Sl. No	Name of the Mineral	Production (in tonnes)
	Major Minerals	
1.	Iron Ore	410591MT
2.	Iron Ore Fines	202812MT
3.	Red Oxide	8398MT
4.	White Quartz	17522MT
	Minor Minerals	
1.	Building Stones	106944MT
2.	Ordinary Sand	150MT
3.	Pink Granite	3462.242 m^3
4.	Grey Granite	4711.298 m^3

Under the manufacturing sector, the major industry clusters consists of

- ISPATH Manufacture Industry
- Kumabar made unit, in Hampi ,Vijayanagara.
- BMM steel Manufacture industry
- Mirror embroidery work, Automobile cluster and forest based activities like Herbal medicinal planatation in Hospet taluq.
- Blanket weaving work and sugarcane cluster in Hospet taluq.

In addition to this there are 5 Industrial areas, 4 estate s,58 shedsand173 plots. They are:

Sl. No	Industrial Area	Extent (in acres)
1	Industrial near Druga bikar Phase I	53
2	Sai babu temple Phase II	166
3	Mukunda I T I College Phase III	89
4	A P M C Check post Phase IV	64
5	Dam Road	22
	Total	**394**

Vijayanagara– Developing District as Export Hub :

Under the Districts as Export Hubs Initiative", products and services with export potential have been identified for all districts of the country and a district export action plans have been prepared for such identified products and services for overseas markets

,which include specific actions required to support local exporters / manufacturers in producing /manufacturing identified products in adequate quantity and with the requisite quality ,for reaching potential buyers out side Karnataka .

According to the recent report released by the Ministry of Commerce and Industries, vijayanagara district has been ranked 09th out of 31 districts all over India recognized as export . Also the district stands in Karnataka as potential export hub afterBengaluru urban and Dakshina Kannada districts.

Sl.NO	District Name	Products Exported*	Export Value (in US$ M n)	Products with Export Potential
1.	Vijayanagara	1.Engineering Goods	1714.84	Granite, as, Apparels Jute products, Engineering products, Electrical Machinery and Transport Equipment, Engineering/ Iron ore based value added products, Pomegranate, Chilies Sugar jaggier organic
		2.Maize	07.26	
		3.Mica,Coalando therminerals	12.93	
		4.Fruitsand Vegetables	6.4	
		5. Organic and Inorganic Chemicals	5.55	
		Total of top 5 commodities	**1754.98**	
		Total Export of District	**1769.36**	

There is great demand for the Service activity in the district like, infrastructure development, Steel structures establishment jobs in Mechanical, Electrical, Civil, etc. sector have good demand. And also there are good scope for motels, resort, center's in the district.

Infrastructure development focused industries like fabrication, heavy structural Engineering works, electrical and Civil Engineering Enterprises have good demand in the district andalso Hotels, Motels, Hospitals, Residential Schools, Agri Farms, and Agro-based activities likeMilking, sheep rearing etc. Have good scope in the district.

Traditional Crafts:

One of the most famous artisian cluster of Vijayanagara district has been the Hospet Hampi UNESCO World Heritage place where native and traditional crafts.

.

Kumbars Embroidery

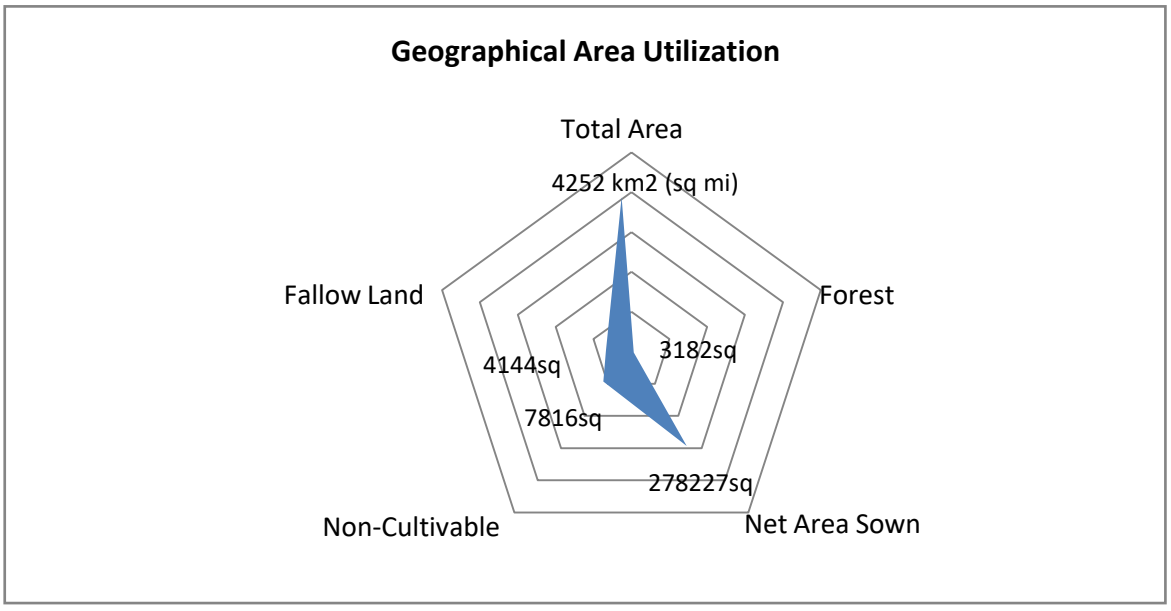

The most recognized and familiar craft here has been the **„Kumbars Kasuti / Kumbars Embroidery"** which is quite famous for its cross mud, made work and quiliting techniques The craft has been recognized as **" One Skill "** and some of the programs like (Recognition of Prior Learning) have been framed to bring this native craft into main stream training centres and provide a better market and create awareness in people about the diminishing craft of the region.

