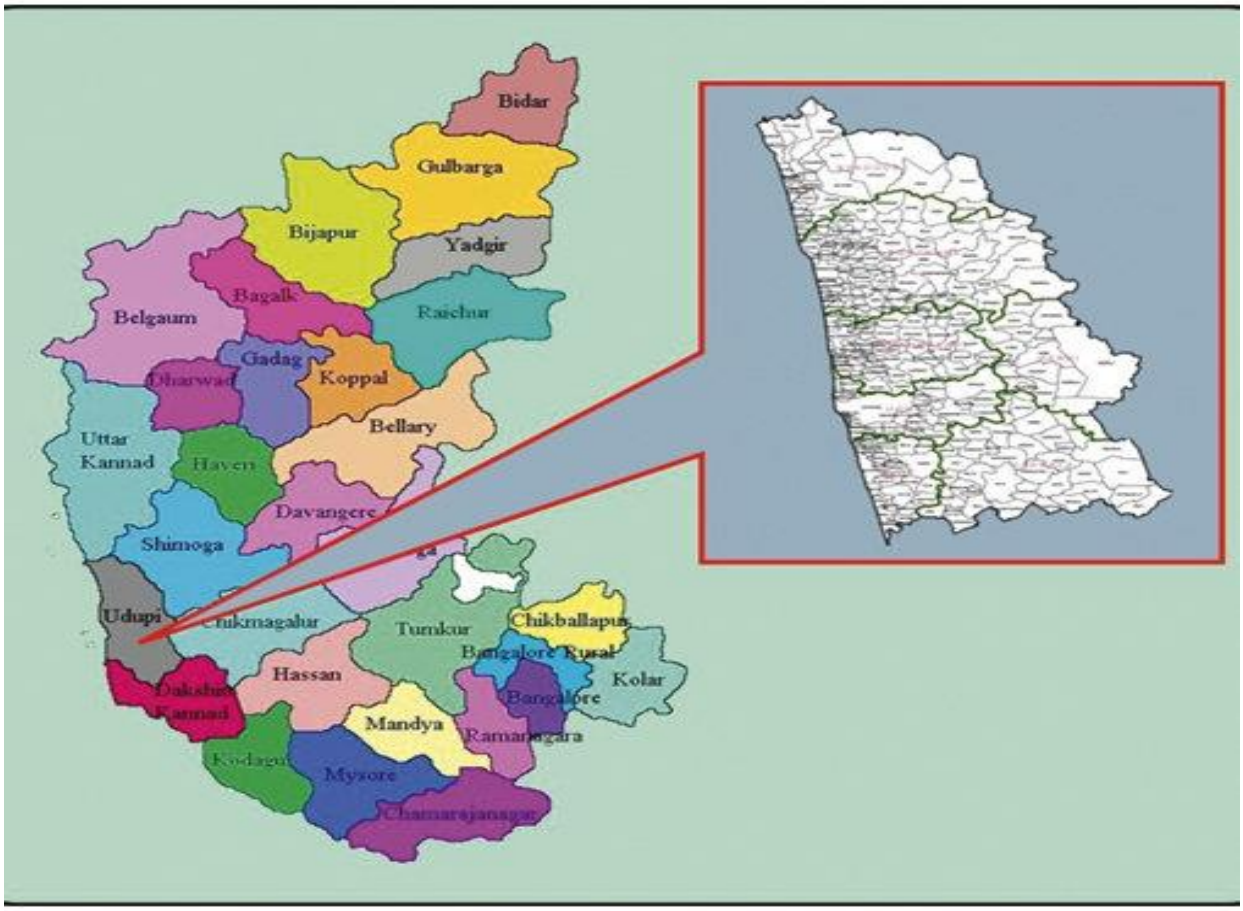

The data projected in this report is taken from the following references.

- Brief Industrial Profile of District, Invest Karnataka Report
- District Wise Skill Gap Study for the State of Karnataka by National Skill Development Corporation (NSDC)
- Karnataka State Economic Survey Report – 2022-23
- DSDP Templates – Data Collected from District Counsellor
- Udupi District At A Glance 2022-23
- Discussions with students, skill aspirants, VTP's, Trainers, resource persons and others.

The methodology followed to prepare this report was mainly via data collection and sampling based on field-based research.