District Sector Profile

Primary Sector:

Agriculture and allied sectors in Vijayanagara takes 3rd place in the district economic profile just after Industries and Service sector in its contribution towards GDDP. The primary sector of Vijayanagara district contributes 13.1%* for the GDDP which is lesser than Karnataka state. As shown below, more than half of the total area has been utilized for agriculture and the district has been supported by Tungabhadra ,river which are extensively used for irrigation purpose .According to the district "s topology, the region gets an annual rainfall of 608mm and it gets most of its rainfall in south west monsoon as others in June – September months of the year.

*Vijayanagara dist

Some of the major crops has been shown below:

Sl.no	Cereals	Area Sown (in Hectares)	Out put (in Tonnes)	Taluks
1	Sugar cane	115280	710521	Hospet, Hagaribomanalli
2	Cotton . flower	14438	29586	Huvinahadagali, kotturu,

7.	Manasa Women and child Development Trust	Hagaribomanahalli	Health care –General Duty Assistant,Warehouse Picker and others

Vocational Training and Placement:

The perspective of vocation training is that through a professional skill training, a livelihood could be created for those who are dropped out of schools and colleges or who are very muchinterestedinanyofthelocaltraditionalcrafts.Vocationaltrainingisalsoaboutfulfillingthelong term demand aggregate of local industry by training the common demand requirement to people and placing them in the needy sector. Also to reduce the unemployment rate and the demand aggregation, in the recently framed National Education Policy(NEP)‟ the vocational training has been made a part of curicullum parallel to syllabus and also with facilities like Atal tinkering labor making surrounding ITI colleges, CMKVY training centers or DDU-GKY centers as their practical labs. Hence students before passing out from the school would know about their intersted domains which would further be helpful in selection of professional courses for graduation.

With students being persuaded towards research and development through vocational training on one side, on the other side it has been a basic eligibility in job requirements in every sector. Every institution in each sector now decided to invest on skilled labour rather than unskilled ones for better returns. So to curb the rate of unemployment and fulfilling the requirement condition institutions like VAS Education society (PMKK), Rural self employment training institutions GTTC and CEDOK provide short term training according to requirement of local work spaces. The short term courses only last from 3 days to 30 days. Some of the placement that have been achieved by the PMKVY centre in the previous years has been shown below :

PMKVY PLACEMENT Details (2022-2023)

1	Gender Wise Placement	Male-46%
		Female -50%
		Transgender-0.001%
2	PwD Placement	Male-76%
		Female -24%
3	Sector Wise Placement	Apparel-20%
		Electronics And Hardware -54%
		Retail-10%
		Beauty and Wellness- 7%
		Telecom-7%
		Logistics-6%
		IT-Ites-4%
		Construction -4%
		BFSI-3%
		Agriculture-3%

With not only a target to train and place the candidates, it also helps out in upgradation of that sector and also increases the employable opportunities which in turn increases the rate of percapita and GDP of the district. The below table shows the targets achieved by the district CMKVY training centres in the previous year :

SL. No	District	Total Trainings	Women	Schedule Caste (SC)	Schedule Tribe (ST)	Other Backward Classes (OBC)	Minorities	Physic ally Disabled Person s (PwD)
1	Vijayanagar	100	40	28	13	36	5	3

District Skill Committee

Monitoring and Evaluation

- Frequent Surprise in sections should be conducted to training centre ‟stoen surepro perexecution of the program.
- Assessments may be delegated to the officials of the state/central government located in the District.
- Monitoring after placement of the skilled persons to ensure the effectiveness of the skill training provided
- Conducting Periodical Exclusive awareness and assistance programs about existing loans and schemes for entrepreneurship.
- Getting continuous guidance from experts in a particular field.
- Systematic identification and upgradation about the newer companies/ industries established in the region and encouraging them to participate in the skill development initiatives.
- Utilize the already existing set up in the monitoring and evaluation process by coordinating with the professionals and experts available locally.
- Using of Rating and ranking system to the training providers to provide a level playing field.
- Utilizing the successful models identified in the process to strengthen the on going program’s which are relatively weak.

Conclusion

The Vijayanagara district has been tapped from overall perspective in all the sector and it on the path of positive development.

, The Vijayanagara district Most its resources after the partition of the districts and most of the untapped resources and newly developing taluks moved to the newly made Vijayanagara district. So with 6 Taluks in which taluks like Kudligi and Hoovinahadali are very much backward and neither suitable of tourism and and agriculture nor for service sector development. Due to lack of basic resouces and connectivity only few industrial sectors come forward for an establishment.

From the last decade the district's GDP has been dominated by the service sector followed by Industries and lastly by agriculture sector. With agriculture in need of cultivators, laborers and technology up gradation, Industries with long term demand for specific sector based skilled labor & machineries and service sector in need of qualified employees the district is in the verge of development all trans formation.

As the district administration working on it, being in slow pace there is a need a an credible action plan and a efficient monitoring system with a better inter departmental coordination and good Public – Private Partnership projects (PPP) it would not take a very long span to see a prosperous Vijayanagara .