Section1 As- is analysis

District Profile

District Overview

Udupi district (also Udipi or Odipu district) is an administrative subdivision in the Karnataka state of India, with the district headquarters in the city of Udupi. It is situated in the Canara coastal region, there are seven taluks, 267 villages and 6 towns in Udupi district. The three northern tehsils of Udupi, Kundapura and Karkala, were partitioned from Dakshina Kannada district (South Canara) to form Udupi district on 25 August 1997. Moodabidri was officially declared as new taluk, separated from Karkala with effect from 11 January 2018.

In February 2018, the district was split to into 3 more taluks, with Byndoor being carved out of Kundapur taluk and the Udupi taluk being split into three parts. Along with the initial Udupi taluk, Kaup, Brahmavar and Hebri were created.

Udupi is the administrative headquarters of Udupi District, and one of the fastest growing cities in Karnataka. Udupi is one of the top tourist attractions in Karnataka and has various educational institutions. It is notable for the Krishna Temple and is also known as the temple city.[3] It also lends its name to the popular Udupi cuisine, is also known as Lord Parashurama Kshetra, and is famous for Kanakana kindi. A centre of pilgrimage, Udupi is known as Rajata Peetha and Shivalli (Shivabelle).

Manipal, a suburb of Udupi, is home to the headquarters of Syndicate Bank. It is renowned as an education and medical hub. Kasturba Medical College and MIT (Manipal Institute of Technology) are situated here.

Project on One District One Skill (ODOS)

The state skill development mission in an ode to revive traditional art and craft skills in the district conceptualised the idea of One District One Skill (ODOS). Bamboo and pottery product has been identified as the ODOS for the District

To make this venture aspirational, the training program has been implemented in the Udupi district's Padukone village. In this project a total of 30 Koraga community candidates has been trained, sensitized, and provided with technological transformation and market linkage from 02/01/2024 to 01/02/2024(30 days) from 10AM to 5PM. The Rajyothsava award winning Koraga community Basket weaver Mr Babu and Mrs Deepa Trained these candidates.

Total of 30 students has been trained in various kinds of basket making and bamboo crafts by experts for 30 days. It has provided expertise knowledge, market linkage and livelihood for trainees.

This Project helped candidates to learn the ancestral heritage and skills of handicrafts and understand the impact and inheritance of traditional culture in the modern social market. Students learn to weave bamboo baskets step by step from craftsmen, and finally completed their own craft and creativity. This allowed students to understand the clever use of the surrounding resources and to appreciate the importance of the balanced development of human and natural resources.

District SWOT Profile

Table 14: Details of SWOT Analysis of the district

Strengths		**Weaknesses**	
S .No	**Strengths of the District**	**S. No**	**Weaknesses of the District**
1	Banking Sector	1	Very few certified trainers in skill training
2	Fisheries	2	Graduated people are not Enter the Industries Works
3	Good number of Higher Technical institutions	3	Not doing Overtime Work
Opportunities		**Threats**	
S. No	**Opportunities for the District**	**S. No**	**Threats for the District**
1	Management Skill	1	Timings
2	Large number of SSI in Manufacturing	2	Weather
3	Flourishing Tourism and Hospitality Industry	3	Lack of skilled manpower discourages new industry development

Section 2: Demand Aggregate

Industry profile

1. Agri and Food Industries:

i) Lead in cashew production.

ii) Exporter of jasmine flowers, grown in the area of katpady and palli.

iii) Fishing industry has a huge potential in the district

2. IT Industry:

i) Presence of computer software companies like Robsoft Technologies & Source Hub India Pvt. Ltd.,

3. Tourism:

i) Well known for its scenic beauty,piligrim centers, traditions and cultural heritage

4. Banking:

i) Strong Banking sector, major players like Vijaya Bank, Canara Bank, Corporation Bank and Syndicate Bank.

ii) Presence of printing press in the district (Manipal) performing high security printing like cheques, share certificates etc

5. **Other Industries:**

i)Garments and Textiles

ii)Metal Works Clusters in Udupi – Metalware activity and Metal images classic activity

iii)Ship Building

Youth Aspirations

In the process of identifying the growth engines for the Udupi district, discussion with a youth group in the district to understand their aspirations. The key points are summarised below:

- Aspirations of students to migrate to cities like Bengaluru, Pune, Chennai, Mumbai and Hyderabad for a better lifestyle and pay.
- Students aspire to get into government jobs.
- Students take additional computer-based courses along with their regular ITI and diploma training to ensure they are highly marketable in the job market.
- Preferences of trades that are suitable and helpful for their long-term carers.
- Students, who are not able to get admissions to graduate courses, they prefer it is and Diploma/ Vocational courses, etc., ITI/Diploma/Vocation certification helps in obtaining Government and even private jobs. The low fee is an added advantage.
- Students prefer government ITIs to private because of low fees, better infrastructure and adequate facilities, with the introduction of TATA-powered labs.
- Preferred sectors to work in are manufacturing and IT

Section 3: Gap Analysis

Demand Supply Gap in Manufacturing and Service sector

It is clear from the data that there more trainings were conducted in Apparel, Electronics and Hardware, Beauty and Wellness, Healthcare and IT ITES sectors in the district and demand is low for these sectors and job roles like Embroidery Machine Operator, Field Technician, Beauty Therapist, General Duty Assistant and Domestic Data entry Operator. However, the demand and supply are high in Gems and Jewellery, Construction, Food Processing, Banking and Management sectors especially for job roles like Gemstone Processing – Driller, Assistant Bar Bender and Steel Fixer, Convenience Food Maker, Mutual Fund Agent and Office Assistant.

Job roles which are high in supply and high in demand are Junior Software Developer, Electrical Technician, Sales Associate, Accessories and VAS Sales Executive, and General Housekeeper. However, job roles which are low in supply and high in demand are Fashion Designer, Broiler Poultry Farm Worker, Courier Associate, Bar Bender and Steel Fixer and Home Cook.

Trdes which are high in supply but low in demand

#	Sector	Trade
1	Apparel	Embroidery Machine Operator (Zigzag Machine)
2	Electronics and Hardware	Field Technician - Computing and Peripherals
3	Beauty and Wellness	Beauty Therapist
4	Healthcare	General Duty Assistant
5	IT ITES	Domestic Data entry Operator

Trades which are low in supply and low in demand

#	Sector	Trade
1	Gems and Jewellery	Gemstone Processing - Driller
2	Construction	Assistant Bar Bender and Steel Fixer
3	Food Processing	Convenience Food Maker
4	Banking Financial Services and Insurance	Mutual Fund Agent
5	Management, Entrepreneurship and Professional	Office Assistant

Trades which are High in supply and low in demand

#	Sector	Trade
1	IT ITES	Junior Software Developer
2	Electronics and Hardware	Electrical Technician
3	Retail	Sales Associate
4	Automotive	Accessories and VAS Sales Executive
5	Domestic Worker	General Housekeeper

Trades which are high in supply and high in demand

#	Sector	Trade
1	Apparel Made Ups and Home Furnishing	Fashion Designer
2	Agriculture	Broiler Poultry Farm Worker
	Logistics	Courier Associate
4	Construction	Bar Bender and Steel Fixer
5	Domestic Worker	Home Cook

SECTION 4 - ACTION PLAN

Resource and Budget

Sl No	Category	Activities	Budget
1	Promoting Self Employment Activities	Skill based training to the fishing community / other community on different aspects of fish processing technologies related to production of value added quality fish products (1 week Training for 30 students)	1,57,000
2	Promoting Self Employment Activities	Training on Nursery Techniques on Horticultural crops (Total 470 hours of Training for 30 students)	5,92,000
3	Organizing Entrepreneurship Development Programs	In association with CEDOK providing Entrepreneurship Development programs and providing loan assistance	2,50,000
4	Organizing Capacity building workshops	Organizing capacity building workshops for Subcommittee Members	50,000
5	Organizing Job fairs	Providing employment opportunities to the candidates who are seeking jobs	5,00,000
	TOTAL		15,49000

Title : One District One Product (Marine products) project proposed to be conducted.

Training program on value added Fish products.

The Sustainable, productive fisheries and aquaculture improve food and nutrition security, increase income and improve livelihoods, promote economic growth and protect our environment and natural resources. ... Small-scale aquaculture is especially important for meeting the world's growing demand for fish.

The program / effort has high relevance and scope –***Govt. Policy on "'One District One a Product – Marine products Sector''***

Objectives:

- To create livelihood opportunities in value added products of Fishery sector by providing entrepreneur development and facilitate linkages for transforming into viable self employment – micro-entrepreneurs in Fishery sector.
- To impart skill based training to the fishing community / other community on different aspects of fish processing technologies related to production of value added quality fish products from fresh water resources and their preservation.

15. Type of programmes – Agriculture and allied- Fishery Sector

EDP on creation of livelihood opportunities in Fishery sector .

Preparation of Value added – demand driven Fish Products

16. Districts to be selected

We envisage focusing to organise a program in Udupi district.

17. Whether the members are from the groups promoted by them or any other agency.

SHG members/Participants are selected from existing promotion agency – NRLM, Srishakthi, / Sanjevini, SKDRDP, Navodaya , local reputed groups, etc

18. Selection process of members:

As systematic selection process will be followed as per the guidelines.

Aspiration, intent and seriousness of SHG women members from fishing communities and others would be critical for the livelihood activity to be successful. In association with partner agencies – College of Fisheries, Fisheries federation and other competent authorities , the required number of trainees will be carefully identified/ selected focusing on women who will be willing and capable to transform themselves into micro-entrepreneurs.

The process will be fine tuned/ updated based on the local need and suggestions of PAC committee/ team consists of representatives from all the partners/ stakeholders mentioned above.

In addition to this, during the need assessment study necessary basic information will be collected from existing SHG members and based on the performance, credit linkages and interest of SHGs and PAC committee selection

19. Details of selected SHG members / group name/ date of formation/linked with bank details/bank name/whether bank loan availed – details.

After the selection of operational areas and need assessment study.

20. Place of the programme to be conducted –

Udupi District

21. Total number of SHG members to be covered under the training:

30 members

22. No. of batches of training programme to be conducted: *One*

23. Name of the Resource Agency, tie up with, if any

The program will be organised in association with Bhartiya Vikas Trust, Krishi Vigyan Kendra(KVK), Fisheries department and Udupi District Co-operative Fish Marketing Federation.

24. Name/s of the resource Persons / Trainers :

The program will be organised in association with Bhartiya Vikas Trust, Krishi Vigyan Kendra(KVK), Fisheries department and Udupi District Co-operative Fish Marketing Federation.

BVT with its vast network and association, faculties / Resource persons will be drawn from concerned reputed institutes like Fisheries college, federations, companies and other stakeholders of the sector/ partners

25, Any department officials to be invited as guest faculty

Dept. Animal husbandry aquaculture/ fishery dept , KVK and concerned Govt. Depts, Banks, expert.

26. Duration of the training programme - Details of day wise programme schedule. Topics to be covered, field visit, if any

Looking to the nature and contents of the program , the duration of the envisaged program can be 6 days with both classroom, soft skills and practical sessions. Training covers the following subjects, Fish cutlet, wafers, papad, prawns chutney, fish/prawns/squid pickle, fish chakli, breaded and battered products and exposure visits to fish drying/fish salting yards, fish landing centre, product manufacturing industry, etc.

Faculties / Resource persons will be drawn from reputed institutes like Fisheries college, aquaculture/ fishery dept, concerned Govt. Depts, Banks, experts, federations, companies and other stakeholders of the sector/ partners

- To impart skill based training to the fishing community / other community on different aspects of fish processing technologies related to production of value added quality fish products from fresh water resources and their preservation.

- To create livelihood opportunities in value added products of Fishery sector and facilitate linkages for transforming into viable self employment – micro-entrepreneurs in Fishery sector

Item wise budget details- Total Budget - Rs 1,57,000

I. Training and Refresher Training Cost Rs 1,02,000

2. Monitoring, Handholding & Admin Exps Rs 55,000

Break up of Training Program

TOTAL BUDGET REQUIRED			
SN	PARTICULARS	RATE (Rs.)	Udupi
1	Identification, Skill mapping and selection of participants	200/ part	6000
2	Honorarium for Resource Person / consultation	3000/ day	18000
3	Food for trainees and resource persons (Tiffin, Lunch and evening Snacks	100*6*30	18000
4	Training Manual, Training materials (invitation, file, writing pad, pen, mask, sanitizer, etc)Venue arrangements (banners, stage material etc)	100*6*30	10,000
5	Raw materials for practical training program Fish, prawn, dry prawns, squid etc. Ingredients for preparation of various products		15,000
5	Food Packaging materials a.PET jars (50g,100g,200g,500g) b. Standing pouches (various size)		10,000
7	Transportation charge (50 rs per day for 30 trainees for 6 days)	50*6*30	9,000
8	Field & Exposure visits	2 visits	10,000
11	Refreshers / Marketing interventions	100*2*30	6,000
12	Monitoring, Handholding & Admin Expenses		55000
	TOTAL		157,000

Outcome/impact of the program:

- Generates employment opportunities especially women based and scope for micro-entrepreneurship at Fishery sector
- Linkages with partners / Stakeholders for institutionalise the training and extension efforts
- Need based and market demand effort for enhanced income towards improving quality of life of fishing community and rural coastal community in general .
- Giving variety of Fish products & Develops creativity and innovation among women

Title: Training program on Nursery Techniques in Horticultural crops

Course content/ Syllabus layout:	**Introduction** Agriculture and Horticulture are vital sciences as they suffice the very basic need of food for the Human beings. There has been an increasing demand for horticultural crops more particularly fruit and plantation crops in both urban and rural areas of India. With this, the demand for good quality planting materials has gone up and hence the nursery business has developed rapidly in the recent years in our country. Qualitative and quantitative food can essentially be produced from healthy plants which in turn are produced only when their seedlings/sapplings are vigorous and healthy. Nursery is consequently the

	basic need of horticulture. Plant propagation techniques and practices is the core of horticulture nurseries. The planting materials for horticultural plantations are raised from seeds and vegetative parts. Most of the horticultural crops are propagated vegetatively for which nursery units are necessary. Establishment of horticultural nursery can be a viable livelihood option for the rural youth. There is need of advance training for skill up-gradation on nursery techniques and management practices wherein hands on training to farmers/farm women/Youths/Progressive farmers can play a pivotal role. **(Syllabus copy attached)** Introduction: Meaning of Nursery, Pre requisites for establishment of a horticulture nursery Propagation: need and potentialities, sexual and asexual methods of propagation and their advantages and disadvantages Nursery tools and implements Methods of vegetative propagation: cutting and layering techniques Methods of vegetative propagation: budding techniques Factors influencing rooting of cuttings and layering Use of growth regulators in propagation Techniques of propagation through specialized organs; corms, runner, suckers etc. Selection and maintenance of mother trees, collection of scion wood sticks Propagation structures: mist chamber, greenhouse, polyhouses and hardening chamber Media for propagation of plants in nursery beds and mist chambers Preparation of nursery beds and sowing of seeds

	Preparation and application of plant growth regulator solutions for seed germination and vegetative propagation Seed treatments for breaking seed dormancy and inducing vigorous seedling growth Seed stratification Preparation of different types of cuttings, layering, grafting and budding Maintenance of nursery records Application of plant protection chemicals in the nursery Uprooting/digging, labelling and packing of nursery plants Exposure visits for different polyhouse production units Assessment and evaluation
Learning objectives:	1.To produce quality planting materials of horticultural crops 2.To strengthen the knowledge of participants with respect to nursery techniques 3.To create awareness about the importance of quality planting materials in horticultural crops 4. To learn and practically manage the different components of Horticultural nursery towards being a successful entrepreneur
Course materials	Training manuals, Folders, Leaf lets, Propagation tools etc.
Supporting Organization	Krishi Vijnana Kendra
Facilities and Equipment requirements:	Playhouses/shade net houses for conducting practical work. **Requirements:** Training and pruning materials, grow bags/poly bags/pots, etc…
Outcome	This Training cater the knowledge and skill up gradation in the area of horticulture. The Horticulture is the science and art of production of fruits, vegetables, flowering plant, and landscaping; Besides it also deals with the preservation and production of value added products from fruits, vegetables and flowers. The importance of horticultural products in the

	diet of the human is immense. This Training offers self employment potential in its different specializations. Raising seedling of different crop plants be it fruit or for the aesthetic purpose, collectively called Nursery Management is an emerging area. The off-seasonal vegetable production and kitchen gardening are other areas in this sector offering better employment and nutrition opportunities. Urban gardening, roof top gardening and lawn management are equally becoming important at present.

TOTAL BUDGET REQUIRED

This Training is for 30 student for 470 hours,So as per NSDC the, training cost is 42rs/hour/student

So Total Budget required is for 470 hours of training for 30 students is

470*30*42=5,92,200
